Brixton Northfields 5 Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 December 2021

1 General information

General

Brixton Northfields 5 Limited ("the Company") is a private company limited by share capital incorporated and domiciled in the United Kingdom. The address of its registered office is 1 New Burlington Place, London, W1S 2HR, England. The nature of the Company's operations and its principal activities are set out in the Strategic Report on page 2.

These financial statements are presented in thousands and in sterling since that is the currency in which the majority of the Company's transactions are denominated and is the functional currency of the Company.

These financial statements were prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework'. These financial statements are separate financial statements.

The Company is exempt from the preparation of consolidated financial statements, because it is included in the financial statements of SEGRO plc. The Group financial statements of SEGRO plc for the year ended 31 December 2021 are available to the public and can be obtained as set out in note 8.

2 Significant accounting policies

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard, for all periods presented, in relation to business combinations, financial instruments, capital management, presentation of comparative information in respect of certain assets, share based payments, presentation of a cash-flow statement, disclosures in respect of the compensation of key management personnel, related parties and disclosure of valuation techniques and inputs used for fair value measurement of assets and liabilities and standards not yet effective.

Where relevant, equivalent disclosures have been given in the Group financial statements of SEGRO plc for the year ended 31 December 2021. The Group financial statements of SEGRO plc are available to the public and can be obtained as set out in note 8.

As the Company is a subsidiary of the SEGRO plc group, it is managed on a unified basis as part of the SEGRO plc group.

The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

There are standard accounting policies followed by the Group and they are included within this note for standardised presentation across all financial statements as the Group has a significant number of subsidiaries.

Brixton Northfields 5 Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 December 2021 (continued)

2 Significant accounting policies (continued)

The financial statements have been prepared on the historical cost basis, except for the revaluation of certain properties that are measured at fair value through profit or loss, and in accordance with the Companies Act 2006 as applicable to companies using FRS 101. Historical cost is generally based on the fair value of the consideration given in exchange for the goods and services. The principal accounting policies applied in the preparation of these financial statements are set out below, and have, unless otherwise stated, been consistently applied to all periods presented in these financial statements.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

Adoption of new and revised Standards

The following standards and amendments have been adopted by the Company for the first time for the financial year beginning on 1st January 2021:

- Interest Rate Benchmark Reform - Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16)

The amendment did not have any impact on the amounts recognised in prior period and are not expected to significantly affect the current or future periods.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Income tax expense

Income tax on the profit for the year comprises current and deferred tax. Current tax is the tax payable on taxable income for the year and any adjustment in respect of previous years.

Deferred tax is provided in full using the balance sheet liability method on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is determined using tax rates that have been enacted or substantively enacted by the reporting date and are expected to apply when the asset is realised or the liability is settled.

No provision is made for temporary differences (i) arising on the initial recognition of assets or liabilities, other than a business combination, that affect neither accounting nor taxable profit and (ii) relating to investments in subsidiaries to the extent that they will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that suitable taxable profits will be available against which deductible temporary differences can be utilised.

3 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, the Directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revisions and future periods if the revision affects both current and future periods.

Significant areas of estimation uncertainty

Property valuations

Valuation of property is a central component of the business. In estimating the fair value, the Group engage a third party qualified valuer to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of the property portfolio is disclosed in the Investment Properties note of the SEGRO plc Annual Report and Accounts for the year ended 31 December 2021.

Significant areas of judgement in applying the Company's accounting policies

Accounting for significant property transactions

Property transactions are complex in nature. Management considers each material transaction separately, with an assessment carried out to determine the most appropriate accounting treatment and judgements applied. The judgements include whether the transactions represent an asset acquisition or business combination and the cut off for property transactions on recognition of property assets and revenue recognition. In making its judgement over the cut-off for property transactions, management considers whether the control of ownership of the assets acquired or disposed of has transferred to or from the Company (this consideration includes the revenue recognition criteria set out in IFRS 15 Revenue for the sale of trading properties).

In making its judgement on whether the acquisition of property through the purchase of a corporate vehicle represents an asset acquisition or business combination, management considers whether the integrated set of assets and activities acquired contain both input and processes along with the ability to create outputs. Management also apply the optional 'concentration test' allowed under IFRS 3. When applying the optional test, management considers if substantially all of the fair value of gross assets acquired is concentrated in a single asset (or a group of similar assets). Where management judge that substantially all of the fair value of the gross assets acquired are concentrated in a single asset (or a group of similar assets) and the 'concentration test' met, the assets acquired would not represent a business and the purchase would be treated as an asset acquisition.

REIT Status

SEGRO Plc has elected for UK REIT status. To continue to benefit from this tax regime, the Group and Company is required to comply with certain conditions as outlined in Note 10 of the SEGRO plc Annual Report and Accounts for the year ended 31 December 2021. Management intends that the Group and Company should continue as a UK REIT for the foreseeable future.

Brixton Northfields 5 Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 December 2021 (continued)

4 Income tax (expense)/credit

Tax charged/(credited) in the Income Statement:

	2021 £ 000	2020 £ 000
Total current income tax	-	-

The tax on profit before tax for the year is lower than the standard rate of corporation tax in the UK (2020 - lower than the standard rate of corporation tax in the UK) of 19% (2020 - 19%).

The differences are reconciled below:

	2021 £ 000	2020 £ 000
Profit/(loss) before tax	-	-
Less: revaluation movement not taxable	-	-
Adjusted profit /(loss) on ordinary activities before tax	-	-
Corporation tax at standard rate	-	-
REIT tax exemption	-	-
Total tax charge/(credit)	-	-

The standard rate of UK corporation tax is expected to be maintained at 19% for the financial year beginning 1 April 2022, and then 25% for the financial year beginning 1 April 2023. This is unlikely to significantly impact the Company's tax charge.

SEGRO plc elected during 2007 to become a Real Estate Investment Trust (REIT) for UK tax purposes with effect from 1 January 2007. As a result, no UK corporation tax should be due on future income or capital gains in respect of investment properties within the REIT group, of which the Company is a member.

5 Dividends

A dividend of £Nil was recognised during the year ended 31 December 2021 (2020: £Nil). After the balance sheet date, dividends of £Nil (2020: £Nil) were proposed by the Directors and paid. The dividends proposed after the balance sheet date have not been provided for in the current year financial statements.

6 Creditors: Amounts falling due after more than one year

	2021 £ 000	2020 £ 000
Amounts owed to group undertakings	-	-

Brixton Northfields 5 Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 December 2021 (continued)

6 Creditors: Amounts falling due after more than one year (continued)

Where the Company is trading, its amounts owed to Group undertakings are charged at an interest rate of 1.75% (2020: 1.85%). Where the Company is not trading the non-current account is not interest bearing. The amounts due have no fixed repayment terms.

7 Called up share capital

The Company has one class of ordinary shares which carry no right to fixed income. Each share carries the right to one vote at the general meetings of the Company.

Allotted, called up and fully paid shares
