## **REPORT OF THE BOARD OF DIRECTORS**

The Board of Directors presents its report and unaudited financial statements of the Company for the year ended 31 December 2022.

For the year ending 31/12/2022 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts

These accounts have been prepared in accordance with the special provisions applicable to companies subject to the small companies' regime set out in Parts 15 and 16 of the Companies Act 2006.

### **Incorporation**

The Company Anthousa Limited was incorporated in England and Wales on 26 October 2001 under the registration number 4311832.

The place of business in Cyprus is at 5 Esperidon Street, 4th floor, 2001 Nicosia, Cyprus.

### **Principal activities and nature of operations of the Company**

The principal activities of the Company are to receive royalty income from the usage of trademarks CTM "Furshet" and "Furshet" in the Russian language, marketing research and consultancy services. In addition, the Company has investments in subsidiary company and is providing finance to its subsidiaries and related companies. All the Company's activities are made through the Cyprus branch.

### **Review of current position, future developments and performance of the Company's business**

The Company's development to date, financial results and position as presented in the financial statements are not considered satisfactory and the Board of Directors is making an effort to reduce the Company's losses.

### **Principal risks and uncertainties**

The principal risks and uncertainties faced by the Company are disclosed in notes 3 and 16 of the financial statements.

### **Existence of branches**

The Company does not maintain any branches.

### **Use of financial instruments by the Company**

The Company is exposed to interest rate risk, credit risk and dividends from the financial instruments it holds.

The Company's financial risk management objectives and policies are:

#### **Interest rate risk**

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in market interest rates. The Company's income and operating cash flows are substantially independent of changes in market interest rates as the Company has no significant interest-bearing assets. The Company is exposed to interest rate risk in relation to its non-current borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk. Borrowings issued at fixed rates expose the Company to fair value interest rate risk. The Company's management monitors the interest rate fluctuations on a continuous basis and acts accordingly.

#### **Credit risk**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities - primarily trade receivables and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Credit risk related to trade receivables: This is managed based on established policies, procedures and controls relating to customer credit risk management. Credit limits are established for all customers based on internal ratings. Credit quality of the customer is assessed and outstanding customer receivables are regularly monitored. The Company does not hold collateral as security.

## ANTHOUSA LIMITED

---

### Liquidity risk

Liquidity risk is the risk that arises when the maturity of assets and liabilities does not match. An unmatched position potentially enhances profitability, but can also increase the risk of losses. The Company has procedures with the objective of minimising such losses.

### Results

The net loss for the year is carried forward.

### Dividends

The Company did not have any distributable profits as at 31 December 2022, thus the Board of Directors cannot recommend the payment of a dividend.

### Share capital

There were no changes in the share capital of the Company during the year under review.

### Board of Directors

The members of the Company's Board of Directors as at 31 December 2022 and at the date of this report are presented on page 1.

There were no significant changes in the assignment of responsibilities and remuneration of the Board of Directors.

### Events after the reporting period

Any significant events that occurred after the end of the reporting period are described in note 19 to the financial statements.

### Related party balances and transactions

Related party transactions are disclosed in note 17 of the financial statements.

By order of the Board of Directors,

21 September 2023

Sergii Magalias  
Director

21 September 2023

Oleksandr Sokor  
Director

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

### 1. Incorporation and principal activities

#### Country of incorporation

Anthousa Limited (the "Company") was incorporated in England and Wales on 26 October 2001 under the registration number 4311832.

Its registered office is at 4, Croxted Mews, Croxted Road, Dulwich Village, London SE24 9DA, United Kingdom.

The place of business of Anthousa Limited is not a separately incorporated legal entity and the financial statements of the Company are filed both in the Republic of Cyprus and in the United Kingdom.

#### Principal activities

The principal activities of the Company are to receive royalty income from the usage of trademarks TM "Furshet" and "Furshet" in the Russian language, marketing research and consultancy services. In addition, the Company has investments in a subsidiary company and is providing finance to its subsidiaries and related companies. All the Company's activities are made through the Cyprus branch.

