DIRECTORS' REPORT

FOR THE YEAR ENDED 30 SEPTEMBER 2022

The directors present their annual report and financial statements for the year ended 30 September 2022.

Principal activities

The principal activity of the company continued to be that of the development and sale of Enterprise cloud-based software on a software-as-a service (SaaS) basis and associated professional consultancy services.

The company has taken the exemptions conferred by S414(B) of the Companies Act 2006 to not prepare a strategic report on the grounds that it would qualify as small but for being a member of an ineligible group.

The company has also taken the exemptions conferred by S415(A) of the Companies Act 2006 permitting it to prepare a Directors' Report in accordance with the small companies' regime on the grounds that it would qualify as small but for being a member of an ineligible group.

Results and dividends

The results for the year are set out on page 6.

No ordinary dividends were paid (2021 - £nil). The directors do not recommend payment of a final dividend (2021 - £nil).

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Mr S P Crowther
Ms A M Levett
Mr R H Cunningham
Mr D D Whibley

(Resigned 1 August 2022)

(Appointed 1 August 2022)

Auditor

The auditor, Saffery Champness LLP, is deemed to be reappointed under section 487(2) of the Companies Act 2006.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

On behalf of the board

Mr S P Crowther

Director

16 December 2022

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 30 SEPTEMBER 2022

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF I-SOLUTIONS GLOBAL LIMITED

Opinion

We have audited the financial statements of i-solutions Global Limited for the year ended 30 September 2022 which comprise the statement of comprehensive income, the statement of financial position, the statement of changes in equity and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101, 'Reduced Disclosure Framework'.

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 September 2022 and its loss for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice including FRS 101; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Directors' Report has been prepared in accordance with applicable legal requirements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF I-SOLUTIONS GLOBAL LIMITED

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to take advantage of the small companies' exemptions from the requirement to prepare a Strategic Report and in preparing the Directors' Report.

Responsibilities of directors

As explained more fully in the Directors' Responsibilities Statement set out on page 2, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The specific procedures for this engagement and the extent to which these are capable of detecting irregularities, including fraud are detailed below.

Identifying and assessing risks related to irregularities:

We assessed the susceptibility of the company's financial statements to material misstatement and how fraud might occur, including through discussions with the directors, discussions within our audit team planning meeting, updating our record of internal controls and ensuring these controls operated as intended. We evaluated possible incentives and opportunities for fraudulent manipulation of the financial statements. We identified laws and regulations that are of significance in the context of the company by discussions with directors and updating our understanding of the sector in which the company operates.

Laws and regulations of direct significance in the context of the company include The Companies Act 2006, and UK Tax legislation.

INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF I-SOLUTIONS GLOBAL LIMITED

Audit response to risks identified:

We considered the extent of compliance with these laws and regulations as part of our audit procedures on the related financial statement items including a review of financial statement disclosures. We reviewed the company's records of breaches of laws and regulations, minutes of meetings and correspondence with relevant authorities to identify potential material misstatements arising. We discussed the company's policies and procedures for compliance with laws and regulations with members of management responsible for compliance.

During the planning meeting with the audit team, the engagement partner drew attention to the key areas which might involve non-compliance with laws and regulations or fraud. We enquired of management whether they were aware of any instances of non-compliance with laws and regulations or knowledge of any actual, suspected or alleged fraud. We addressed the risk of fraud through management override of controls by testing the appropriateness of journal entries and identifying any significant transactions that were unusual or outside the normal course of business. We assessed whether judgements made in making accounting estimates gave rise to a possible indication of management bias. At the completion stage of the audit, the engagement partner's review included ensuring that the team had approached their work with appropriate professional scepticism and thus the capacity to identify non-compliance with laws and regulations and fraud.

There are inherent limitations in the audit procedures described above and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 SEPTEMBER 2022

1 Accounting policies

Company information

i-solutions Global Limited is a private company limited by shares incorporated in England and Wales. The registered office is 27-28 Eastcastle Street, London, W1W 8DH. The company's principal activities and nature of its operations are disclosed in the directors' report.

