## **NOTES TO THE ABBREVIATED ACCOUNTS**

**YEAR ENDED 30 SEPTEMBER 2013**

### **1. ACCOUNTING POLICIES**

#### **Basis of accounting**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

#### **Consolidation**

In the opinion of the directors, the company and its subsidiary undertakings comprise a small group. The company has therefore taken advantage of the exemption provided by Section 398 of the Companies Act 2006 not to prepare group accounts.

#### **Fixed assets**

All fixed assets are initially recorded at cost.

#### **Depreciation**

No Depreciation is provided in respect of freehold land and buildings as it is company policy to maintain its properties in good condition by a programme of repair and refurbishment . This has the effect of extending the physical and economic life of properties and thereby rendering any charge for depreciation immaterial. In the opinion of the directors this accounting policy ensures that the financial statements present a true and fair view.

## NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2013

### 1. ACCOUNTING POLICIES *(continued)*

#### Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.
