# Strategic report

The directors present their Strategic report for Xstrata Limited (the "Company") for the year ended 31 December 2016 to provide a review of the Company's business, principal risks and uncertainties and performance and position. The directors, in preparing this Strategic report, have complied with s414C of the Companies Act 2006.

## **Organisation and principal activity**

The Company was incorporated on 31 December 2001 (Companies House registration no. 4345939) and is a subsidiary of Glencore plc (the "Parent"). The principal activity of the Company is that of a holding company. The directors are not aware, at the date of this report, of any likely major changes in the activities of the Company in the next year. In addition, given the nature of the activities, the Company's directors believe that key performance indicators and business risks for the Company are not necessary or appropriate for an understanding of the development, performance or position of the business.

## **Business review**

As shown in the Profit and Loss account on page 9, the loss for the year after taxation was US\$ 452 million (2015: profit of US\$ 4 278 million). The balance sheet on page 10 shows that the Company's financial position at the year-end, for net assets, has decreased compared with the prior year by US\$ 146 million to US\$ 29 709 million. The directors recommend that no dividend be paid (2015: \$nil).

There have been no significant events since the balance sheet date that require disclosure or would cause any of the assets or liabilities reported in these financial statements to be restated. The Company's profitability is dependent on the quantum and timing of receipt of dividends from its subsidiaries. However, the expectation of the directors is that the Company will remain profitable in the forthcoming year.

## **Principal risks and risk governance**

The Board of Directors are responsible for approving risk management principles and policies, and ensuring that the Company's management maintains an effective system of internal controls. They are responsible for the management of risk within the framework of risk management principles and policies approved by the Board.

### *Interest rate and foreign exchange risk*

The Company monitors its interest rate risk, considering any material exposures. The US dollar is the functional currency of the Company, as the majority of transactions are denominated in US dollars. The Company is exposed to the risks of changes in foreign currency exchange rates with regard to its activities which are not denominated in US dollars.

### *Credit risk and performance risk*

The Company's principal financial assets are investments and debtors. The Company's credit and performance risk is primarily attributable to its debtors. Credit risk is mitigated by the fact that the Company's debtors are mainly other Group companies, which benefit from the support of Glencore plc. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows.

Approved by the directors and signed on behalf of the Board.

# Directors' report

The Strategic report starting on page 4 contains details of the principal activities of the Company and provides information on the Company's business during the year and indications of likely future developments.

During the year there were no changes in capital structure of the Company.

## **Directors**

The directors who held office during the year and subsequently are shown on page 3.

## **Directors' indemnities**

The Company has made qualifying third party indemnity provisions for the benefit of its directors during the year which remain in force at the date of this report.

## **Going concern**

The company's forecasts and projections, taking into account reasonably possible changes in performance and the impact of the risks and uncertainties, indicate it is appropriate to adopt the going concern basis in preparing these financial statements.

## **Auditor**

Each of the persons who are a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Deloitte LLP have indicated their willingness to be reappointed for another term and appropriate arrangements have been put in place for them to be deemed to be reappointed as auditors in the absence of an Annual General Meeting.

Approved by the directors and signed on behalf of the Board of Directors.

# Directors' responsibilities statement

The directors are responsible for preparing the Strategic report, Directors' report, and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101.

Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 Reduced Disclosure Framework has been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

# Independent auditor's report to the members of Xstrata Limited

We have audited the financial statements of Xstrata Limited for the year ended 31 December 2016, which comprise the Profit and Loss account, the Statement of Other Comprehensive Income, the Balance sheet, the Statement of Changes in Equity and the related notes 1 to 16. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS101 "Reduced Disclosure Framework".

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

## **Respective responsibilities of directors and auditor**

As explained more fully in the Directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

## **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Strategic report and the Directors' report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

## **Opinion on financial statements**

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2016 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

## **Opinion on other matter prescribed by the Companies Act 2006**

In our opinion the information given in the Strategic report and Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements.

