NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2015

1. Accounting policies

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

1.2 Going concern

The financial statements have been prepared on a going concern basis notwithstanding the fact that the company has a deficiency on shareholder's funds at the end of the year. The director considers this basis to be appropriate as the company has sufficient facilities available from its shareholder to fund its working capital requirements over the next 12 months.

1.3 Turnover

Turnover comprises revenue recognised by the company in respect of goods supplied during the year, exclusive of Value Added Tax and trade discounts.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Fixtures & fittings

20% straight line

1.5 Investments

Investments held as fixed assets are shown at cost less provision for impairment.

1.6 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

1.7 Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

370

There is a potential deferred tax asset of approximately £59,000 (2014: £65,000), which has not been recognised in the financial statements due to the uncertainty concerning the timescale as to its recoverability.

It is anticipated that the deferred tax asset will be recovered when the company makes sufficient taxable profits.
