Strategic Report for the year ended 31 December 2021

Strategy

O2 (Europe) Limited ("the Company") is a wholly owned subsidiary within the Telefónica group of companies (the "Telefonica Group"), a private limited company and the immediate parent company is Telefónica S.A., a company incorporated in Spain and primarily listed on the Spanish stock exchange. The Company does not have any trading activities and acts as a holding company within the Telefonica Group.

The Company does not have any customers, employees or suppliers and its principal activity is being a parent of Telefonica Deutschland Holding AG and its subsidiary companies (the "Telefonica Deutschland Group"), in which a 69.22% (2020: 69.22%) stake is held. As such the strategy of the Company is integral with that of the Telefonica Deutschland Group

Telefonica Deutschland Group

With a total of 45,7 million mobile accesses as of 31 December 2021, the Telefonica Deutschland Group is a leading provider in this market. The Telefonica Deutschland Group offers mobile and fixed services for private and business customers as well as innovative digital products and services. In addition, Telefonica Deutschland Group provides extensive mobile communications services to wholesale partners.

In 2021, at 5,492 million EUR, mobile services were the most important revenue stream for the Telefonica Deutschland Group (70,7% of total volume). The basis for this is the Telefónica Deutschland Group's mobile communications network, which in 2021 has further expanded and improved the Long-Term Evolution ("LTE") network which is also reflected in the results of the current mobile network test by trade magazine connect. The Telefonica Deutschland Group switched off older 3G network in 2021 to make additional spectrum available for LTE. Customers and the customers of Telefónica Deutschland Group's partners will benefit from the enhanced LTE network experience. The Telefonica Deutschland Group also secured nationwide spectrum totalling 90 MHz focusing on the high-performance mobile communications standard in the mobile communications auction in 2019. The auctioned spectrum has a term from 2021 to 2040 and from 2026 to 2040 and includes frequencies that provide both coverage (low frequencies) and capacity (high frequencies).

The Telefonica Deutschland Group also offers nationwide fixed services to complement mobile services. Fixed-line customer base amounted to around 2.3 million at the end of 2021. This offering is based on the strategic partnership with Telekom Deutschland GmbH and access agreements with Vodafone and Tele Columbus. The Telefonica Deutschland Group also connects more households with advanced Fiber to the Home ("FTTH") connectivity through a partnership with Unsere Grüne Glasfaser (UGG), which was established in 2020 as an independent wholesale company by Telefónica Group / Telefonica Deutschland Group and Allianz Group, with the Telefonica Deutschland Group holding a 10% stake. UGG installs fibre-optic connections in previously underserved rural areas. The roll-out began in 2021. By 2026, up to 2.2 million households will be connected with FTTH, complementing the Telefónica Deutschland Group's fixed-line coverage.

The Telefonica Deutschland Group use many channels to distribute a wide variety of terminal devices to our customers. It also supplies partners with hardware to some extent and support them as needed in the sales and marketing of the hardware to their customers, increasingly focusing on the sale of 5G-enabled smartphones, however.

**Strategic Report
for the year ended 31 December 2021 (continued)**

Telefonica Deutschland Group (continued)

In order to make the Telefónica Deutschland Group's offerings even more attractive for customers and to increase our revenues outside our core business, a variety of additional products and services are offered. These include products and services in connection with Internet of Things (IoT) as well as digital additional services. In 2021, The Telefonica Deutschland Group expanded the entertainment offer, partnering with Netflix and Sky Deutschland.

The performance of the Company is dependent on the financial performance of its investment in the Telefónica Deutschland Group. The KPIs used for internal management in the Telefonica Deutschland Group include Revenue, OIBDA adjusted for exceptional items and investment ratio (Capex/Sales ratio). Other relevant KPIs are free cash flow and net leverage ratio.

Key Financial Performance Indicators

Revenues

The development of revenues is a key indicator of the success of the Telefónica Deutschland Group. Revenues depict the total value of the operational activity and are therefore a crucial indicator of the success of the products' and services' sales on the market.

