The financial statements have been prepared and delivered in accordance with the provisions of Part 15 of the Companies Act 2006 relating to small companies.

In accordance with Section 444 of the Companies Act 2006, the Profit and Loss Account has not been delivered.

The financial statements were approved by the Board of Directors on 27 February 2018 and were signed on its behalf by:

D J Richards - Director

Notes to the Financial Statements for the year ended 31 December 2017

1. Statutory information

Kaliber Marketing (Holdings) Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. Statement of compliance

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006.

3. Accounting policies

Basis of preparing the financial statements

The financial statements have been prepared under the historical cost convention.

Preparation of consolidated financial statements

The financial statements contain information about Kaliber Marketing (Holdings) Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under Section 399(2A) of the Companies Act 2006 from the requirements to prepare consolidated financial statements.

Significant judgements and estimates

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

There are not considered to be any critical judgements in applying the company's accounting policies.

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amounts of assets or liabilities within the next financial year are addressed below.

i) Stock provisions

Certain of the company's products are subject to changing consumer demands. As a result it is necessary to consider the recoverability of the cost of stocks and the associated provision required. When calculating the provision management considers the nature and condition of the stocks, as well as applying assumptions around the saleability of finished goods and future usage of raw materials.

ii) Impairment of goodwill

The company considers whether goodwill is impaired. Where an indication of impairment is identified the estimation of recoverable value requires estimation of the recoverable value of the businesses. This requires estimation of the future cash flows from the businesses and also selection of appropriate discount rates in order to calculate the net present value of those cash flows.

Going concern

The company made a net profit of £77,453 for the year ended 31 December 2017 but at that date had net current liabilities of £874,286. The company is dependent, in the absence of other funding, on the continued support of its subsidiary, Universal Arches Limited, the bank and key suppliers. All have confirmed their commitment to provide the necessary support.

On this basis the directors consider it appropriate to prepare the financial statements on a going concern basis. The financial statements do not include any adjustments that might be necessary if the directors, its subsidiary and key suppliers were not to provide further support.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

The company recognises turnover on delivery of goods to customers

Notes to the Financial Statements - continued for the year ended 31 December 2017

3. Accounting policies - continued

Goodwill

Goodwill, being the amount paid in connection with the acquisition of separate businesses in 2002 and 2014, is being amortised evenly over their estimated useful lives of twenty and ten years respectively.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery - 25% straight line
Fixtures and fittings - 25% straight line
Motor vehicles - 25% straight line

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price, costs directly attributable to bringing the asset to its working condition for its intended use, dismantling and restoration costs and borrowing costs capitalised.

Investments in subsidiaries

Investments in subsidiary undertakings are recognised at cost.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Financial instruments

The company has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

(i) Financial assets

Basic financial assets, including trade and other debtors and cash and bank balances, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in the profit or loss.

There are no assets which are initially measured at fair value.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in profit and loss.

(ii) Financial liabilities

Basic financial liabilities, including trade and other creditors and bank loans that are classified as debt, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss Account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Notes to the Financial Statements - continued for the year ended 31 December 2017

3. Accounting policies - continued Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Incentives received to enter into an operating lease are credited to the profit and loss account, to reduce the lease expense, on a straight-line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

4. Employees and directors

The average number of employees during the year was 89 (2016 - 78).

5. Intangible fixed assets

15. Related party disclosures

The company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

One of the directors has given a personal guarantee amounting to £100,000 in respect of the bank loan.

Post balance sheet events

A director resigned on 12 February 2018 and, as a result, the company will purchase his shareholding. The consideration is yet to be determined.

17. Pension schemes

Defined contribution pension scheme

The company operates a defined contribution pension scheme. The pension cost charge for the year represents contributions payable by the company to the scheme and amounted to £16,390 (2016 - £114,691).

Contributions totalling £nil (2016 - £1,163) were payable to the scheme at the end of the year and are included in creditors.
