The financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with the provisions of FRS 102 Section 1A - small entities.

The company has opted not to file the statement of income and retained earnings in accordance with provisions applicable to companies subject to the small companies' regime.

The financial statements were approved and authorised for issue by the board on and were signed on its behalf by:

M Cadematori

Director

Date: 7/11/23

For the year ended 31 December 2022

1. General information

Weichert Workforce Mobility UK Limited is a company limited by shares and incorporated in England & Wales. The registered office address is 5 New Street Square, London EC4A 3TW and the principal place of business is Level 3, Brockbourne House, 77 Mount Ephraim, Tunbridge Wells, Kent TN4 8BS. The registered number is 04285569.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102 section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' ('FRS 102') and the Companies Act 2006.

The following principal accounting policies have been applied:

2.2 Going concern

At the reporting date, the company's liabilities exceeded its assets. The company has received assurance from its immediate parent company, Weichert Workforce Mobility Inc., that it will continue to give financial support to the company for the foreseeable future sufficient to enable the company to meet its liabilities as and when they fall due and to defer repayment of its loans in favour of other creditors.

On this basis, the directors consider it appropriate to prepare the financial statements on a going concern basis. However, should the financial support from the immediate parent company not be forthcoming if requested, the going concern basis used in preparing the company's financial statements may be invalid and adjustments would have to be made to reduce the value of assets to their realisable amount and to provide for any further liabilities that might be necessary should this basis not continue to be appropriate.

2.3 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

Rendering of services

Revenue from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably;
 and
- the costs incurred and the costs to complete the contract can be measured reliably.

2.4 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

For the year ended 31 December 2022

Accounting policies (continued)

2.4 Tangible fixed assets (continued)

Depreciation is provided on the following basis:

Leasehold improvements

- over the term of the lease

Computer and office equipment - over 3 years

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.5 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.6 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.7 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in ordinary shares.

2.8 Creditors

Short-term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.9 Provision for liabilities

Provisions are made where an event has taken place that gives the company a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are recognised in the Statement of financial position in the year that the company becomes aware of the obligation, and are measured at the best estimate at the reporting date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties. Provisions for dilapidations are capitalised in tangible fixed assets and charged to profit or loss over the period of the lease.

When payments are eventually made, they are charged to the provision carried in the Statement of financial position.

For the year ended 31 December 2022

2. Accounting policies (continued)

2.10 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.11 Operating leases: the company as lessee

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the lease term, unless another systematic basis is representative of the time pattern of the lessee's benefit from the use of the leased asset.

2.12 Pensions

Defined contribution pension plan

The company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity. Once the contributions have been paid the company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Statement of financial position. The assets of the plan are held separately from the company in independently administered funds.

2.13 Interest income

Interest Income is recognised in profit or loss using the effective interest method.

2.14 Functional and presentational currency

The company's functional and presentational currency is GBP.

For the year ended 31 December 2022

2. Accounting policies (continued)

2.15 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the reporting date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

3. Employees

The average monthly number of employees, including directors, during the year was 57 (2021 - 47).

For the year ended 31 December 2022

4. Tangible fixed assets

9. Pension commitments

The company contributes to employees' personal pension schemes. The assets of those schemes are held separately from those of the company in independently administered funds. The pension cost charge represents contributions payable by the company to the fund and amounted to £136,566 (2021: £96,521). Contributions of £26,219 (2021: £7,152) were payable to the fund at the reporting date.

10. Parent undertaking

The company's immediate parent undertaking is Weichert Workforce Mobility Inc., a company incorporated in the United States of America. The company's ultimate parent undertaking is Weichert Workforce Mobility Holdings Inc., also incorporated in the United States of America. Consolidated financial statements are prepared by Weichert Workforce Mobility Holdings Inc., but the consolidated financial statements are not available to the public.

11. Auditor's information

The auditor's report was unqualified, and there were no matters to which the auditor drew attention by way of emphasis.

The auditor's report was signed by Mark Worsey (Senior statutory auditor) for and on behalf of Buzzacott LLP, 130 Wood Street, London EC2V 6DL.