Operating results (OIBDA) adjusted for exceptional effects

OIBDA corresponds to the operating income before amortisation of intangible assets and depreciation on property, plant and equipment. On the basis of the OIBDA, we measure the profitability of the operating activities.

Investment Ratio (CapEx/Sales ratio)

The investment ratio (Capex/Sales ratio) essentially serves to secure future business activities and reflects the percentage share of investments in revenue. Capital expenditure (Capex) consists of the additions to property, plant and equipment and other intangible assets. The investments in property, plant and equipment are primarily to expand the coverage and capacity of the network as well as for product development. Investments in mobile frequency licenses and mergers are not included in Capex.

Other Financial and Non-Financial Performance Indicators

Free Cash Flow

The free cash flow performance indicator is defined as the sum of the cash flows from operating activities and investing activities. It provides information about the changes in the Company's available financial funds, which enable it to make investments, pay dividends or service debt.

Net Leverage ratio

The net leverage ratio is defined as the quotient of the net financial debt and the OIBDA adjusted for exceptional effects for the last twelve months. It provides management with information about the Company's debt reduction ability.

Financial Performance

The financial performance of the Company is reported in the Directors' Report.

**Strategic Report
for the year ended 31 December 2021 (continued)**

Risks and uncertainties

The risk management framework is a component of the decision-making processes within the Telefónica Deutschland Group. The procedure ensures that risk evaluations are taken into account in decision-making and measures to minimise and deal with risks are taken at an early stage.

The risk management framework is designed to identify, assess, manage, monitor and mitigate significant risks that could adversely affect the future success of the subsidiaries through a well-established network of risk managers' bottom-up approach who comply with the unified Risk Register guidance. As part of the creation of the Risk Register, it is ensured that risks of a similar type or of cumulative effect are aggregated and thus provided for overall consideration. In addition, the top down approach ensures that risk which can only be identified at the highest level or on the basis of group-wide considerations are also captured. In a formal forward-looking process, the risk register of the Telefónica Deutschland Group is the subject of regular reporting to the Management Board. The Supervisory Board (Audit Committee) is regularly informed about risks and their development.

Minor risks are not included in the reporting to the Management Board and therefore are not included in the risk summary in the following section. Such risks are identified, documented and administered by the relevant management levels as part of the risk management process.

The principal significant risks and uncertainties of the Telefonica Deutschland Group are:

Business Risks

Competitive markets and changing customer demands

The Telefonica Deutschland Group operate in markets characterized by a high level of competition and continuous technological developments. The Telefonica Deutschland Group faces increasing competition from alternative telecommunications service providers – among them cable operators, mobile virtual network operators ("MVNOs") and consumer electronics companies – and also competes with alternative telecommunications services like over-the-top ("OTT"). There is the risk that growth targets and planned revenues will not be reached. In order to prevail against these companies and developments, the Telefonica Deutschland Group must also continue to provide competitive services and successfully market our products in the future. In doing so, the Telefonica Deutschland Group systematically observe new customers' needs, competitors' business activities, technological changes, and the general economic, political and social conditions and take them into account in Telefónica Deutschland Group's planning.

Regulatory issues

The Telefónica Deutschland Group's business activity is subject to significant influences and requirements by regulatory authorities. Any deviations in the interpretation of these requirements may result in fines and therefore have a negative effect on the Telefónica Deutschland Group's financial position or reputation. The regulatory authorities could take additional measures at any time in order to curtail tariffs and fixed or mobile telecommunications termination rates even more. They could similarly oblige the Telefonica Deutschland Group to grant third parties access to r networks at reduced prices.

**Strategic Report
for the year ended 31 December 2021 (continued)**

Operational Risks

Reliability of our services

Attracting and retaining customers

The success of the Telefónica Deutschland Group's business activity depends on the ability to attract new customers and retain existing customers. In an environment characterized by continuous further development of products, services and tariffs, the Telefonica Deutschland Group must also keep an eye on the performance of the network and that of the competitors. The Telefonica Deutschland Group counters this risk by intensively monitoring and evaluating customer satisfaction and by extensive monitoring of network elements.