1.1 Accounting convention

The financial statements have been prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101) and in accordance with applicable accounting standards.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £1.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

As permitted by FRS 101, the company has taken advantage of the following disclosure exemptions from the requirements of IFRS:

- the requirements of IAS 7 'Statement of Cash Flows' to present a statement of cash flows;
- disclosure of key management personnel compensation;
- comparative period reconciliations for the number of shares outstanding and the carrying amounts of property, plant and equipment and intangible assets;
- the requirements of IFRS 7 'Financial Instruments: Disclosure';
- paragraphs 30 and 31 of IAS 8 'Accounting policies, changes in accounting estimates and errors' (requirement for the disclosure of information when an entity has not applied a new IFRS that has been issued but is not yet effective);
- a reconciliation of the number and weighted average exercise prices of share options, how the fair value of share-based payments was determined and their effect on profit or loss and the financial position; and
- the requirements of IAS 24 'Related Party Disclosures' to disclose related party transactions and balances between two or more members of a group.

Where required, equivalent disclosures are given in the group accounts of i-nexus Global Plc. The group accounts of i-nexus Global Plc are available to the public and can be obtained as set out in note 28.

The company has taken advantage of the exemption under section 400 of the Companies Act 2006 not to prepare consolidated accounts. The financial statements present information about the company as an individual entity and not about its group.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

1 Accounting policies

(Continued)

1.2 Going concern

The directors have at the time of approving the financial statements, a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

The company prepares regular business forecasts and monitors its projected cash flows, which are reviewed by the board. Forecasts are adjusted for reasonable sensitives that address the principal risks and uncertainties to which the company is exposed, thus creating a number of different scenarios for the board to challenge. In those cases, where scenarios deplete the company's cash resources too rapidly, consideration is given to the potential actions available to management to mitigate the impact of one or more of these sensitivities, in particular the discretionary nature of costs incurred by the company, in order to ensure the continued availability of funds.

As the company did not have access to bank debt and future funding is reliant on issues of shares in the parent company, the board has derived a mitigation plan for the scenarios modelled as part of the going concern review. The parent company has confirmed its intention and ability to provide support for a period in excess of 12 months from the date of approval of these financial statements.

On the basis of this analysis, and support pledged by the parent company, the board has concluded that there is a reasonable expectation that the company will have adequate resources to continue in operational existence for the foreseeable future being a period of at lease twelve months from the balance sheet date.

Accordingly, the company has continued to adopt the going concern basis in preparing its financial statements for the year ended 30 September 2022.

1.3 Revenue

The company applies IFRS 15 'Revenue from contracts with customers'. Under IFRS 15, the company applies the 5-step method to identify contracts with its customers, determine performance obligations arising under those contracts, set an expected transaction price, allocate that price to the performance obligations, and then recognises revenues as and when those obligations are satisfied.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The company recognises revenue when it transfers control of a product or service to a customer.

When cash inflows are deferred and represent a financing arrangement, the fair value of the consideration is the present value of the future receipts. The difference between the fair value of the consideration and the nominal amount received is recognised as interest income.

The nature of revenues is licence fee income (on a SaaS basis) and professional services.

Licence fee

Revenue for annual licences, support and maintenance is recognised on a straight-line basis over the duration of the contract.

Professional services

Configuration and software customisation revenue is recognised on a percentage completion basis over the period during which the configuration or software customisation is completed, in line with IFRS 15. Setup, deployment, migration and report development revenue are recognised at the point of setup, deployment, migration or report development is completed. In the circumstances where an event spans two or more accounting periods, the revenue is recognised in the period when the event is completed and the software has been accepted by the customer. Revenue for training events is recognised at the point the training event is completed.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

1 Accounting policies

(Continued)

1.4 Intangible assets other than goodwill

Intangible assets acquired separately from a business are recognised at cost and are subsequently measured at cost less accumulated amortisation and accumulated impairment losses.

Intangible assets acquired on business combinations are recognised separately from goodwill at the acquisition date where it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the fair value of the asset can be measured reliably; the intangible asset arises from contractual or other legal rights; and the intangible asset is separable from the entity.

Research expenditure is recognised as an expense when it is incurred. Development expenditure is recognised as an expense except that costs incurred on development projects are capitalised as intangible assets to the extent that such expenditure is expected to generate future economic benefit.

Amortisation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Development costs

5 years

1.5 Property, plant and equipment

Property, plant and equipment are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Fixtures and fittings

25% straight line

Computers

33% straight line

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in the income statement.

1.6 Non-current investments

Interests in subsidiaries are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. The investments are assessed for impairment at each reporting date and any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

A subsidiary is an entity controlled by the company. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

1.7 Impairment of tangible and intangible assets

At each reporting end date, the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

1 Accounting policies

(Continued)

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.8 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.9 Financial assets

Financial assets are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument. Financial assets are classified into specified categories, depending on the nature and purpose of the financial assets.

At initial recognition, financial assets classified as fair value through profit and loss are measured at fair value and any transaction costs are recognised in profit or loss. Financial assets not classified as fair value through profit and loss are initially measured at fair value plus transaction costs.