### 2. Significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented in these financial statements unless otherwise stated.

#### Going concern basis

The Company incurred a loss of US\$1,015,497 for the year ended 31 December 2022, and, as of that date Company's liabilities exceeded its assets by US\$95,116,804. In addition, the Company had substantial loans and borrowings that either expired or are repayable within twelve months. Some of these loans and borrowings were in breach of financial covenants or had defaulted in making loan repayments to its loan creditors. Furthermore, the political instability in Ukraine since 2013 affected adversely the operations of the Company's subsidiaries. The full-scale invasion of the Russian troops deteriorated further market conditions and ability of the company to function as going concern.

#### Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and in accordance with the special provisions applicable to companies subject to the small companies' regime set out in Parts 15 and 16 of the Companies Act 2006.

For the year ending 31/12/2022 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

#### Functional and presentation currency

The financial statements are presented in United States Dollars (US\$) which is the functional currency of the Company.

#### Subsidiary companies

Subsidiaries are entities controlled by the Company. Control exists where the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Investments in subsidiary companies are stated at cost less provision for impairment in value, which is recognized as an expense in the period in which the impairment is identified.

## ANTHOUSA LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

#### 2. Significant accounting policies (continued)

##### Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and can be reliably measured. Revenues earned by the Company are recognised on the following basis:

- (i) Rendering of services

Sales of services are recognised in the accounting period in which the services are rendered by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.

- (iii) Royalty income

Royalty income from licensing of trade mark is recognised on an accruals basis in accordance with the substance of the relevant terms and conditions of the agreements.

- (iv) Loan interest income

Loan interest income is recognised on a time-proportion basis using the effective interest method. Finance income comprises interest income on funds invested, net foreign currency gains that are recognised in the statement of profit or loss and other comprehensive income. Loan interest income is recognised as it accrues.

##### Finance income

Interest income comprises on interest on bank deposits. Interest income is recognised as it accrues.

##### Finance costs

Finance costs comprise interest expense on borrowings, net foreign currency losses, bank charges, penalties and fines on taxes that are recognised in the statement of comprehensive income. All borrowing costs are recognised in the profit or loss and other comprehensive income using effective interest method.

##### Foreign currency translation

- (1) **Functional and presentation currency**

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in United States Dollars (US\$), which is the Company's functional and presentation currency.

# ANTHOUSA LIMITED

---

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

### 2. Significant accounting policies (continued)

#### (2) Translation from functional to presentation currency

The results and financial position of the Company are translated into the presentation currency as follows:

- (i) assets and liabilities for each statement of financial position presented are translated at the closing rate at the reporting date;
- (ii) income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (iii) all resulting exchange differences are recognised as a separate component of equity as a cumulative translation reserve.

#### (3) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

#### Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting date.

#### Patents and trademarks

Patents and trademarks are measured initially at purchase cost and are subsequently measured at cost less impairment. They are measured initially at purchase cost and are amortised on a straight-line basis over their estimated useful lives.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

# ANTHOUSA LIMITED

---

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

### 2. Significant accounting policies (continued)

#### Impairment of tangible and intangible assets excluding goodwill

At each reporting date, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

#### Financial instruments

Financial assets and financial liabilities are recognised in the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

##### (i) Trade receivables

Trade and other receivables are stated at their nominal values after deducting the specific provision for doubtful debts, which is calculated based on an examination of all outstanding balances as at the year end. Bad debts are written off when identified.

##### Prepayments from clients

Payments received in advance on sale contracts for which no revenue has been recognised yet, are recorded as prepayments from clients as at the reporting date and carried under liabilities.

##### (ii) Loans granted

Loans originated by the Company by providing money directly to the borrower are categorised as loans and are carried at amortised cost. The amortised cost is the amount at which the loan granted is measured at initial recognition minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility. All loans are recognised when cash is advanced to the borrower.