Damage caused by cyber attacks

Cyberattacks on the network or Telefónica Deutschland Group's IT systems that are not detected or averted in good time could lead to disruptions or damage that could also affect services and thus result in lost revenue and customer dissatisfaction. The availability and confidentiality of data processed may be impacted by these attacks. In addition to reputational losses, legal consequences would also be possible, and Telefonica Deutschland Group could be fined. Risk is countered, on the one hand, by analysing and reducing weaknesses and focusing on an early warning system, and, on the other hand, constantly improving Telefónica Deutschland Group's systems for rectifying faults and establishing increased risk awareness among Telefónica Deutschland Group's employees with regard to cyberattacks.

Technical fault

Lasting or repeated disturbances or damages to our mobile telecommunications or fixed networks and in our technical facilities and systems could have a negative influence on customer satisfaction and result in a loss of customers or revenue losses. The Telefonica Deutschland Group implements extensive monitoring of network elements and systems. In addition, insurable risks are covered by Telefónica Deutschland Group's insurance programme. Comprehensive crisis and emergency management should enable to continue core business in the event of a disruption and then ensure the resumption of all business operations in order to achieve its corporate goals. Despite the continuous adjustment of the planned measures, the resumption of business operations could be delayed in the event of disruptions or failures.

O2 (Europe) Limited

**Strategic Report
for the year ended 31 December 2021 (continued)**

Section 172 Statement

The Company has practices and procedures in place to ensure the matters set out in Section 172(1) of the Companies Act 2006. During the year the directors reminded of the directors' duties, in particular the matters which should be considered when fulfilling the obligation to promote the Company's success. As a matter of routine Board agendas periodically feature stakeholders matters and board briefings have been updated to include analysis of the consideration of these matters:

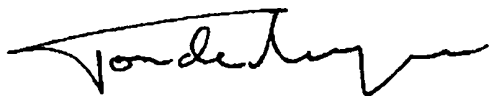

- The likely consequences of any decisions in the long term;
- The interests of employees;
- The need to foster the Company's business relationship with suppliers, customers and others;
- The impact of the Company's operation on the community and environment;
- The desire of the Company maintaining a reputation of high standard of business conduct; and
- The need to act fairly between shareholders of the Company (as the Company is a wholly owned subsidiary of Telefónica S.A. there are no minority shareholders).

The Company does not trade and does not have any customers, employees or suppliers.

Full details of the Telefonica Deutschland Group annual report and financial statement can be found at <https://www.telefonica.de/investor-relations-en/annual-report.html>

The Strategic Report has been approved by the Board on 12 September 2022.

By Order of the Board

Thomas Peter de Albuquerque
Director

O2 (Europe) Limited

Registered number: 04247143

Directors' Report for the year ended 31 December 2021

The directors present their annual report and the audited financial statements for the year ended 31 December 2021.

Legal Form and principal activities

O2 (Europe) Limited ("the Company") is a private limited company registered in the United Kingdom under the number 04247143. The registered office address is Highdown House, Yeoman Way, Worthing, West Sussex, United Kingdom, BN99 3HH. It is a wholly owned subsidiary of Telefónica S.A., a company incorporated in Spain.

The Company is an intermediate holding company in the Telefónica Group. At 31 December 2021, Telefonica Germany Holdings Limited (fully owned subsidiary of O2 (Europe) Limited) directly owns 69,22% of Telefónica Deutschland Holding AG, a company listed on the German stock exchange.

Directors and Secretary

The directors who held office during the year and up to the date of signing the financial statements were as follows:

Edward Smith	(Resigned 17 June 2021)
Enrique Medina Malo	(Resigned 17 June 2021)
Mark Hardman	(Resigned 17 June 2021)
Thomas Peter de Albuquerque	(Appointed 17 June 2021)
Guillermo Martínez Maside	(Appointed 17 June 2021)

The Secretaries who held office during the year were as follows:

O2 Secretaries Limited	(Resigned 17 June 2021)
Prism Cossec Limited	(Appointed 31 August 2021)

Directors' liability insurance and indemnities

Telefónica S.A., the Company's parent company, maintains Directors' and Officers' Liability Insurance in respect of legal action that might be brought against directors of companies within the Telefónica Group and the directors of the Company are covered by this Insurance. This indemnity was in force during the financial year and at the date of approval of the financial statements.