# Independent auditor's report to the members of Xstrata Limited (continued)

## **Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

# Notes to the financial statements

## 1. GENERAL INFORMATION

Xstrata Limited is a Company incorporated in the United Kingdom under the Companies Act 2006. The Company is a private Company limited by shares and is registered in England and Wales. The address of the Company's registered office is shown on page 3. The nature of the Company's operations and its principal activities are set out in the strategic report on page 4.

These financial statements are presented in US dollars because that is the currency of the primary economic environment in which the Company operates.

These financial statements are separate financial statements. The Company is exempt from the preparation and delivery of consolidated financial statements, because it is included in the group accounts of Glencore plc. The group accounts of Glencore plc are available to the public and can be obtained as set out in note 14 as is the registered office address of the parent Company preparing consolidated accounts.

## 2. ACCOUNTING POLICIES

### **Basis of accounting**

The Company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council.

In accordance with FRS 101 the Company has:

- provided comparative information;
- applied the same accounting policies throughout all periods presented;
- retrospectively applied FRS 101 as required; and
- applied certain optional exemptions and mandatory exceptions as applicable for FRS 101.

### *Exemptions*

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to share-based payment, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash flow statement, standards not yet effective, impairment of assets and related party transactions. Where relevant, equivalent disclosures have been given in the group accounts of Glencore plc.

These financial statements have been prepared under the historical cost convention, except for the revaluation of certain financial instruments that are measured at fair value at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for the goods and services.

## 2. ACCOUNTING POLICIES (CONTINUED)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement purposes in these financial statements is determined on such a basis.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company has adopted the following principal accounting policies:

### **Going concern**

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the business review. The Company's forecasts and projections, taking into account reasonably possible changes in performance and the impact of the risks and uncertainties outlined above, indicate it is appropriate to adopt the going concern basis in preparing these financial statements.

### **Revenue recognition**

#### *Dividend income*

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established (if it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably).

#### *Interest income*

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

### **Investments in subsidiaries**

Investments in subsidiaries are accounted for at cost less, where appropriate, any provisions for impairment.

### **Investment in ultimate parent entity**

The Company's investment in the ultimate parent entity represent own shares purchased for the satisfaction of previously issued share based payment awards. The own shares are held within an Employee Share Ownership Plan (ESOP) trust and are accounted for as an available-for-sale (AFS) financial asset using Level 1 inputs. Listed shares held by the Company that are traded in an active market are classified as being AFS and are stated at fair value. Fair value is determined in the manner described above. Gains and losses arising from changes in fair value are recognised in other comprehensive income and accumulated in the investments revaluation reserve with the exception of impairment losses, which are recognised directly in profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognised in the investments revaluation reserve is reclassified to profit or loss. References to GBP denote investments denominated in British pounds sterling.

## 2. ACCOUNTING POLICIES (CONTINUED)

### **Loans from subsidiaries**

Loans from subsidiaries are recognised at inception at the fair value of the proceeds received net of issue costs. Subsequently, they are measured at amortised cost using the effective interest method less, where appropriate, any provisions for impairment. Finance costs are recognised in the profit and loss account using the effective interest rate method.

### **Impairment**

The carrying values of fixed assets are reviewed for impairment if events or changes in circumstances indicate the carrying value may not be recoverable. If there are indicators of impairment, an exercise is undertaken to determine whether the carrying values are in excess of their recoverable amounts. Such review is undertaken on cash-generating units. If the carrying value of a fixed asset exceeds the recoverable amount, a provision is recorded to reflect the asset at the lower amount. In assessing the recoverable amounts of fixed assets, the relevant future cash flows expected to arise from the continuing use and disposal of the assets have been discounted to their present value using a market-determined discount rate.

### **Taxation**

#### *Current tax*

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

#### *Deferred tax*

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

### **Foreign currency transactions**

Foreign currency transactions are booked in the functional currency (US\$) at the exchange rate ruling on the date of the transaction. Foreign currency monetary assets and liabilities are translated into the functional currency at rates of exchange ruling at the balance sheet date. Exchange differences are recorded in the profit and loss account. Foreign currency non-monetary assets and liabilities are not restated at balance sheet date.

