Radbournes Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 December 2020

1 General information

The company is a private company limited by share capital, incorporated in England.

The address of its registered office is:

Reynard Close
Chapel Road
Rotherwas
Hereford
HR2 6JH

These financial statements were authorised for issue by the Board on 18 May 2021.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances. Revenue from the sale of goods is recognised when goods are delivered and legal title has passed.

Tax

Taxation represents the sum of tax currently payable and deferred tax.

Radbournes Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 December 2020 (continued)

2 Accounting policies (continued)

The company's liability for current tax is calculated using tax rates that have been enacted or substantially enacted by the end of the reporting period.

Deferred tax is recognised on all timing differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period.

Depreciation

Tangible fixed assets held for the company's own use are stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives at the following rates:

Asset class	Depreciation method and rate
Motor vehicles	20% of written down value per annum
Plant and machinery	20% of cost per annum
Fixtures and fittings	20% of cost per annum
Computer equipment	33% of cost per annum
Property improvements	4% of cost per annum

Goodwill

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life which in the opinion of the directors is three years.

Amortisation

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life as follows:

Asset class	Amortisation method and rate
Computer software	33% Straight line

Radbournes Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 December 2020 (continued)

2 Accounting policies (continued)

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell (net realisable value). Costs, which comprise direct production costs, are based on the method most appropriate to the type of inventory class, but usually on a first-in-first-out basis. Overheads are charged to profit and loss as incurred. Net realisable value is based on the estimated selling price less any estimated completion or selling costs. When stocks are sold, the carrying amount of those stocks is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of stocks to net realisable value and all losses of stocks are recognised as an expense in the period in which the write-down or loss occurs. The amount of any reversal of any write-down of stocks is recognised as a reduction in the amount of stocks recognised as an expense in the period in which the reversal occurs.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Dividends

Dividend distribution to the company's shareholders is recognised as a liability in the financial statements in the reporting period in which the dividends are declared.

3 Staff numbers

The average number of persons employed by the company (including directors) during the year, was 28 (2019 - 27).