Financial assets at fair value through profit or loss

When any of the above-mentioned conditions for classification of financial assets is not met, a financial asset is classified as measured at fair value through profit or loss. Financial assets measured at fair value through profit or loss are recognised initially at fair value and any transaction costs are recognised in profit or loss when incurred. A gain or loss on a financial asset measured at fair value through profit or loss is recognised in profit or loss, and is included within finance income or finance costs in the statement of income for the reporting period in which it arises.

Financial assets held at amortised cost

Financial instruments are classified as financial assets measured at amortised cost where the objective is to hold these assets in order to collect contractual cash flows, and the contractual cash flows are solely payments of principal and interest. They arise principally from the provision of goods and services to customers (eg trade receivables). They are initially recognised at fair value plus transaction costs directly attributable to their acquisition or issue, and are subsequently carried at amortised cost using the effective interest rate method, less provision for impairment where necessary.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

1 Accounting policies

(Continued)

Financial assets at fair value through other comprehensive income

Debt instruments are classified as financial assets measured at fair value through other comprehensive income where the financial assets are held within the company's business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument measured at fair value through other comprehensive income is recognised initially at fair value plus transaction costs directly attributable to the asset. After initial recognition, each asset is measured at fair value, with changes in fair value included in other comprehensive income. Accumulated gains or losses recognised through other comprehensive income are directly transferred to profit or loss when the debt instrument is derecognised.

Impairment of financial assets

Financial assets, other than those measured at fair value through profit or loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership to another entity.

1.10 Financial liabilities

The company recognises financial debt when the company becomes a party to the contractual provisions of the instruments. Financial liabilities are classified as either 'financial liabilities at fair value through profit or loss' or 'other financial liabilities'.

Financial liabilities at fair value through profit or loss

Financial liabilities are classified as measured at fair value through profit or loss when the financial liability is held for trading. A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of selling or repurchasing it in the near term, or
- on initial recognition it is part of a portfolio of identified financial instruments that the company manages together and has a recent actual pattern of short-term profit taking, or
- it is a derivative that is not a financial guarantee contract or a designated and effective hedging instrument.

Financial liabilities at fair value through profit or loss are stated at fair value with any gains or losses arising on remeasurement recognised in profit or loss.

Other financial liabilities

Other financial liabilities, including borrowings, trade payables and other short-term monetary liabilities, are initially measured at fair value net of transaction costs directly attributable to the issuance of the financial liability. They are subsequently measured at amortised cost using the effective interest method. For the purposes of each financial liability, interest expense includes initial transaction costs and any premium payable on redemption, as well as any interest or coupon payable while the liability is outstanding.

Derecognition of financial liabilities

Financial liabilities are derecognised when, and only when, the company's obligations are discharged, cancelled, or they expire.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

1 Accounting policies

(Continued)

1.11 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

Share capital represents the nominal value of shares that have been issued.

Share premium includes all current and prior period premiums on shares allotted.

Capital redemption reserve represents the value of share capital redeemed.

Capital contribution reserve represents the transfer of share option costs from the parent company where isolutions Global Limited is the employer and primary recipient of the benefit of the employment of those staff.

Retained earnings include all current and prior period retained earnings.

1.12 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

1.13 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of inventories or non-current assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

1 Accounting policies

(Continued)

1.14 Retirement benefits

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

1.15 Share-based payments

Equity-settled share-based payments are measured at fair value at the date of grant by reference to the fair value of the equity instruments granted using the Black-Scholes model. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period, based on the estimate of shares that will eventually vest. A corresponding adjustment is made to equity.

1.16 Leases

At inception, the company assesses whether a contract is, or contains, a lease within the scope of IFRS 16. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Where a tangible asset is acquired through a lease, the company recognises a right-of-use asset and a lease liability at the lease commencement date. Right-of-use assets are included within property, plant and equipment, apart from those that meet the definition of investment property.

The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs and an estimate of the cost of obligations to dismantle, remove, refurbish or restore the underlying asset and the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of other property, plant and equipment. The right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are unpaid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the company's incremental borrowing rate. Lease payments included in the measurement of the lease liability comprise fixed payments, variable lease payments that depend on an index or a rate, amounts expected to be payable under a residual value guarantee, and the cost of any options that the company is reasonably certain to exercise, such as the exercise price under a purchase option, lease payments in an optional renewal period, or penalties for early termination of a lease.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in: future lease payments arising from a change in an index or rate; the company's estimate of the amount expected to be payable under a residual value guarantee; or the company's assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

1.17 Grants

Government grants are recognised when there is reasonable assurance that the grant conditions will be met and the grants will be received. Grant income recognised in the prior year comprises the COVID-19 job retention scheme grant and is recorded in other operating income.

