1 Statutory information

- 1.1 The registered number of Astraeus Limited (the Company) is 04380108
- 1.2 The trading address of the Company was Astraeus House, Faraday Court, Crawley, West Sussex, RH10 9PU.
- 1.3 The registered office of the Company has been changed from Astraeus House, Faraday Court, Crawley, West Sussex, RH10 9PU to c/o Zolfo Cooper, The Zenith Building, 26 Spring Gardens, Manchester, M2 1AB.
- 1.4 Details of the Company's directors, secretary and shareholders are as follows:

	Date appointed	Date Resigned	Shares Held
Directors			
Skarphedinn Berg Steinarsson	1 October 2010	-	-
Mario Anthony Fulgoni	1 October 2010	14 August 2011	-
Palmi Haraldsson	3 November 2006	-	-
Secretary (Shadow Director)			
Stephen Paul Clarke	8 May 2006	-	-

	Class of Shares	No. Of Shares Held	Issued Capital £
Shareholding			
Eignarhaldsfelagid Fengur HF	Ordinary	3,586,073	358,607
Eignarhaldsfelagid Fengur HF	Deferred	18,191,597	18,191,597

2 Background to the Administration

- 2.1 The Company's principal activities were as a worldwide airline operator, providing a variety of options to its customers including the leasing of aircraft only, piloted aircraft and aircraft with full crews on both a short term and longer term basis.
- 2.2 This service allowed the Company's customers to obtain additional capacity or avoid cancellations whilst their aircraft may be out of operation, grounded or being maintained. The Company leased all aircraft from third party lessors and did not own any aircraft outright.
- 2.3 In recent years due to the difficult economic climate, the Company had lost a number of long term contracts, leaving only one long term client remaining, being Iceland Express (IEX) a related company. This loss of revenue was exacerbated by the fact the Icelandic summer season is shorter than in traditional UK charter markets.
- 2.4 The Company had been heavily reliant on support from its shareholder (Parent), since it was acquired in 2006. This support was in the form of funding injections and ongoing operational contracts with IEX. In addition, more recently the Parent had reclassified liabilities into equity in order to improve the Company's net liability position and ease cash flow pressures.

- 2.5 The Company had turnover of approximately £52 million in the period to 21 November 2011; however a high fixed cost base and significant operating overheads meant that the Company had been loss making for a sustained period. Trading liabilities were met as a result of continued assistance from the Parent, however no formal funding agreement existed between the two companies and thus financial backing was not guaranteed.
- 2.6 This, together with the economic downturn resulting in cautious consumer spending habits, and difficulties facing the airline industry in general lead to the Company's auditors including a material uncertainty in recent financial statements with regard to the going concern status of the Company
- 2.7 Notwithstanding this, operationally the Company had a successful summer season in 2011 with contracts being completed for Thomas Cook and Thomson Holidays, with the intention of continuing these working relationships in 2012. However, over the key summer months the businesses' costs exceeded revenue and cash reserves were depleted. These reserves were usually utilised during the traditionally quieter winter months to cover costs.
- 2.8 A Cambodian contract for three aircraft and a Chilean contract for two aircraft had been confirmed for the winter season; however these contracts were subsequently cancelled. The Company therefore took steps to source additional business in an effort to fill the gap created by these lost contracts
- 2.9 During this time the Company also sought outside investment, appointing a strategic investment partner to assist with a turnaround plan and the identification of interested parties
- 2.10 By late October 2011 it became clear that replacement contracts would not be agreed in time and this was expected to have a significant impact on the Company's cash requirements. IEX provided financial support in the short term by paying November flying expenses and the Parent was asked to provide additional funding to support the turnaround plan whilst interested parties were consulted. This further support was declined due to the lack of guaranteed future income, estimated ongoing losses and the level of their existing commitment
- 2.11 At the point the main shareholder withdrew financial support the board of directors, after taking appropriate professional advice, resolved to cease trading, grounded all aircraft and informed the employees. Following this they applied to the Court for the appointment of Administrators
- 2.12 As a result, Nick Cropper, Alastair Beveridge, and Anne O'Keefe, insolvency practitioners, were appointed Joint Administrators of the Company by the directors on 22 November 2011.
- 2.13 Nick Cropper, Alastair Beveridge, and Anne O'Keefe are licensed in the UK by the Insolvency Practitioners Association
- 2.14 The Administration is registered in the High Court of Justice, Chancery Division, Birmingham District Registry, under reference number 8577 of 2011.
- 2.15 There is currently one outstanding fixed charge held by TES Parts Limited over a piece of equipment that the Joint Administrators believe is no longer in the Company's possession. The Joint Administrators have taken the necessary steps to contact the charge holder to confirm the position and await their response
- 2.16 The EC Regulations on Insolvency Proceedings 2000 apply to the Administration. The proceedings are main proceedings as defined by Article 3 of those Regulations. The Company is based in the United Kingdom.