Financial Performance

The Company's total comprehensive loss for the year ended 31 December 2021 was €691,290,000 (31 December 2020: loss €867,727,000).

The Company's loss before taxation for the year ended 31 December 2021 was €695,292,000 (31 December 2020: loss €873,902,000).

The Company incurred an operating loss of €676,354,000 during the year ended 31 December 2021 (31 December 2020: operating loss €837,317,000), mainly due to the €676,286,000 impairment loss of the year (31 December 2020: €837,227,000) on the Company investments. This impairment is caused by the increase of the Telefónica Deutschland Group's weighted average cost of capital ("WACC") due to financial rates change (partially compensated with an increase in growth rate) and to a change in cash flows due to the disposal of the Telefónica Deutschland Group's tower operations in 2021.

**Directors' Report
for the year ended 31 December 2021 (continued)**

Financial Performance (continued)

The net assets of the Company as at 31 December 2021 were €8,493,138,000 (31 December 2020: €3,527,937,000). The increase is mainly due to a capital increase of €5.6bn received by its parent company.

The directors are of the opinion that analysis using key performance indicators is not necessary for understanding the Company's business itself.

Future development of the company

The directors believe the operating result will not change materially in 2022 as it is likely to remain a non-trading company.

Dividend

The Company did not pay a dividend for the year ended 31 December 2021 (2020: €nil).

Financial risk management objectives, policies and exposure

Details of the Telefónica Deutschland Group's approach to financial risk management are set out in note 3 of the financial statements.

Political contributions

The Company made no political contributions during the year ended 31 December 2021 (31 December 2020: €nil).

Going concern

The financial position of the Company is described above. In addition, note 3 to the financial statements includes the Company's objectives, policies and processes for managing its capital; its financial risk management objectives; and its exposures to credit risk and liquidity risk. Consequently, the directors believe that the Company is well placed to manage its business risk successfully.

The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for at least 12 months from the date of these financial statements. Furthermore, Telefónica S.A, the immediate parent company has the ability and willingness to provide continued support to the Company and hence provided the Company with a letter of support, and thus the directors have adopted the going concern basis of accounting in preparing the annual financial statements.

Statement as to disclosure to independent Auditors

So far as each director is aware, there is no relevant audit information of which the Company's auditors are unaware. The directors have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

O2 (Europe) Limited

Registered number: 04247143

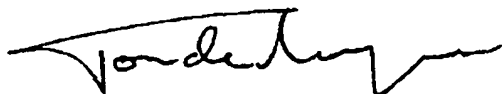

**Directors' Report
for the year ended 31 December 2021 (continued)**

Independent Auditors

Pursuant to section 487 of the Companies Act 2006, the independent auditors will be deemed to be reappointed and PricewaterhouseCoopers LLP will therefore continue in office.

The Directors' Report was approved by the Board on 12 September 2022.

By Order of the Board

A handwritten signature in black ink, appearing to read 'T. de Albuquerque', with a stylized flourish at the end.

Thomas Peter de Albuquerque
Director

Statement of Directors' Responsibilities

The directors are responsible for preparing the Annual Report and Financial Statements and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with UK-adopted international accounting standards.

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable UK-adopted international accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

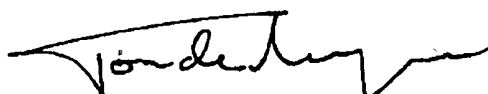

Directors' confirmations

In the case of each director in office at the date the directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

The Statement of Directors' Responsibilities was approved by the Board on 12 September 2022.

