**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 30TH NOVEMBER 2016**

1. ACCOUNTING POLICIES**Accounting convention**

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover

Turnover represents rent receivable during the year, excluding value added tax.

Investment property

Investment property is shown at the open market value. The surplus or deficit arising from the annual revaluation is transferred to the revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

In accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) no depreciation is provided in respect of freehold properties held as investments. This is a departure from the requirements of the Companies Act 2006 which requires all properties to be depreciated. Such properties are held for investment and not for consumption and the directors consider that to depreciate them would not give a true and fair view.

Depreciation is only one of the many elements reflected in the annual valuation of properties and accordingly the amount of depreciation which might otherwise have been charged cannot be separately identified or quantified. The directors consider that this policy results in the financial statements giving a true and fair view.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.