- 2.17 In accordance with Paragraph 100 (2) of Schedule B1 of the Insolvency Act 1986, all functions of the Joint Administrators are to be exercised by any or all of the Joint Administrators

3 Administration strategy and objective

- 3.1 The Joint Administrators must perform their functions with the purpose of achieving one of the following objectives

- rescuing the Company as a going concern; or
- achieving a better result for the Company's creditors as a whole than would be likely if the Company were wound up (without first being in Administration); or
- realising property in order to make a distribution to one or more secured or preferential creditors.

Further information on the pursuance of the above objectives is detailed below.

- 3.2 The first objective under the Administration regime is based on the survival of the Company through a Company Voluntary Arrangement (CVA) or a Scheme of Arrangement (Scheme) under part 26 of the Companies Act 2006.

- 3.3 In this regard, following the appointment of the Joint Administrators, a teaser document/process letter was sent to approximately 20 parties who were known to the Joint Administrators or who had contacted the Joint Administrators following appointment. These interested parties were asked to provide best and final offers for the shares in the Company and for the Aircraft Operators Certificate (AOC) and other licenses owned by the Company. The expectation was that a nominal value would be paid for the shares with the funds being paid for the licenses forming a pot of monies which would then be distributed to the creditors via the CVA

- 3.4 Three offers were received following which after careful consideration a preferred bidder was chosen. Immediately thereafter, this party was provided with a funding agreement and requested to provide the funding which had been detailed in the process letter as a condition of any offer being accepted

- 3.5 This did not get finalised prior to the Christmas period and the Joint Administrators were subsequently advised on 5 January 2012, that the preferred bidder had withdrawn. Those parties that had signed non-disclosure agreements as part of the original process were contacted as were the two parties who had made offers

- 3.6 Unfortunately, one of the two under bidders was either incapable or unwilling to comply with the terms requested in the process letter and the Joint Administrators therefore had serious doubts about their ability to conclude a transaction in the timescales required and at a level which would have returned anything meaningful to the creditors. Discussions continue with the remaining party to establish whether a transaction can be formulated

- 3.7 A conclusion of these discussions will be forthcoming in the next couple of days but if a transaction cannot be formulated the Joint Administrators will move to the second objective of the Administration being to achieve a better result for the Company's creditors as a whole than would be likely if the Company were wound up (without first being in Administration). At the current time it is unclear whether this will be achievable given that the business of the Company cannot be sold because the licenses are not transferable. However, it may be that the Company's rights to receive its entitlements under the Emissions Trading Scheme (see 3.17 below) are better protected in Administration as compared to Liquidation and that some value may be achievable in due course

- 3.8 Alternatively the Joint Administrators will move onto the third purpose being realising property in order to make a distribution to one or more secured or preferential creditors.

Steps on appointment and realisation of other assets

- 3.9 Following appointment the Joint Administrators and their staff attended the Company's premises and met with management to assess the financial position of the business. All employees had been informed not to attend work prior to the Administration and formal redundancy notifications were issued immediately following appointment. A small number of staff were retained to assist the Joint Administrators with updating financial information and the identification of assets.
- 3.10 An inventory and valuation of the Company's assets was completed by the Joint Administrators' agent, Edward Symmons (the Agent) and preparations commenced for a sale of stock and other chattel assets owned by the Company. Adverts were placed in Auction News and Flight International and details were circulated to the Agent's database of approximately 33,000 contacts. This process is now substantially complete and it is understood from the Agent that approximately £303,000 has been received to date from the sale of spare parts, motor vehicles and certain aircraft equipment. There is some further stock at third party locations and furniture and equipment at the Company's head office which may yet yield value, estimated to be between £15,000 and £20,000.
- 3.11 The Company had a number of prepayments and deposits in its financial statements. A review of the books and records has been conducted to assess the recoverability of these amounts and it appears that there may be approximately £160,000 to collect. For prudence however a value of £50,000 has been included in the Estimated Financial Position.
- 3.12 These parties have been written to requesting a refund of balances held and settlements of £37,295 have been received to date. The Joint Administrators will continue to chase outstanding amounts and take legal action if necessary.
- 3.13 Immediately prior to appointment the Bank of Scotland (the Bank) placed a stop on the Company's bank accounts. At the date of appointment, cash at bank totalled approximately £583,000, of which £470,000 has been received to date by the Joint Administrators. Included within this amount was a VAT refund of approximately £60,000. It is expected that the remaining funds held by the Bank (totalling approximately £113,000) will be received shortly.
- 3.14 It should be noted that it had been suggested that some of these funds were held on Trust for the benefit of certain creditors. Legal advice has been taken (including legal Counsel's opinion) on how to treat these funds; advice suggests that no Trust existed and that the funds should be available to the general body of creditors.
- 3.15 In addition, the Bank held cash bonds totalling approximately £1.5 million to cover the Letters of Credit (LOC) issued to a number of the aircraft lessors. To date all but £48,000 has been drawn under the terms of these LOC's.
- 3.16 It may be that some of this residual balance becomes available to the general body of creditors, however the remaining LOC is not due to expire until 11 March 2012 and therefore until this occurs, these funds will not be released by the Bank.

