Statement of accounting policies

Basis of preparation

These financial statements are prepared on the going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom

The principal accounting policies, which have been applied consistently throughout the year, are set out below

Taxation

Corporation tax is provided on taxable profits at the applicable rate

Finance receivable

The costs incurred in respect of bid development, design and construction prior to the occupational availability of the Cabinet War Rooms have been accumulated within a finance receivable in accordance with FRS 5 as the costs are to be recovered over the contract period

Finance income on the finance receivable is recognised so as to generate a constant rate of return over the contract period

Finance charges

Costs incurred in raising finance are written off over the period that each respective financial instrument is to remain in place. The directors have determined this to be 29 years for the term loan facility.

Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date

Deferred tax assets are recognised when it is more likely than not they will be recovered. The deferred tax assets and liabilities are discounted

Cash

For the purposes of the cash flow statement, comprises cash in hand and deposits repayable on demand, less overdrafts payable on demand
