Taxation

Current tax represents the amount of tax payable or receivable in respect of the taxable profit for the current or past reporting periods. It is measured at the amount expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at the date that will result in an obligation to pay more, or a right to pay less or to receive more tax. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis.

Tangible assets

Tangible fixed assets are initially recorded at cost, and subsequently stated at cost less accumulated depreciation.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Motorbikes and equipment	-	25% reducing balance

In the year of acquisition tangible fixed assets are depreciated from 1 April.