EU Emissions Trading Scheme (EU ETS)

- 3.17 As an airline, Astraeus is part of the EU ETS and has been allocated an allowance of 97,012 tonnes/permits for 2012. At the current time these permits are trading at approximately €7

per permit. If the CVA is successful it is anticipated that these can be obtained by the Company and therefore any purchaser would be expected to return value for them to the creditors.

- 3.18 Advice is currently being sought on whether, in the event that a CVA cannot be pursued, these permits can still be obtained. If successful the intention would be to sell them after June 2012 when the Aviation EU ETS trading scheme goes live, thus resulting in a potential return to creditors.

Other matters

- 3.19 Planes and engines used by the Company were all leased and steps were taken to notify all aircraft lessors immediately following appointment. In the main all the aircraft leases were terminated either before or immediately following appointment and once all the leased engine issues had been resolved, the aircraft were returned.
- 3.20 The Joint Administrators have been in regular contact with the Civil Aviation Authority (CAA) regarding the Company's AOC and other licenses and following appointment the CAA took the decision to suspend the AOC pending a potential sale of the business. At the current time the AOC remains suspended until 22 March 2012, although should a suitable offer for the Company be received which the CAA is prepared to sanction, it may be that the suspension of the AOC is removed.

4 Joint Administrators' receipts and payments

- 4.1 A summary of receipts and payments from the date of my appointment to 6 January 2012 is attached at Appendix A.
- 4.2 To date, £470,000 has been received into the Joint Administrators' account in respect of cash remaining in the Company's pre-appointment bank accounts. As discussed above the entitlement to some of these funds is currently under investigation.
- 4.3 Other realisations have been made from recoveries of debtor monies and a rental deposit.

5 Financial position

- 5.1 A Statement of the Company's Affairs (SoA) has not yet been received although the directors have been reminded of their responsibilities in this regard. A draft SoA however has been received, which was prepared by Company staff from the November 2011 management accounts.
- 5.2 It should be noted that the directors have advised they are unable to sign the SoA due to fact they are also directors of IEX and therefore as the largest creditor feel that they may have a conflict of interest should a dividend be payable to unsecured creditors.
- 5.3 Attached at Appendix B is a summary of the Estimated Financial Position (EFP) of the Company as at 22 November 2011, together with a list of creditors' names and addresses along with details of their debts (including details of any security held by them). The EFP has been prepared from the draft SoA, management accounts and from the information available to date.
- 5.4 The Joint Administrators have the following observations to make in relation to the EFP of the Company.

- The EFP is before provision for the costs of the Administration.
- Values are on a break up basis sale and do not include realisations should a sale of the Company be achieved.
- The EFP assumes that no value is ascribed to the EU ETS permits
- No value has been ascribed to those assets which are based overseas due to uncertainty surrounding their realisability. These assets potentially have a net value of approximately £15,000.
- Creditor values include accruals where invoices had not been received at the date of cessation
- No account has been taken of any residual claims resulting from the termination of the aircraft leases or from landlords.