An allowance for loan impairment is established if there is objective evidence that the Company will not be able to collect all amounts due according to the original contractual terms of loans. The amount of the provision is the difference between the carrying amount and the recoverable amount, being the present value of expected cash flows including amounts recoverable from guarantees and collateral, discounted at the original effective interest rate of loans.

##### (iii) Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise cash at bank.

# ANTHOUSA LIMITED

---

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

### 2. Significant accounting policies (continued)

#### Financial instruments (continued)

##### Borrowings

Borrowings are recorded initially at the proceeds received, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

##### (v) Trade and other payables

Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

#### Derecognition of financial assets and liabilities

##### Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; or
- the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

##### Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

#### Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statement of financial position.

#### Share capital and share premium

Ordinary shares are classified as equity. The difference between the fair value of the consideration received by the Company and the nominal value of the share capital being issued is taken to the share premium account.

#### Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Company expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

# ANTHOUSA LIMITED

---

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

### 2. Significant accounting policies (continued)

#### Restructuring

A provision for restructuring is recognised when the Company has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. Future operating losses are not provided for.

#### Share-based payment transactions

The grant date fair value of share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do not meet the related service and non-market performance conditions at the vesting date. For share based payment awards with non-vesting conditions, the grant date fair value of the share based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

#### Comparatives

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year.

### 3. Critical accounting estimates and judgments

The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates and requires Management to exercise its judgment in the process of applying the Company's accounting policies. It also requires the use of assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on Management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

- Going concern basis

The assessment of the Company for the appropriateness of the use of the going concern basis is disclosed in note 2.

- Provision for bad and doubtful debts

The Company reviews its trade and other receivables for evidence of their recoverability. Such evidence includes the customer's payment record and the customer's overall financial position. If indications of irrecoverability exist, the recoverable amount is estimated and a respective provision for bad and doubtful debts is made. The amount of the provision is charged through profit or loss. The review of credit risk is continuous and the methodology and assumptions used for estimating the provision are reviewed regularly and adjusted accordingly.

# ANTHOUSA LIMITED

---

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

### 3. Critical accounting estimates and judgments (continued)

- Income taxes:

Significant judgment is required in determining the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

- Fair value of investment property

The fair value of investment property is determined by using valuation techniques. The Company uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at each reporting date. The fair value of the investment property has been estimated based on the fair value of their individual assets.

- Impairment of investments in subsidiaries:

The Company periodically evaluates the recoverability of investments in subsidiaries whenever indicators of impairment are present. Indicators of impairment include such items as declines in revenues, earnings or cash flows or material adverse changes in the economic or political stability of a particular country, which may indicate that the carrying amount of an asset is not recoverable. If facts and circumstances indicate that investment in subsidiaries may be impaired, the estimated future discounted cash flows associated with these subsidiaries/associates would be compared to their carrying amounts to determine if a write-down to fair value is necessary.

- Impairment of loans receivable

The Company periodically evaluates the recoverability of loans receivable whenever indicators of impairment are present. Indicators of impairment include such items as declines in revenues, earnings or cash flows or material adverse changes in the economic or political stability of a particular country in which the borrower operates, which may indicate that the carrying amount of the loan is not recoverable. If facts and circumstances indicate that loans receivable may be impaired, the estimated future discounted cash flows associated with these loans would be compared to their carrying amounts to determine if a write-down to fair value is necessary.

- Impairment of non-financial assets

The impairment test is performed using the discounted cash flows expected to be generated through the use of non-financial assets, using a discount rate that reflects the current market estimations and the risks associated with the asset. When it is impractical to estimate the recoverable amount of an asset, the Company estimates the recoverable amount of the cash generating unit in which the asset belongs to.

