Ignis UK Investment Limited

Strategic Report for the Year Ended 30 September 2019

The director presents his strategic report for the year ended 30 September 2019.

Fair review of the business

The principal activity of the company is to act as an investment holding company.

The company's key financial and other performance indicators during the year were as follows:

The company made a profit before tax of £18,924 compared to a profit of £9,862 in 2018. The company made an operating profit of £12,481 compared to an operating profit of £7,685 in 2018.

After deducting tax of £3,602 (2018: £Nil) a profit of £15,322 (2018: profit of £9,862) has been transferred to reserves. Shareholder's funds at 30 September 2019 amounted to £3,060,975 (2018: £3,045,653).

Both the level of business and the year end financial position were in line with expectations.

Principal risks and uncertainties

The company does not carry on an active trade so the range of risks that it is directly exposed to is very limited. However, it is indirectly exposed to the risks and uncertainties facing other group companies which are summarised below:

- the pace with which new communications products and services emerge;
- the nature and pace of technological change within the communications industry;
- the extent to which consolidation within the communications industry will continue;
- the extent to which communications services will continue to converge;
- the increasing need for communications service providers to reduce costs and retain high value customers in a highly competitive environment; and
- general global economic conditions, particularly market conditions in the communications industry.

To the fullest possible extent we believe the company has taken sufficient measures to mitigate these risks and uncertainties and turn these into opportunities for future growth.

Approved by the director on 18 August 2020:

.....
Neville Thomas Walker (Irish)
Director

Ignis UK Investment Limited

Director's Report for the Year Ended 30 September 2019

The director presents his report and the financial statements for the year ended 30 September 2019.

Director of the company

The directors, who held office during the year and to the date of this report, were as follows:

Neville Thomas Walker (Irish)

Janett Kristina Sarfert (German) (resigned 31 October 2018)

Dividends

No dividend was paid to the parent company during the year (2018: £Nil).

Financial instruments

Foreign currency exchange risk

Profit/loss on ordinary activities and amounts due from fellow subsidiary undertakings are sensitive to movements in exchange rates between US Dollar and Sterling.

Interest rate risk

Our interest expense and income are sensitive to changes in interest rates, as are our cash reserves and our loans due to/from other group undertakings.

Political donations

There were no political donations made during the year (2018: £Nil).

Future developments

It is the intention of the directors for the company to continue to act as an investment holding entity.

Going concern

At the time of approving the financial statements the company has reviewed its financial projections of future profits, cash flows and working capital in terms of its position within the overall Amdocs Group. The directors have a reasonable expectation that the company will have sufficient resources to continue to trade satisfactorily and hence continue to adopt the going concern basis in preparing these financial statements.

Events after the reporting date

On 11 March 2020 the World Health Organization declared the coronavirus ("COVID-19") outbreak a "pandemic".

This outbreak of COVID-19 has resulted in a widespread health crisis that has increased the level of volatility and uncertainty globally and has created significant economic disruption. The financial effect of the current crisis on the global economy and overall business activities cannot be estimated with reasonable certainty at this stage, due to the pace at which the outbreak expands and the high level of uncertainties arising from the inability to reliably predict its magnitude and outcome.

The company is actively monitoring the pandemic and managing its business to respond to the impact of COVID-19.

Ignis UK Investment Limited

Director's Report for the Year Ended 30 September 2019

Disclosure of information to the auditor

The director has taken steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditor is aware of that information. The director confirms that there is no relevant information that he knows of and of which he knows the auditor is unaware.

Reappointment of auditor

EY resigned as auditors during the year and the directors appointed Mazars (Chartered Accountants & Statutory Audit Firm), to fill the vacancy.

In accordance with section 485 of the Companies Act 2006, a resolution for the re-appointment of Mazars as auditors of the company is to be proposed at the forthcoming Annual General Meeting.

Approved by the director on 18 August 2020:

.....
Neville Thomas Walker (Irish)
Director

Ignis UK Investment Limited

Statement of Director's Responsibilities

The director acknowledges his responsibilities for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the director to prepare financial statements for each financial year. Under that law the director has elected to prepare the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 101 'Reduced Disclosure Framework' ('FRS 101'). Under company law the director must not approve the financial statements unless he is satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the director is required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether FRS 101 has been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The director is responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable him to ensure that the financial statements comply with the Companies Act 2006. He is also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the director on 18 August 2020:

Director

Ignis UK Investment Limited

Independent Auditor's Report to the Members of Ignis UK Investment Limited

Opinion

We have audited the financial statements of Ignis UK Investment Limited (the 'company') for the year ended 30 September 2019, which comprise the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 101 'Reduced Disclosure Framework'.