6 Proposals

It is proposed that the Joint Administrators continue to manage the affairs of the Company in order to achieve the objective of the Administration. In the circumstances it is proposed that:

- 6.1 The first objective under the Administration regime is based on the survival of the existing Company through a CVA or a Scheme. The Joint Administrators therefore propose taking any action they consider necessary with a view to the approval of a CVA or a Scheme.
- 6.2 If the survival of the existing Company is not achievable or any proposals for a CVA or Scheme put to creditors are not accepted, the Joint Administrators will pursue the second objective or failing this the third objective of the Administration.
- 6.3 If having pursued objective two or three and having realised the assets of the Company, the Joint Administrators think that a distribution will be made to the unsecured creditors, they will file a notice with the Registrar of Companies which will have the effect of bringing the appointment of the Joint Administrators to an end and will move the Company automatically into Creditors' Voluntary Liquidation (CVL) in order that the distribution can be made. In these circumstances, it is proposed that the Joint Administrators will become the Joint Liquidators. See Section 7 below on **Exit Routes** for further information on this process
- 6.4 If the Joint Administrators think that the Company has no property which might permit a distribution to its unsecured creditors, they will file a notice with the Court and the Registrar of Companies for the dissolution of the Company. See Section 7 below on **Exit Routes** for further information on this process
- 6.5 The Joint Administrators shall perform all such other duties and generally exercise all of their powers as contained in Schedule 1 of the Insolvency Act 1986, as they consider desirable or expedient to achieve the statutory purpose of the Administration.
- 6.6 The creditors consider establishing a creditors' committee and if any such committee is formed they be authorised to sanction the following, basis of the Joint Administrators' remuneration, category 2 disbursements and any proposed act on the part of the Joint Administrators without the need to report back to a further meeting of creditors generally, to include any decision regarding the most appropriate exit route from the Administration
- 6.7 The basis of the Joint Administrators' remuneration may be fixed as one or more of the following bases, and different bases may be fixed for different duties performed by the Joint Administrators

- a percentage of the value of the assets with which they have to deal, or
 - by reference to time properly spent by them and their staff dealing with matters arising in the Administration, or
 - as a set amount.
- 6.8 Where no creditors' committee is appointed, the remuneration of the Joint Administrators shall be fixed by reference to the time properly spent by the Joint Administrators and their staff on matters arising in the Administration.
- 6.9 The Joint Administrators are authorised to draw remuneration as and when funds are available on account of their time costs
- 6.10 The Joint Administrators are authorised to draw category 2 disbursements for services provided by their own firm in accordance with Statement of Insolvency Practice 9 as follows:
- Photocopying - charged at the rate of ten pence per sheet for notifications and reports to creditors and other copying
 - Business mileage for staff travel, charged at the rate of 45 pence per mile
 - Printing - ten pence per sheet for black and white and 15 pence per sheet for colour.
- 6.11 The Joint Administrators will be discharged from liability under paragraph 98 of Schedule B1 to the Insolvency Act 1986 directly after their appointment as Joint Administrators ceases to have effect

7 Exit routes

Company Voluntary Arrangement

- 7.1 In order that the Joint Administrators may achieve the purpose of the Administration, being to rescue the Company as a going concern, the most appropriate exit route from Administration will be achieved through a CVA
- 7.2 The Joint Administrators have considered the various options available to the Company for achieving the purpose of the Administration. On the basis of information received and the alternative options available to creditors, it would appear that this option, if achievable, will give a greater return to creditors generally than any of the other options available, such as selling the assets on a forced sale basis

What is a CVA?

- 7.3 A CVA is a formal insolvency procedure which enables a company to agree with its creditors how their debts should be paid and in what proportions. It requires the approval of a majority in excess of 75% in value of the creditors voting on the resolution in proxy or in person

- 7.4 Once approved, it binds all creditors who received notice of the meeting and were entitled to vote at it, whether they actually did vote or not. There are special provisions for valuing the votes of creditors who are connected with the Company.

CVA Proposal

- 7.5 At this time it is not possible to provide an outline of the CVA proposals that may be put to creditors. You will be written to under separate cover in the event that it is deemed the most appropriate exit route and a separate meeting will be convened to consider the CVA proposals.
- 7.6 If you do not receive further notification within two to three weeks of receipt of this report, you may assume that a CVA is not feasible and that the Joint Administrators will realise the remaining assets of the Company with a view to achieving either the second or third objective of the Administration.

