### "EMPHASIS OF MATTER - GOING CONCERN

1. cles

In forming our opinion, which is not modified, we have considered the adequacy of the disclosures made in note 1 to the financial statements concerning the company's ability to continue as a going concern. The going concern assumption adopted is supported by forecasts which rely on the ongoing support of the company's parent company through a loan facility. This indicates the existence of material uncertainties which may cast significant doubt about the company's ability to continue as a going concern. The financial statements do not include any adjustments which could result if the company was unable to continue as a going concern."

### 1. ACCOUNTING POLICIES - continued

### Going concern

The financial position of the company, liquidity and borrowing facilities are shown in the financial statements on pages 6 to 15. In summary, the company has incurred significant losses over a number of years as it continues to invest in light based cosmetic devices addressing hair removal and other consumer markets, in order to deliver its strategy of commercialising relevant technology. During this time the company has required significant financial support from its shareholders through equity funding, and from a major current customer, Proctor & Gamble, through an advanced payment, of which £1,475,664 is outstanding at 31 December 2014.

The directors continually review the company's cost base and the future liquidity requirements, and have produced sensitised forecasts covering the 12 months from the date of approving the financial statements. The principal assumption in the forecast is:

- the continued availability of an intra-group loan facility.

Based on these forecasts, the directors have a reasonable expectation that, with ongoing support, the company has adequate resources to continue in operational existence for the foreseeable future.
