## NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS

### 1 Accounting policies

The significant accounting policies adopted by the company are as follows:

#### **Basis of preparation**

These financial statements are prepared on a going concern basis, under the historical cost convention and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom. The principal accounting policies are set out below.

#### **Reporting currency**

The reporting currency used in these financial statements is the sterling pound, denoted by the symbol "£".

#### **Financial assets**

Financial asset investments are stated at cost less any provision for impairment.

#### **Turnover**

Turnover represents commission income receivable from members' trades settled in the financial year.

#### **Foreign currencies**

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate ruling at the date of the transaction. Profits and losses arising from foreign currency translation and on settlement of amounts receivable and payable in foreign currency are dealt with through the profit and loss account. Monetary assets are money held and amounts received in money; all other assets are non monetary assets.

#### **Taxation**

The charge for taxation is based on the profits for the year.

#### **Deferred taxation**

Deferred tax is provided on all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date.

Timing differences are temporary differences between profits as computed for tax purposes and profits as stated in the financial statements, which arise because certain items of income and expenditure in the financial statements are dealt with in different years for tax purposes.

Deferred tax is measured at the tax rates that are expected to apply in the years in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is not discounted.

A deferred tax asset is recorded where it is more likely than not to be recoverable. The recoverability of deferred tax assets is assessed annually by the directors.

#### **Pensions**

During the year the company operated a defined contribution pension scheme. The accounting policy was to charge to the profit and loss account the amount of contributions payable to the scheme in respect of the financial period in which the company had employees.