By Order of the Board

Thomas Peter de Albuquerque
Director

O2 (Europe) Limited

Registered number: 04247143

Independent auditors' report to the members of O2 (Europe) Limited

Report on the audit of the financial statements

Opinion

In our opinion, O2 (Europe) Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2021 and of its loss and cash flows for the year then ended;
- have been properly prepared in accordance with UK-adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: Statement of financial position as at 31 December 2021; Statement of comprehensive income, Statement of changes in equity and Statement of cash flows for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

**Independent auditors' report to the members of O2 (Europe) Limited
(continued)**

With respect to the Strategic report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' Report for the year ended 31 December 2021 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to Companies Act 2006, and we considered the extent to which non-compliance might have a material effect on the financial statements. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to management bias in determining accounting estimates. Audit procedures performed by the engagement team included:

- Discussions with management including consideration of known or suspected instances of non-compliance with laws and regulations or fraud;
- Challenging assumptions and judgements made by management in their significant accounting estimates and judgements, in particular in relation to the carrying value of investments; and
- Review of board minutes for consideration of known or suspected instances of non-compliance with laws and regulations or fraud.

O2 (Europe) Limited

Registered number: 04247143

**Independent auditors' report to the members of O2 (Europe) Limited
(continued)**

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one

resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

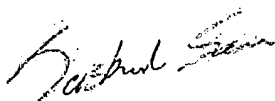

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

The accompanying notes on pages 20 to 32 are an integral part of these financial statements

O2 (Europe) Limited

Registered number: 04247143

Notes to financial statements

1. General information

O2 (Europe) Limited is a private company limited by shares incorporated in the United Kingdom. Its registered office address is Highdown House, Yeoman Way, Worthing, West Sussex, United Kingdom, BN99 3HH.

The Company's financial statements are presented in Euros and all values are rounded to the nearest thousand Euros (€000) except where otherwise indicated.

The Company has taken advantage of the exemption under s401 of the Companies Act 2006 not to prepare group financial statements as it is a wholly owned subsidiary. These financial statements present information about the Company as an individual undertaking and not about its group.

The results of O2 (Europe) Limited are included in the consolidated financial statements of Telefónica, S.A. which are available at Gran Via 28, 28013, Madrid, Spain.

2. Basis of preparation

These financial statements have been prepared in accordance with UK-adopted International Accounting Standards in conformity with the requirements of the Companies Act 2006.

The financial statements have been prepared using historical cost principles.

The principal accounting policies of the Company applied in the preparation of these financial statements are set out below. The IFRS accounting policies have been applied consistently to all periods presented.

3. Accounting policies

Functional Currency

The Company financial statements are presented in euros, which is also the functional currency.

Going concern

The financial position of the Company is described in the Strategic report. In addition, note 3 to the financial statements includes the Company's objectives, policies and processes for managing its capital; its financial risk management objectives; and its exposures to credit risk and liquidity risk. Consequently, the directors believe that the Company is well placed to manage its business risk successfully.

The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for at least 12 months from the date of these financial statements. Furthermore, Telefónica S.A, the immediate parent company has the ability and willingness to provide continued support to the Company and hence provided the Company with a letter of support, and thus the directors have adopted the going concern basis of accounting in preparing the annual financial statements.

Taxation

The charge for current tax is based on the results for the period as adjusted for items which are non-assessable or disallowed.

Notes to financial statements

3. Accounting policies (continued)

Taxation (continued)

Deferred income tax is provided in full, using the statement of financial position liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable future taxable profits will be available against which deductible temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax and current tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Income tax relating to items recognised directly in other comprehensive income is also recognised directly in other comprehensive income.

Investments

Investments are stated at cost less provision for impairment. An impairment loss is recognised for the amount by which the investment's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an investment's fair value less costs to sell and value in use.

Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets with a definite useful life are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows ("cash-generating units").

Dividends

Dividend distributions to the Company's shareholders are recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's board. Income is recognised when the company's rights to receive the payment is established. Dividends received from subsidiary companies are recognised as finance income in the Company's financial statements in the period in which the dividends are received.

