Mr N P O'Sullivan

Director

Company registration number: 04351028

Aspen of Hereford Limited

Notes to the Financial Statements

Year ended 31 December 2019

1. General information

The company is a private company limited by shares, registered in England and Wales, registration number 04351028 . The address of the registered office is Unit B2 Brunel Road, Leominster, Herefordshire, HR6 0LX.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are prepared in sterling, which is the functional currency of the entity. Monetary amounts in these financial statements are rounded to the nearest £.

Judgements and key sources of estimation uncertainty

Accounting estimates and assumptions are made concerning the future and, by their nature, will rarely equal the related actual outcome. The key assumptions and other sources of estimation uncertainty that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows: As described in the accounting policies of the financial statements, depreciation of tangible assets has been based on estimated useful lives and residual values deemed appropriate by the director. Estimated useful lives and residual values are reviewed annually and revised as appropriate. Revisions take in to account actual asset lives and residual values as evidenced by disposals during current and prior accounting periods.

Revenue recognition

Turnover comprises the value of sales (exclusive of VAT) of goods provided in the normal course of business. Revenue is recognised when goods are despatched, which is the same day on which goods are delivered and hence the point at which the risks and rewards of ownership pass to the buyer.

Income tax

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively. Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date. Deferred tax is recognised in respect of all material timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Plant and machinery	-	15% reducing balance
Fixtures and fittings	-	15% reducing balance
Equipment	-	25% straight line

Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date. For the purposes of impairment testing, when it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that largely independent of the cash inflows from other assets or groups of assets.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, and other costs incurred in bringing the stock to its present location and condition. Estimated selling price is the estimated proceeds from the sale of stock items, less all future costs to completion, costs to be incurred in marketing, selling and distributing.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. The basic financial instruments of the company are as follows: Debtors Debtors do not carry any interest and are stated at their nominal values. Appropriate allowances for estimated irrecoverable amounts are recognised in the Profit and Loss account when there is objective evidence that the asset is impaired. Cash at bank and in hand This comprises cash at bank and cash in hand. Trade creditors Trade creditors are not interest bearing and are stated at their nominal value.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

4. Employee numbers

The average number of persons employed by the company during the year amounted to 4 (2018: 4).