1.18 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation in the period are included in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

2 Critical accounting estimates and judgements

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are outlined below.

Critical judgements

Impairment of investments and intercompany debtors

The subsidiary has sustained losses and the balance sheet is in deficit. This is a indicator of potential impairment. The recoverability of the intercompany debtor and the cost of investment is dependent on the future profitability of the entity, as whilst the debtor is repayable on demand the directors are intending to allow the subsidiary to continue to trade in order to generate sufficient profits and cash to render this balance recoverable. A provision for impairment of £798,958 (2021 - £300,000) has been made and is a significant judgement, as explained in note 4.

Capitalised development costs

Development expenditure is recognised as an expense except that costs incurred on development projects are capitalised as intangible assets to the extent that such expenditure is expected to generate future economic benefits. Significant judgement is applied in determining if development costs meet the criteria to be capitalised as intangible assets. IAS 36 also requires that an assessment of recoverable amount is prepared for all intangible assets not available for use at the reporting date, and for any intangible asset where there is an indicator of impairment.

Useful lives

Amortisation is provided so as to write down the development costs capitalised to their residual values over their estimated useful lives as set out in the company's accounting policy. The selection of estimated useful life requires the exercise of management judgement. Useful lives are regularly reviewed and should management's assessment of useful lives shorten/increase then amortisation charges in the financial statements would increase/decrease and carrying amounts of intangible assets would change accordingly.

Impairment

During the year, the directors considered the recoverability of the capitalised development costs, which are included in its balance sheet at £915,696 (2021 - £1,099,313) after impairment. For individual assets not yet available for use or where indicators of impairment existed, the directors carried out a detailed net present value assessment of the future expected revenue and net profit stream over a 5 year period. Following the assessment two projects were held at higher than their recoverable amount and hence an impairment of £154,689 (2021 - £293,878) has been recognised.

Grants were received as part of the Governments initiatives to provide immediate financial support as a result of the Covid-19 pandemic. There are no future related costs associated with these grant which were received solely as compensation for costs incurred in the year.

During the year there were two key customers (2021 - two key customers) that accounted for over 10% of revenue each. Revenue for each of these customers is £639,380 and £324,936 respectively (2021 - £629,921 and £451,702 respectively).

4 Exceptional items

	2022 £	2021 £
Expenditure Impairment of intercompany receivable	798,958	300,000

In accordance with the requirements of IFRS 9, the directors have assessed the need for impairment of the company's intercompany receivable due from i-nexus America Inc. This balance is unsecured, interest free and repayable on demand. The anticipated method of recovery of this balance is through future trading results, and owing to the nature, purpose and intentions for the subsidiary, the recoverable amount of the receivable has been assessed as £nil. The impairment charge recorded as a result amounts to £798,958 (2021 - £300,000).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

Taxation	(Continue	(bs
	Taxation	Taxation (Continue

The charge for the year can be reconciled to the loss per the income statement as follows:

	2022 £	2021 £
Loss before taxation	(1,527,854)	(1,342,335)
Expected tax credit based on a corporation tax rate of 19.00% (2021: 19.00%) Effect of expenses not deductible in determining taxable profit	(290,292) 151,802	(255,044) 63.115
Deferred tax not recognised on unutilised tax losses carried forward	133,104	134,478
Adjustment in respect of prior years	(10,391)	(122,815)
Enhanced relief on research and development tax credit	(224,000)	(206,382)
Other	5,386	(11,167)
Taxation credit for the year	(234,391)	(397,815)
~		

The UK corporation tax rate was 19% throughout the year.

In the March 2021 Budget, a change to the future UK corporation tax rate was announced, indicating that the rate will increase to 25% from April 2023. Deferred tax balances at the reporting date are therefore measured at 25% (2021 - 25%), being the substantively enacted rate at the balance sheet date.