Trade and other receivables

Trade and other receivables are carried at original invoice amount less provision for doubtful debts. A provision for doubtful debts is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. Provisions are made based on an analysis of balances by age, previous losses experienced, disputes and ability to pay. The amount of the provision is the difference between the carrying amount and the present value of estimated future cash flows. Changes in the provision against receivables are recognised in the statement of comprehensive income within cost of goods sold.

Notes to financial statements

3. Accounting policies (continued)

Foreign currency

Transactions denominated in foreign currencies are translated at the exchange rate on the day the transaction occurred to the functional currency of the entity. Monetary assets and liabilities denominated in foreign currencies are translated at the rates ruling at the statement of financial position date.

Foreign exchange differences arising on translation are recognised in the statement of comprehensive income and allocated to categories most appropriate for the nature of the underlying transaction. Non-monetary assets and liabilities denominated in foreign currency are translated at the foreign currency exchange rate ruling at the dates the non-monetary assets and liabilities are recognised.

Financial risk factors and management

The Company's operations expose it to a variety of financial risks including interest rate risk, credit risk, liquidity risk and risk related to the fair value of financial instruments.

The principal financial risks of the Company and how the Company managed these risks are discussed below.

Credit risk

The Company does not have a significant exposure to credit risk. All of the Company's credit balances are held with companies within the Telefónica Group.

Liquidity risk

Management of the Company's liquidity risk is achieved mostly through being a part of the larger Telefónica Group, which operates group wide policies in this area. The Company also maintains its own committed borrowing facilities, and holds financial assets primarily in short-term deposits with a central Telefónica Group company that are readily convertible to known amounts of cash. These measures help keep liquidity risk low.

Interest rate risk

The Company's interest rate risk arises primarily from the effects of movements in interest rates on the value of the Company's borrowings and financial assets. During the year it was policy to fix or protect expected interest flows where Company profits or key financial ratios would be materially at risk from interest rate movements.

Fair value of financial instruments

The carrying value and fair value of the Company's financial assets and financial liabilities are not deemed to be materially different at 31 December 2021 and 31 December 2020.

Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. Cash and cash equivalents includes cash in hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Notes to financial statements

3. Accounting policies (continued)

New and amended standards adopted by the company

The accounting policies applied in the preparation of the financial statements for the year ended December 31, 2021 are consistent with those used in the preparation of the Company's annual financial statements for the year ended December 31, 2020, with the exception of the following new standards and amendments to existing standards in accordance with UK-adopted International Accounting Standards in conformity with the requirements of the Companies Act 2006, which are mandatory for annual periods beginning on or after January 1, 2021.

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16: Interest Rate Benchmark Reform - Phase 2

The amendments provide practical expedients which address the financial reporting effects when a company replaces the old interest rate benchmark with an alternative benchmark rate as a result of the ongoing reform of inter-bank offered rates (IBOR) and other interest rate benchmarks. The main temporary reliefs are as follows:

Changes to contractual cash flows—an entity will not have to derecognise or adjust the carrying amount of financial instruments for changes required by the reform but will instead update the effective interest rate to reflect the change to the alternative benchmark rate.

Hedge accounting: if a hedge meets other hedge accounting criteria, an entity will not have to discontinue its hedge accounting solely because it makes changes that are required by the reform.

In preparing the financial statements, the Company uses these practical expedients to the extent that they are applicable, as the process to replace the different benchmark rates it is exposed to progresses. In addition to this, the Company has considered the disclosure requirements about new risks arising from the reform and how it manages the transition to alternative benchmark rates in the preparation of the annual financial statements.

Amendments to IFRS 16: Covid19-related Rent Concessions beyond 30 June 2021

The amendments extend for an additional year the relief provided to lessees from applying IFRS 16 guidance on lease modification accounting for rent concessions (such as rent holidays or rent reductions for a period of time) arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification and therefore account for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under IFRS 16 if the change were not a lease modification.