Creditors' Voluntary Liquidation

- 7.7 There are a number of factors which may still impact whether a dividend will be paid to the unsecured creditors in due course. If a dividend is available the Joint Administrators will file a notice with the Registrar of Companies in order that the Administration will cease and the Company will move automatically into a CVL. It is proposed that the Joint Administrators will also become the Joint Liquidators.
- 7.8 Creditors have the right to nominate an alternative Liquidator of their choice. To do this, creditors must make their nomination in writing to the Joint Administrators prior to these proposals being approved. Where this occurs, the Joint Administrators will advise creditors and provide the opportunity to vote. In the absence of a nomination, the Joint Administrators will automatically become the subsequent Joint Liquidators of the Company. In that event, any act required or authorised by the Joint Liquidators may be done by any or all of them.

Compulsory liquidation of the Company

- 7.9 A Liquidator of a company has greater powers to investigate, and if required, take action on behalf of the Company to recover funds for the benefit of creditors, if prior to its insolvency transactions had been entered into by the Company without commercial justifications, which diminished the net asset position of the Company. However, a company cannot enter a CVL following administration unless there will be funds available for its unsecured creditors. If the Joint Administrators become aware of transactions requiring further investigation and potential action by a Liquidator, they will make an application to court to end the Administration, and request that the court places the Company into Compulsory Liquidation. The Joint Administrators will send notice of any such application to the Company and its creditors.

Dissolution of the Company

- 7.10 If the Joint Administrators think that the Company has no property which might permit a distribution to its unsecured creditors, they will file a notice together with their final progress report at Court and with the Registrar of Companies for the dissolution of the Company. The Joint Administrators will send copies of these documents to the Company and its creditors. The appointment will end following the registration of the notice by the Registrar of Companies.

8 Pre-administration costs

- 8.1 Zolfo Cooper was contacted late on the Friday immediately preceding the date of the appointment of the Joint Administrators (18 November 2011).
- 8.2 Staff from this office attended the Company's premises to discuss the financial position of the Company with management and to discuss the most appropriate course of action. In addition, work was commenced to plan for an imminent Administration appointment, in case this was required.
- 8.3 This work was necessarily performed prior to the appointment to comply with project acceptance procedures, including money laundering requirements and to ensure that the appointment could proceed if required. It also ensured that appointment documentation required by the Court was ready and enabled the Joint Administrators' staff to develop an understanding of the Company and the business in general, which resulted in matters being dealt with efficiently and in as cost effective a manner as possible following appointment.
- 8.4 Pre-appointment fees charged and expenses incurred by the Joint Administrators were as follows:

Charged by	Brief description of services provided	Total amount charged £	Amount paid £	Payment made by	Amount unpaid £
Zolfo Cooper	Meeting with Company representatives and preparatory steps for the appointment of Joint Administrators	10,340	Nil N/A		10,340

- 8.5 Please note that the payment of unpaid pre-administration costs is subject to the approval of creditors, separately to the approval of the Joint Administrators' proposals. This approval will be the responsibility of the creditors' committee, if one is appointed, or by a resolution of a meeting of creditors/written resolution where no committee is appointed.

9 Joint Administrators' remuneration

- 9.1 The Joint Administrators' time costs at 6 January 2012 are £167,540. This represents 466 hours at an average rate of £359 per hour. This time has predominantly been incurred as follows:
- **Administration and planning** - this time has been incurred formulating and implementing the initial case strategy, complying with statutory duties and performing general administrative work. Case related treasury and support time is also recorded here
 - **Realisation of assets - floating charge** - time recorded within this category includes liaising with the Agent in respect of Company assets to establish the most appropriate realisation strategy and managing the sales process. Time has been spent corresponding with a number of leasing companies for the collection of the assets, including reviewing and settling retention of title claims
 - **Creditors** - time has been incurred notifying all creditors of the appointment and preparing statutory reports. Time has also been spent dealing with employee claims, general creditor correspondence and telephone calls

- 9.2 A copy of "A Creditors' Guide to Administrators' Remuneration" can be downloaded from Zolfo Cooper's creditor portal (<http://www.zcinfoportal.com>) - click on **Creditors' Guide to Fees** in the menu on the left side of the screen).
- 9.3 If you would prefer this to be sent to you in hard copy please contact Joe Fox on 0161 838 4570, alternatively email creditorreports@zolfo.cooper.eu and a copy will be sent to you. Also attached at Appendix C is a Time Analysis which provides details of the activity costs incurred by staff grade to the above date. The Joint Administrators propose drawing fees in accordance with the proposals outlined above.
- 9.4 Attached at Appendix D is additional information in relation to the Joint Administrators' policy on staffing, the use of sub-contractors, disbursements and details of our current charge-out rates by staff grade

10 Estimated outcome

Secured creditor

- 10.1 A fixed charge over a specific item in favour of TES Parts Limited (TES) is currently registered with Companies House, although it is understood that this item may have been returned some time ago. The Joint Administrators have written to TES to obtain confirmation on this point and their response is awaited.