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 September 2019 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Ignis UK Investment Limited

Independent Auditor's Report to the Members of Ignis UK Investment Limited

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and Director's Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and Director's Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of our knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report and the Director's Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of the director

As explained more fully in the Statement of Director's Responsibilities [set out on page 5], the director is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the director determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the director is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the director either intends to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Ignis UK Investment Limited

Independent Auditor's Report to the Members of Ignis UK Investment Limited

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

1 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The financial statements have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework', issued by the Financial Reporting Council and the Companies Act 2006.

The financial statements have been prepared under the historical cost convention, except that as disclosed in the accounting policies, certain items are shown at fair value, and on the going concern basis.

The financial statements are denominated in British pounds ("£") which is the functional currency of the company.

Summary of disclosure exemptions

The company has taken advantage of the following disclosure exemptions under FRS 101:

- (a) the requirements of IFRS 7 Financial Instruments: Disclosures;
- (b) the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement;
- (c) the requirements of paragraphs 10(d), 10(f), 39A-D, 40A-D and 134-136 of IAS 1 Presentation of Financial Statements;
- (d) the requirements of IAS 7 Statement of Cash Flows;
- (e) the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors;
- (f) the requirements of paragraph 17 of IAS 24 Related Party Disclosures;
- (g) the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member;
- (h) the requirement in paragraph 38 of IAS 1 Presentation of Financial Statements to present comparative information in respect of paragraph 73(e) of IAS 16 Property, Plant and Equipment and paragraph 118(e) of IAS 38 Intangible Assets;
- (i) the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d)-134(f) and 135(c)-135(e) of IAS 36 Impairment of Assets; and
- (j) the requirements of paragraphs 45(b) and 46-52 of IFRS 2 Share based Payment: because the share based payments concerns the instruments of another group entity.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

1 Accounting policies (continued)

Going concern

At the time of approving the financial statements the company has reviewed its financial projections of future profits, cash flows and working capital in terms of its position within the overall Amdocs Group. The directors have a reasonable expectation that the company will have sufficient resources to continue to trade satisfactorily and hence continue to adopt the going concern basis in preparing these financial statements.

Changes in accounting policy

New standards, interpretations and amendments effective

The following have been applied for the first time from 1 October 2018 and have had an effect on the financial statements:

IFRS 9 Financial Instruments

IFRS 9 Financial Instruments replaces IAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments classification and measurement; impairment and hedge accounting. The company applied IFRS 9 prospectively, with an initial application date of 1 January 2018. The company has not restated the comparative information, which continues to be reported under IAS 39.

The adoption of IFRS 9 did not result in any recognition or measurement adjustment.

None of the other standards, interpretations and amendments effective for the first time from 1 October 2018 have had a material effect on the financial statements.

Group financial statements

Section 400 of the Companies Act 2006 exempts an intermediate parent entity whose own parent entity is established under the law of an EEA state from the need to prepare consolidated financial statements. The company has availed itself of this exemption and consequently has prepared these financial statements on a stand alone basis.

Investments in subsidiary companies

Subsidiaries are all entities that the company controls. Investments in subsidiary companies are initially recognised at cost, being the fair value of the consideration given. After initial recognition investments are stated at cost less provision for impairment in accordance with IAS 36 "Impairment of assets". If the carrying amount exceeds the recoverable amount then the carrying value of the investment is written down to its recoverable amount.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

1 Accounting policies (continued)

Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into the respective functional currency of the entity at the rates prevailing on the reporting period date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the initial transaction dates.

Non-monetary items measured in terms of historical cost in a foreign currency are not retranslated.

Tax

The tax charge/benefit for the period comprises current tax. Tax is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred income tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the company. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

1 Accounting policies (continued)

Impairment of non-financial assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in statement of comprehensive income. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

The difference between fair value of the amount received for share capital and the nominal value of the share capital issued is transferred to the share premium account.

Dividends

Dividend distribution to the company's shareholders is recognised as a liability in the company's financial statements in the period in which the dividends are approved by the company's shareholders.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

1 Accounting policies (continued)

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets

Initial recognition and measurement

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

If either of the above two criteria is not met, the financial assets are classified and measured at fair value through the profit or loss (FVTPL).

If a financial asset meets the amortised cost criteria, the company may choose to designate the financial asset at FVTPL. Such an election is irrevocable and applicable only if the FVTPL classification significantly reduces a measurement or recognition inconsistency.

A financial asset is measured at FVTOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investments that is not held for trading, the company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

If an equity investment is designated as FVTOCI, all gains and losses, except for dividend income, are recognised in other comprehensive income and are not subsequently included in the statement of income.

Financial assets not otherwise classified above are classified and measured as FVTPL.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

1 Accounting policies (continued)

Financial instruments (continued)

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

The company has not designated any financial assets at fair value through OCI nor profit or loss.