12 Impairments

Impairment tests have been carried out where appropriate and the following impairment losses have been recognised in profit or loss:

	2022	2021
	£	£
In respect of:		
Intangible assets	154,689	293,878
Intercompany receivable	798,958	300,000

	942,619	1,585,892
		=

Amounts owed by subsidiary undertakings are non-interest bearing and repayable on demand. This balance is stated after a provision for bad and doubtful debts amounting to £1,099,013 (2021 - £936,789).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

18	Borrowings				
	•	Current	t	Non-curre	ent
		2022	2021	2022	2021
		£	£	£	£
	Borrowings held at amortised cost:				
	Bank loans	9,707	7,906	32,387	42,094
	Other loans	-	63,519	-	-
		9,707	71,425	32,387	42,094
					

The company had the following borrowings at 30 September 2022:

- A Bounce Back Loan Scheme loan within bank loans which has an interest rate of 2.5% payable from November 2021 when the government grant incentive period expires. The loan is carried at £42,094 in the financial statements. This loan is unsecured.
- Venture debt, within other loans in the prior year, has a fixed interest rate of the higher of 11.5% per annum or LIBOR plus 8% per annum and is measured at amortised cost. The venture debt is secured by way of fixed and floating charges over the title of all assets held by i-solutions Global Limited. The venture debt has been repaid in full during the current year.

The directors consider the value of all financial liabilities to be equivalent to their fair value.

Borrowings include the following amounts which fall due after more than five years:

	Amounts payable by instalments	-	1,769
19	Trade and other payables		
		2022	2021
		£	£
	Trade payables	171,151	128,820

	Other payables	70,784	139,818
		10,349,864	10,094,881

Trade payables are non-interest bearing and are normally settled on 60 day terms. The company has a financial risk management policy in place to ensure that all payables are paid within the pre-agreed credit terms.

Amounts owed to the parent undertaking are non-interest bearing and repayable on demand.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

20	Deferred taxation		
		2022	2021
		£	£
	Deferred tax liabilities	231,700	407,176
	Deferred tax assets	(231,700)	(407,176)

The following are the major deferred tax liabilities and assets recognised by the company and movements thereon during the current and prior reporting period.

	ACAs	Tax losses	Retirement benefit obligations	Capitalised R&D	Total
·	£	£	£	£	£
Deferred tax liability/(asset) at 1 October 2020	258,152	(349,705)	(6,905)	98,458	-
Deferred tax movements in prior year Charge/(credit) to profit or loss Effect of change in tax rate - profit or loss	(40,025) 68,873	549,171 (600,442)	2,195 (1,490)	(7,124) 28,842	504,217 (504,217)
Deferred tax liability/(asset) at 1 October 2021	287,000	(400,976)	(6,200)	120,176	-
Deferred tax movements in current year Charge/(credit) to profit or loss	(284,300)	178,676	(3,200)	108,824	
Deferred tax liability/(asset) at 30 September 2022	2,700	(222,300)	(9,400)	229,000	-

The company has tax losses of £9,992,330 (2021 - £9,992,330) of which £9,103,130 (2021 - £8,388,426) have not been recognised as a deferred tax asset due to uncertainty over the timing and extent of the company's ability to utilise these against future taxable profits. Recognised deferred tax assets have been included only to the extent that these offset other temporary timing differences which will unwind against the losses. If a deferred tax asset was recognised in full in respect of this, the company's net assets would increase by £2,275,783 (2021 - £2,097,107).

21 Deferred revenue

	2022 £	2021 £
Arising from contracts with customers	1,319,674	1,030,315

All opening and closing deferred income relates to contracts with customers.

The closing deferred income balance will be recognised in full during the next 12 months. The company's revenue recognition policy is outlined further in the accounting policies.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 SEPTEMBER 2022

22	Retirement benefit schemes		
		2022	2021
	Defined contribution schemes	£	£
	Charge to profit or loss in respect of defined contribution schemes	73,790	58,825

In addition to the above, £29,476 (2021 - £22,881) relates to capitalised development costs and is included within development costs internally generated additions (note 13).

The company operates a defined contribution pension scheme for all qualifying employees. The assets of the scheme are held separately from those of the company in an independently administered fund.

The liability at the year end is £37,626 (2021 - £24,828).

23 Share-based payment transactions

Total expenses of £10,568 (2021 - £17,181) relating to equity settled share based payment transactions were recognised in the year.

The fair value expense relates to options granted to employees of the company but are for issue of shares in i-nexus Global Plc, the company's immediate and ultimate parent; accordingly the company has taken advantage of the disclosure exemptions under FRS 101 to not present this information.

Capital contribution reserve

The capital contribution reserve relates to the company's share of the fair value expense imposed on the company in respect of options granted over the equity shares of the company's parent, i-nexus Global Plc. The movements are as follows:

				2022 £	2021 £
	At the beginning of the year			17,181	-
	Arising in the year			10,568	17,181
	At the end of the year			27,749	17,181
24	Share capital