- Impairment of intangible asset

Intangible assets are initially recorded at acquisition cost and are amortized on a straight line basis over their useful economic life. Intangible assets that are acquired through a business combination are initially recorded at fair value at the date of acquisition. Intangible assets with indefinite useful life are reviewed for impairment at least once per year. The impairment test is performed using the discounted cash flows expected to be generated through the use of the intangible assets, using a discount rate that reflects the current market estimations and the risks associated with the asset. When it is impractical to estimate the recoverable amount of an asset, the Company estimates the recoverable amount of the cash generating unit in which the asset belongs to.

#### (i) Ordinary shares

All shares rank equally with regard to the Company's residual assets. The holders of ordinary shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. In respect of the Company's shares that are held by the Group, all rights are suspended until those shares are reissued.

As at 31 December 2022, there were no changes in Capital and reserves.

#### (ii) Non-voting deferred shares

Holders of non-voting deferred shares have no right of conversion or redemption and are not entitled to an annual dividend. In the event of liquidation deferred shares participate in the distribution up to their par value. Non-redeemable deferred shares do not carry the right to vote in the Annual General Meeting.

As at 31 December 2022, there were no changes in Capital and reserves.

	US\$	US\$
Corporation tax	(26,074)	(26,074)
Special contribution for defence		
	<u>(26,074)</u>	<u>(26,074)</u>

### 16. Operating Environment of the Company

The Company is incorporated in Cyprus, has investments in subsidiary undertakings incorporated in Ukraine and conducts its business with related companies domiciled in Ukraine. Consequently, the Company is exposed to the economic and financial markets of Ukraine.

Ukraine's political and economic situation has deteriorated significantly since 2014. Following political and social unrest in early 2014, in March 2014, various events in Crimea led to the illegal accession of the Republic of Crimea to the Russian Federation, which was not recognised by Ukraine and most of other countries. This event resulted in a significant deterioration of the relationship between Ukraine and the Russian Federation. As a result of this conflict, part of Donetsk and Lugansk regions remains under control of the self-proclaimed republics, and Ukrainian authorities are not currently able to fully enforce Ukrainian laws on this territory.

These events has adversely impacted economic situation in Ukraine. Full-scale invasion of Russian Federation into Ukraine has thrown Ukrainian economy further down in 2022.

The final resolution and the war is difficult to predict.

Whilst management believes it is taking appropriate measures to support the sustainability of the Company's business in the current circumstances, a continuation of the current unstable business environment could negatively affect the Company's results and financial position in a manner not currently determinable. These financial statements reflect management's current assessment of the impact of the Ukrainian business environment on the operations and the financial position of the Company. The future business environment may differ from management's assessment.

### 17. Related party balances and transactions

The ultimate controlling party is a non-resident individual.

The related party balances and transactions are as follows:

#### 17.1 Receivables from related parties and subsidiaries (Note 10)

Name	Nature of transactions	2022	2021
		US\$	US\$
DC "Gospodarnik"	Non-bearing loan	1,881,964	1,881,964
DC "Gospodarnyk Sovki"	Non-bearing loan	173,638	173,638
DC "Retail Center"	Non-bearing loan	-	-
LLC "Amiverda"	Administration services	1,249,434	1,249,434
		<u>3,305,036</u>	<u>3,305,036</u>

## ANTHOUSA LIMITED

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2022

#### 17.2 Payables to related parties and subsidiaries (Note 14)

		<u>1,631,968</u>	<u>1,631,968</u>

#### 17.3 Loans from related parties (Note 13)

	Terms	2022	2021
		US\$	US\$
Plimsoll Investments Limited	3%	76,744	68,454
Locrin Holding Ltd	10.5%	1,331,297	1,082,972
Boule Capital	4.4 - 10.5%	<u>3,215,518</u>	<u>2,890,805</u>
		<u>4,623,559</u>	<u>4,042,231</u>

All the loans and borrowings are denominated in US\$ Dollars

#### 18. Contingent liabilities

The Company had no contingent liabilities as at 31 December 2022.

#### 19. Events after the reporting period

The full-scale war of Russia against Ukraine continued during whole 2022, that deteriorated further market conditions of the company and raised the issue of continuation of its business in Ukraine – its main market.