The amendment applies to annual reporting periods beginning on or after April 1, 2021, with earlier application permitted. Companies shall apply the amendment, at the latest, as from April 1, 2021, for financial years starting on or after January 1, 2021. This amendment had no impact on the financial statements of the Company.

New standards and amendments to standards issued but not effected as of December 31, 2021.

At the date of preparation of the financial statements, the following IFRS and amendments to existing standards had been published, but their application is not mandatory:

Notes to financial statements

3. Accounting policies (continued)

New standards and amendments to standards issued but not effected as of December 31, 2021 (continued)

Standards and amendments		Mandatory application: annual periods beginning on or after
Amendments to IAS 37	<i>Cost of Fulfilling a Contract</i>	January 1, 2022
Amendments to IFRS 3	<i>Reference to the Conceptual Framework</i>	January 1, 2022
Annual Improvements 2018-2020 Cycle		January 1, 2022
Amendments to IAS 16	<i>Proceeds before Intended Use</i>	January 1, 2022
Amendments to IAS 1	<i>Classification of Liabilities as Current or Non-current</i>	January 1, 2022
IFRS 17	<i>Insurance Contracts</i>	January 1, 2023
Amendments to IAS 1	<i>Disclosure of Accounting Policies</i>	January 1, 2023
Amendments to IAS 8	<i>Definition of Accounting Estimates</i>	January 1, 2023
Amendments to IAS 12	<i>Deferred Tax related to Assets and Liabilities Arising from a Single Transaction</i>	January 1, 2023

Based on the assessment made to date, the Company estimates that the adoption of these new pronouncements will not have a significant impact on the financial statements in the initial period of application.

Critical judgements and estimates in applying accounting policies

The preparation of financial statements in accordance with IFRS requires the use of certain critical accounting estimates and judgements. A significant change in the facts and circumstances on which these estimates and judgements are based could have a material impact on the Company's earnings and financial position. There are no areas involving a higher degree of judgement or complexity which could result in a material impact in the financial statements. The estimates and assumptions which are significant to the financial statements are discussed below.

Impairment of investments - Critical accounting estimate

An impairment exists when the carrying value of an investment exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from forecasts. The recoverable amount is most sensitive to the discount rate used in the discounted cash flow model as well as the expected cash inflows and the growth rate used for extrapolation purposes.

4. Directors' emoluments and employees

No emoluments or other benefits were paid to the directors for services to the Company during the year ended 31 December 2021 (2020: €nil). The directors are employees of other companies in the Telefónica Group, and are remunerated by other companies within the Telefónica Group for their services to the Telefónica Group.

The Company had no employees during the year ended 31 December 2021 (2020: nil).

O2 (Europe) Limited

Registered number: 04247143

Notes to financial statements**5. Net Financial income/(expense)**

	Year ended 31 December 2021 €'000	Year ended 31 December 2020 €'000
Foreign exchange gains	755	302
Financial income	755	302
Interest expense from group undertakings	(18,666)	(36,617)
Foreign exchange loss	(916)	(20)
Other interest expenses	(111)	(250)
Financial expense	(19,693)	(36,887)
Net financial expense	(18,938)	(36,585)

6. Tax on profit/(loss)

	Year ended 31 December 2021 €'000	Year ended 31 December 2020 €'000
Current tax charge/(credit)	(4,002)	(6,072)
Adjustments in respect of prior periods: (credit)/charge	-	(103)
Current Tax charge / (credit)	(4,002)	(6,175)

The tax assessed for the year varied from the amount computed by applying the UK statutory tax rate to profit or loss on ordinary activities before taxation. The differences were attributable to the following factors:

	Year ended 31 December 2021 €'000	Year ended 31 December 2020 €'000
(Loss)/Profit before taxation	(695,292)	(873,902)
(Loss)/Profit before taxation multiplied by rate of Corporation tax in the UK of 19% (2020: 19%)	(132,105)	(166,041)
Effects of:		
Expenses not deductible	128,843	159,741
Foreign exchange movements	(740)	228
Prior year adjustments	-	(103)
Taxation (credit)/charge for the year	(4,002)	(6,175)

The statutory tax rate is the U.K. rate of 19.0%. In March 2021, legislation was introduced to increase the U.K. corporate income tax rate from 19.0% to 25.0% from 1 April 2023. This rate change was substantively enacted on 24 May 2021 (Finance Bill 2021).

