## **DIRECTORS' REPORT**

### **FOR THE YEAR ENDED 31 MARCH 2009**

The Directors present their report and the audited financial statements of the Company for the year ended 31 March 2009.

#### **PRINCIPAL ACTIVITY**

The Company is an investment holding company.

#### **DEVELOPMENT AND PERFORMANCE DURING THE YEAR**

The Company obtains and provides finance to fellow subsidiary companies via inter company balances. Results, as detailed below, largely depend on investment income and operating income/charges. The Directors believe that the current level of activity will continue in the foreseeable future.

As the Company is part of a larger group, the management of the Company does not involve the use of key performance indicators, other than the profit or loss for the year, in measuring the development, performance or the position of the Company and the principal risks and uncertainties are integrated with the principal risks of National Grid plc. For information on the development, performance, risks, uncertainties and position of National Grid plc and its subsidiaries ('National Grid'), and of the key performance indicators used, refer to the Operating and Financial Review included in National Grid plc's Annual Report and Accounts 2008/09, which does not form part of this report.

#### **RESULTS AND DIVIDENDS**

The profit for the year after taxation was US\$1,109,000 (2008: US\$1,088,000).

The Directors do not recommend the payment of a dividend (2008: US\$nil).

#### **FINANCIAL POSITION**

The financial position of the Company is presented in the balance sheet. Total shareholders' funds at 31 March 2009 were US\$47,986,000 (2008: US\$46,877,000) comprising current assets of US\$48,868,000 (2008: US\$47,413,000) less current liabilities of US\$882,000 (2008: US\$536,000).

#### **FINANCIAL RISK MANAGEMENT**

The management of the Company and the execution of the Company's strategy are subject to a number of risks. The Directors have identified the need to manage the Company's material financial risks, including liquidity, credit, interest rate and foreign exchange risks. These risks are monitored through a National Grid Treasury management function which invests surplus funds, mitigates foreign exchange exposure and manages borrowings for National Grid plc and its subsidiaries.

### **DIRECTORS' REPORT (continued)**

#### **FOR THE YEAR ENDED 31 MARCH 2009**

#### **FINANCIAL RISK MANAGEMENT (continued)**

Treasury also seeks to limit counter-party risk by conducting most of its banking and dealing activities with a limited number of major international banks, whose status is kept under review.

#### **LIQUIDITY RISK**

The Company finances its operations through a combination of retained profits, new share issues and inter company loans.

#### **CREDIT RISK**

No material exposure is considered to exist in respect of inter company loans.

#### **INTEREST RATE RISK**

To the extent that the Company enters into inter company loan agreements, the Company's exposure to interest rate risk arises on such loans on which interest is based upon sterling and US dollar LIBOR. The Company does not participate in interest rate hedging.

#### **FOREIGN EXCHANGE RISK**

To the extent that the Company enters into inter company loan agreements in currencies different to that of the Company's functional currency, there is an exposure to movements in exchange rates. The Company does not participate in cross-currency hedging.

### **DIRECTORS' REPORT (continued)**

#### **FOR THE YEAR ENDED 31 MARCH 2009**

#### **STATEMENT OF DIRECTORS' RESPONSIBILITIES**

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The financial statements are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business, in which case there should be supporting assumptions or qualifications as necessary.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### **DIRECTORS' INDEMNITIES AND INSURANCE**

National Grid plc indemnifies officers of subsidiary companies against liabilities arising from the conduct of National Grid's business, to the extent permitted by law, by the placing of Directors' and Officers' insurance. The insurance indemnifies individual Directors' and Officers' personal legal liability and cost for claims arising out of actions taken in connection with the business of National Grid plc and its subsidiaries.

