The address of its registered office is:

Level 5

2 More London Riverside

London

SE1 2AP

The principal place of business is:

48-50 St John Street

London

EC1M 4DG

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

The financial statements are presented in Sterling which is the functional currency of the company and rounded to the nearest £.

Group accounts not prepared

As the company is subject to the small companies regime, group accounts have not been prepared.

Going concern

The financial statements have been prepared on a going concern basis. The company has received assurance from its parent undertaking that it will not call in loans until such time that the company has sufficient resources to repay its loan.

Revenue recognition

Turnover represents advertising work done for customers together with production cost reimbursements, excluding VAT. Work done for customers is recognised as earned and production cost reimbursements are recognised at the point when the costs are incurred.

Kastner London Limited (formerly Kastner & Partners in London Limited)

Notes to the Financial Statements

Year Ended 31 December 2017

Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into the respective functional currency of the entity at the rates prevailing on the reporting period date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the initial transaction dates.

Non-monetary items measured in terms of historical cost in a foreign currency are not retranslated.

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the company. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

Tangible assets

Tangible assets are stated at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Leasehold property improvements	20% on cost
Fixtures and Fittings	33.33% on cost
Computer Equipment	20% on cost

Investments

Investments in equity shares which are not publicly traded and where fair value cannot be measured reliably are measured at cost less impairment.

Kastner London Limited (formerly Kastner & Partners in London Limited)

Notes to the Financial Statements

Year Ended 31 December 2017

Trade debtors

Trade debtors are amounts due from customers for services performed in the ordinary course of business.

Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the debtors.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade creditors are classified as current liabilities if the company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Borrowings

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs. Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the profit and loss over the period of the relevant borrowing.

Interest expense is recognised on the basis of the effective interest method and is included in interest payable and similar charges.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Leases

Leases in which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the company has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

8 Financial commitments, guarantees and contingencies

The total amount of financial commitments not included in the balance sheet is £554,974 (2016 - £68,392).

9 Related party transactions

During the year, the company paid expenses on behalf of its subsidiary undertaking, We Are Roux Limited, amounting to £25,487. The company received stock from We Are Roux Limited with a value of £16,571 and acquired liabilities amounting to £2,162. At the year end, full provision was made against amounts due to the company from We Are Roux Limited and an amount of £4,058 was written off as a bad debt.

10 Parent and ultimate parent undertaking

The company's immediate parent is Flying Spirit Limited, incorporated in Switzerland.

11 Audit report

The audit report on the full accounts was signed by Steven Wakefield as senior statutory auditor on behalf of Dixon Wilson, Statutory Auditor. The audit report was unqualified and no reference was made to any matters to which the auditor drew attention by way of emphasis.