Notes to financial statements

7. Investments in subsidiary undertakings

	Shares in subsidiary undertakings
Cost	€'000
At 1 January 2020	10,197,180

At 31 December 2020	10,197,180
Movement during the year	3,463,117
At 31 December 2021	13,660,297
Impairment	
At 1 January 2020	3,921,647
Movement during the year	837,227
At 31 December 2020	4,758,874
Movement during the year	676,286
At 31 December 2021	5,435,160
Net book amount	
At 31 December 2021	8,225,137
At 31 December 2020	5,438,306

In May 2021, the Company issued a capital increase of €3.4bn to its subsidiary Telefonica Germany Holdings Limited.

Investments in subsidiary undertakings are tested for impairment annually or more frequently if there are certain events or changes indicating the possibility that the carrying amount may not be fully recoverable. The potential impairment loss is determined by assessing the recoverable amount of the investments in subsidiary undertakings. If this recoverable amount is less than the carrying amount, an impairment loss is recognised.

At the end of the year ended 31 December 2021, the Company conducted an impairment test on its investment in Telefonica Deutschland AG using the discounted future cash flows and concluded that there is an impairment of €676,286,000 to be recorded (2020: €834,232,000).

The recoverable amount of the investments in Telefonica Deutschland AG has been determined based on a value in use calculation using cash flow projections from financial budgets covering a five-year period, applying a pre-tax discount rate of 5.20% (2020: 4.80%), perpetuity growth rate of 1.1% (2020: 1%), terminal OIBDA Margin of 31.8% (2020: 31.6%) and terminal Capex/Revenues rate of -14.50% (2020: -14.80%).

The Company did not recognise any impairment loss (2020: €2,995,000) in relation to its investments in O2 International Holdings Limited.

The Company disposed of its investment in O2 (Online) Limited after liquidation of the company, on amount of €339,883.

O2 (Europe) Limited

Registered number: 04247143

Notes to financial statements**7. Investments in subsidiary undertakings (continued)****Sensitivity to changes in assumptions**

The Telefónica Group carries out its sensitivity analysis of the impairment test by considering reasonable changes in the main assumptions used in calculating value in use assuming the following increases or decreases in the assumptions, expressed in percentage points:

Assumption	Change	Valuation Impact (€'000)	Change	Valuation Impact (€'000)
Discount rate	0.5%	(1,272,000)	-0.5%	1,627,000
Perpetuity growth rates	0.25%	664,000	-0.25%	(589,000)
Terminal OIBDA Margin	1.50%	1,685,000	-1.50%	(1,686,000)
Terminal ratio of CAPEX / Revenues	0.75%	(1,238,000)	-0.75%	1,237,000

After considering the different sensitivities outlined above, management has considered that no additional impairment is deemed necessary in the current year.

A complete list of the Company's subsidiary undertakings at 31 December 2021 is given below.

On 26 May 2021, the Company received a capital increase of €5.6bn from its immediate parent company Telefónica S.A.

The Company has one class of issued share capital, comprising ordinary shares of €1 each. Subject to the Company's Articles of Association and applicable law, the Company's ordinary shares confer on the holder: the right to receive notice of and vote at general meetings of the Company; the right to receive any surplus assets on a winding-up of the Company; and an entitlement to receive any dividend declared on ordinary shares.

Capital management

The Company's capital comprises share capital, share premium and retained earnings.

The Company's objectives when managing capital are to safeguard the Company's ability to continue to operate as a going concern, to maintain optimal capital structure commensurate with risk and return and to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Telefonica Deutschland Group may pay dividends to its shareholders, return capital to its shareholders, issue new shares or sell assets to reduce debt or draw down more debt.