#### **AUDIT INFORMATION**

Having made the requisite enquiries, so far as the Directors in office at the date of the signing of this report are aware, there is no relevant audit information of which the auditors are unaware and each Director has taken all reasonable steps to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 MARCH 2009**

**1 Accounting policies**

**(a) Basis of preparation**

These financial statements have been prepared on the going concern basis in accordance with applicable UK accounting and financial reporting standards and the Companies Act 1985. These financial statements have been prepared using the historical cost convention and in accordance with the accounting policies set out below. There have been no changes to accounting policies during the year.

These financial statements are presented in US dollars because that is the currency of the primary economic environment in which the Company operates.

The Company has taken the exemption from preparing a cash flow statement under the terms of FRS 1 (revised 1996) 'Cash flow statements'. Further, in accordance with exemptions under FRS 29 'Financial Instruments: Disclosures', the Company has not presented the financial instruments disclosures required by the standard, as disclosures that comply with the standard are included in the consolidated financial statements of National Grid plc.

**(b) Taxation**

Current tax for the current and prior periods is provided at the amount expected to be paid (or recovered) using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

**(c) Financial instruments**

Financial assets, liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities and is recorded at the proceeds received, net of direct issue costs.

Loans receivable are carried at amortised cost using the effective interest rate method less any allowance for estimated impairments. A provision is established for impairments when there is objective evidence that the Company will not be able to collect all amounts due under the original terms of the loan. Interest income, together with losses when the loans are impaired are recognised on an effective interest basis in the profit and loss account.

Borrowings, which include interest-bearing loans and overdrafts, are recorded at their initial fair value which normally reflects the proceeds received, net of direct issue costs less any repayments. Subsequently these are stated at amortised cost, using the effective interest rate method. Any difference between proceeds and the redemption value is recognised over the term of the borrowing in the profit and loss account using the effective interest method.

**FOR THE YEAR ENDED 31 MARCH 2009**

**1 Accounting policies (continued)**

**(d) Foreign currencies**

Transactions in currencies other than the functional currency of the Company are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign exchange currencies are retranslated at closing exchange rates. Gains and losses arising on retranslation of monetary assets and liabilities are included in the profit and loss account.

**2 Directors and employees**

The emoluments of the Directors are not paid to them in their capacity as Directors of the Company and are payable for services wholly attributable to other National Grid subsidiary undertakings. Accordingly, no details in respect of their emoluments have been included in these financial statements. During the year there was one Director (2008: four) who exercised share options in the ordinary shares of the ultimate parent company, National Grid plc.

There were no employees of the Company during the year (2008: none).

**5 Taxation**

	2009 US\$'000	2008 US\$'000
<b>Current tax:</b>		
UK corporation tax	<u>382</u>	<u>457</u>

The tax assessed for the year is lower than the standard rate of corporation tax in the UK of 28% (2008: 30%). The differences are explained below:

	2009 US\$'000	2008 US\$'000
Profit on ordinary activities before tax	<u>1,491</u>	<u>1,545</u>
Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 28% (2008: 30%)	417	463
Effect of:		
Non taxable income	(8)	-
Other	<u>(27)</u>	<u>(6)</u>
<b>Total current tax charge for the year</b>	<u><b>382</b></u>	<u><b>457</b></u>

**Factors that may affect future tax charges**

A number of changes to the UK corporation tax system were announced in the April 2009 Budget Statement which have been enacted in the Finance Act 2009.

The changes announced to the UK corporation tax system include temporary changes to the capital allowance regime and the introduction of a system for taxing foreign profits which is expected to bring in a dividend exemption and a worldwide debt cap.

The dividend exemption is likely to be available for both UK and foreign distributions, falling within an exempt classification, received on or after 1 July 2009. This is not expected to have a material effect on the future tax charge.

A worldwide debt cap is likely to restrict the amount of finance expense available for UK tax purposes, based on the consolidated finance expense, and is expected to apply for accounting periods ending 31 March 2011 onwards. We are in the process of evaluating the impact the worldwide debt cap will have on the future tax charge.

These changes have not been substantively enacted as at the balance sheet date and therefore have not been included in these financial statements.