Financial assets at amortised cost (debt instruments)

This category is the most relevant to the company. The company measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The company's financial assets at amortised cost includes trade and other debtors.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the company's statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

1 Accounting policies (continued)

Financial instruments (continued)

Impairment of financial assets

The company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in three stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL). For credit-impaired financial instruments, the company recognises the lifetime ECL.

For trade receivables and contract assets, the company applies a simplified approach in calculating ECLs. Therefore, the company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the company may also consider a financial asset to be in default when internal or external information indicates that the company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The company's financial liabilities may include trade and other payables and loans and borrowings including bank overdrafts.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

1 Accounting policies (continued)

Financial instruments (continued)

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

The company has not designated any financial liability as at fair value through profit or loss.

Loans and borrowings

This is the category most relevant to the company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2 Operating profit

Arrived at after crediting/(charging):

	2019	2018
	£	£
Foreign exchange gains	12,591	9,048
Auditor's remuneration for audit services was incurred in another group company.		

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

3 Other interest receivable and similar income

	2019	2018
	£	£
Interest income on bank deposits	7	5
Interest on loans to group undertakings	7,551	3,067
	<u>7,558</u>	<u>3,072</u>

4 Interest payable and similar charges

	2019	2018
	£	£
Bank charges	719	738
Interest on loans from group undertakings	396	157
	<u>1,115</u>	<u>895</u>

5 Staff costs

The company had no employees in the current or prior year.

6 Director remuneration

The director did not receive any remuneration or benefit for qualifying services in either the current year or the prior year.

Ignis UK Investment Limited

Notes to the Financial Statements for the Year Ended 30 September 2019

7 Income tax

Tax charged/(credited) in the statement of comprehensive income:

	2019 £	2018 £
Current taxation		
Corporation tax	3,602	-
Tax expense in the statement of comprehensive income	<u>3,602</u>	<u>-</u>

The tax on profit for the year is higher than the standard rate of corporation tax in the UK of 19% (2018 - lower than the standard rate of corporation tax in the UK of 19%).

The differences are reconciled below:

	2019 £	2018 £
Profit before tax	18,924	9,862
Corporation tax at standard rate	3,595	1,874
Increase from effect of expenses not deductible in determining taxable profit	7	-
Decrease from effect of unrelieved tax losses carried forward	-	(1,874)
Total tax charge	<u>3,602</u>	<u>-</u>

Future tax changes

The directors are not aware of any factors that will materially affect the rate of corporation tax in the foreseeable future.

The UK corporation tax rate reduced from 20% to 19% effective for the years commencing 1 April 2017, 2018 and 2019. This rate had been enacted on 18 November 2015 when the Finance (No. 2) Bill 2015 received Royal Assent. The UK corporation rate further reduces to 17% in respect of years commencing after 1 April 2020. This rate had been enacted on 15 September 2016 when the Finance Bill 2016 received Royal Assent. At Budget 2020, the government announced that the Corporation Tax main rate for the years starting 1 April 2020 and 2021 would remain at 19%. As at the date to which these financial statements are prepared, the 19% has not been enacted and as such this rate has not been applied in preparing these financial statements.

Notes to the Financial Statements for the Year Ended 30 September 2019

8 Investments (continued)

* On 11 April 2019, the shareholders of PT Application Solutions executed a resolution to approve the classification of its shares into Class A shares and Class B shares arising in the increase of its share capital. The existing shares were classified as Class A shares and 102,600 new Class B shares were issued to Ignis UK Investments Limited and 11,400 Class B shares to Amdocs (UK) Limited. Consequently, this resulted in a decrease in the company's shareholding to PT Application Solutions from 99% to 90%.

The subsidiary undertakings are engaged in providing business support systems and related services to the communication industry.

13 Related party transactions

In common with other companies which are members of a group of companies, the financial statements reflect the effect of such membership. The company has availed of the exemption provided in Financial Reporting Standard 101, Reduced Disclosure Framework, for wholly owned subsidiary undertakings within the group, from the requirement to give details of transactions with entities that are part of the group.

14 Parent and ultimate parent undertaking

The company's immediate parent is Amdocs (UK) Limited.

The ultimate parent is Amdocs Limited. The financial statements for Amdocs Limited are available from the company's website: www.amdocs.com.

15 Events after the reporting date

On 11 March 2020 the World Health Organization declared the coronavirus ("COVID-19") outbreak a "pandemic".

This outbreak of COVID-19 has resulted in a widespread health crisis that has increased the level of volatility and uncertainty globally and has created significant economic disruption. The financial effect of the current crisis on the global economy and overall business activities cannot be estimated with reasonable certainty at this stage, due to the pace at which the outbreak expands and the high level of uncertainties arising from the inability to reliably predict its magnitude and outcome.

The company is actively monitoring the pandemic and managing its business to respond to the impact of COVID-19.