Preferential creditors

- 10.2 Based on the EFP the estimated value of the preferential creditors is approximately £279,000. Based on the information currently available it is anticipated that preferential creditors will receive a substantial dividend on their claim if not receiving payment in full. This will be affected by any successful challenges to the decision to treat purported Trust monies as general funds in the Company.

Unsecured Creditors' Fund

- 10.3 Pursuant to Section 176A of the Insolvency Act 1986 where there is a floating charge which post dates 15 September 2003, the Joint Administrators are required to create a fund from the Company's net property available for the benefit of the unsecured creditors which is known as the Unsecured Creditors' Fund or Prescribed Part.
- 10.4 There were no unsatisfied floating charges at the date of the Joint Administrators' appointment and therefore the provision of the Prescribed Part will not apply.
- 10.5 The expectation therefore is, after payment of the costs of the Administration and payment of the preferential creditors in full, any surplus funds will be available for the unsecured creditors.

11 Next report

- 11.1 The Joint Administrators are required to provide a progress report within one month of the end of the first six months of the Administration.

12 Meeting of creditors

- 12.1 The Joint Administrators are required to convene an initial meeting of the Company's creditors to approve the Joint Administrators' proposals. It is however intended to hold the meeting by correspondence to save costs.
- 12.2 Further information on the meeting is contained in the letter accompanying this report.

Yours faithfully
For and on behalf of
Astraeus Limited

Anne O'Keefe
Joint Administrator

Additional information in relation to the Joint Administrators' remuneration pursuant to Statement of Insolvency Practice 9

Appendix D

1 Policy

Detailed below is Zolfo Cooper's policy in relation to.

- staff allocation and the use of sub-contractors;
- professional advisors; and
- disbursements

1.1 Staff allocation and the use of sub-contractors

The Joint Administrators' general approach to resourcing their assignments is to allocate staff with the skills and experience to meet the specific requirements of the case.

The case team will usually consist of a Partner, Senior Associate, an Associate and an Analyst. The exact constitution of the case team will depend on the anticipated size and complexity of the assignment and the experience requirements of the assignment. On larger, more complex cases, several staff at all grades may be allocated to meet the demands of the case. The Joint Administrators' charge out rate schedule below provides details of all grades of staff and their experience level

With regard to support staff, the Joint Administrator would advise that time spent by Treasury in relation to specific tasks on an assignment is charged. The Joint Administrators only seek to charge and recover secretarial time if a large block of time is incurred, eg report compilation and distribution.

The Joint Administrators have not utilised the services of any sub contractors in this case

1.2 Professional advisors

On this assignment the Joint Administrators have used the professional advisors listed below. The Joint Administrators have also indicated the basis of their fee arrangement with them, which is subject to review on a regular basis.

Name of Professional Advisor	Basis of Fee Arrangement
Gateleys LLP (legal advice)	Hourly rate and disbursements
Willis Limited (insurance)	Risk based premium
Edward Symmons (valuation and disposal advice)	Percentage of realisations
Payco ERA (employee related matters)	Hourly rate and disbursements
Addleshaw Goddard (legal advice re purported trust monies)	Hourly rate and disbursements

The Joint Administrators' choice was based on their perception of the professional advisors' experience and ability to perform this type of work, the complexity and nature of the assignment and the basis of their fee arrangement with them.

1.3 Disbursements

Category 1 disbursements do not require approval by creditors. Category 1 disbursements may include external supplies of incidental services specifically identifiable to the case, such as postage, case advertising, invoiced travel and external printing, room hire and document storage. Also chargeable will be any properly reimbursed expenses incurred by the Joint Administrators and their staff.

Category 2 disbursements do require prior approval by creditors before they are paid. If they are incurred, they will be drawn in accordance with the Joint Administrators' Proposals. Category 2 disbursements that may be incurred are as follows:

- Photocopying - charged at the rate of ten pence per sheet for notifications and reports to creditors and other copying
- Business mileage for staff travel, charged at the rate of 45 pence per mile
- Printing - ten pence per sheet for black and white and 15 pence per sheet for colour.

2 Charge-out rates

A schedule of Zolfo Cooper charge-out rates effective from 1 January 2011 is detailed below.

Description	£
Partner/director