## 3. CRITICAL ACCOUNTING JUDGEMENTS

### *Consideration of existence of indicators of impairment of long-term loan receivables and investments*

The Company reviews the carrying amounts of its loans receivable and investments to determine whether there is any indication that the value of those assets is impaired. Where such indicators are identified an impairment review is conducted. During the period, the directors have considered the recoverability of the Company's investments. The Directors' review of the recoverability of these balances identified indicators of impairment for one of the Company's subsidiaries which was subsequently impaired, please refer to note 7. Following this impairment, the directors did not identify any other indicators of impairment and the directors are confident that the carrying amount of all assets will be recovered in full.

### 3. CRITICAL ACCOUNTING JUDGEMENTS (CONTINUED)

In conducting impairment reviews, the Company makes judgements and estimates in considering the recoverable amount of the respective assets. Changes to the estimates and assumptions on factors such as commodity prices, discount rates and other inputs could impact the assessed recoverable value of assets and consequently impact the Company's income statement and balance sheet.

### 4. OTHER OPERATING INCOME

Investment income of US\$ 32 million (2015: US\$ 4 898 million) relates solely to the dividend from its investments.

### 5. OTHER OPERATING EXPENSES

US\$ million

	2016	2015

Other operating expenses	30	1
<b>Total</b>	<b>30</b>	<b>6</b>

#### Audit fees

The audit fee is US\$ 15 000 (2015: US\$ 15 000) in respect of the Company.

#### Employees

The average monthly number of employees was nil (2015: nil).

### 6. DIRECTORS' REMUNERATION

None of the directors received any fees or remuneration for their services as a director of the Company during the financial year (2015: \$nil) either from the Company or any other entity within the Glencore Group.

### 7. IMPAIRMENTS

US\$ million

	2016	2015
Impairment of AFS financial instruments	-	577
Impairment of investments/ long term loans	541	121
<b>Total</b>	<b>541</b>	<b>698</b>

During 2015, in accordance with the requirements of IAS 39, the Company assessed the Investment in ultimate parent entity held by the Company for indicators of impairment as at 31 December 2015. Due to the quoted share price of the Investment in ultimate parent entity being below its cost for a prolonged period, IAS 39 considers this objective evidence of impairment. Therefore, the Investment in ultimate parent entity was impaired to its fair value at 31 December 2015 of GBP 0.91 per share, which equates to an impairment charge of US\$ 577 million being recorded. The recorded impairment charge is the cumulative difference between cost and fair value as at 31 December 2015 and the impairment charge has been taken to Profit and loss after recycling any fair value movements previously recorded through Other comprehensive income.

The quoted share price (fair value) of the investment in ultimate parent entity as at 31 December 2016 is GBP 2.77 per share and in accordance with applicable requirements of IAS 39, the increase in fair value has been recorded in Other Comprehensive Income amounting to US\$ 306m.

As part of the annual assessment of recoverability of its Investment in subsidiaries and long term loans, the Company has recorded an impairment of US\$ 541m (2015: US\$ 121m). This impairment was taken on the investment held in Glencore (Nederland) B.V. The fair value less costs of disposal of primarily the coal assets owned by the subsidiary was the principal reason for recording of the impairment during the year to its fair value of US\$ 820 million. The recoverable amounts were measured based on fair value less costs of disposal, determined by discounted cash flow techniques based on the most recent approved financial budgets and three-year business plans.

## 7. IMPAIRMENTS (CONTINUED)

The valuation models use the most recent reserve and resource estimates, relevant cost assumptions and where possible market forecasts of commodity price and foreign exchange rate assumptions discounted using operation specific discount rates. The determination of the fair value less cost of disposal of the investment uses level 3 valuation techniques.

## 8. INTEREST INCOME

<b>Tax charge for the year</b>	<b>-</b>	<b>-</b>

The Company is incorporated in the UK but by virtue of its place of effective management being in Switzerland it is tax resident in Switzerland.

The Company can benefit from the holding privilege at the Cantonal level and therefore the Company is exempt from corporate income taxes. The Company is only subject to Federal corporate income tax at an effective tax rate of 7.8%. Due to the fact that the Company's income mainly derives from dividends the participation exemption is available and therefore no Federal corporate income tax is due.
