## NOTES TO THE FINANCIAL STATEMENTS For the year ended 31 December 2007

## 1. ACCOUNTING POLICIES

## 1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards

#### 1.2 Cash flow

The company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS1

#### 1.3 Turnover

Turnover comprises property rentals and other goods and services, which fall within the company's ordinary activities, exclusive of Value Added Tax All turnover arose from within the United Kingdom. The directors consider there to be one business segment for reporting purposes, as the company conducts one business activity, being the sale and rental of properties.

#### 1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases.

Plant & machinery

15% straight line

#### 1.5 Stocks

Stocks are stated at the lower of cost and net realisable value. Cost comprises the cost of acquisition of property, professional and planning fees and construction and infrastructure costs but excludes overheads. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing and selling the properties.

## 1.6 Taxation

UK corporation tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Provision is made in full on timing differences, which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and habilities are not discounted

A deferred tax asset has not been recognised relating to tax losses in respect of the current trade. The amount of the asset not recognised is £88,802 (2006 - £95,145). The asset will be recovered when there are sufficient taxable profits of the current trade in subsequent accounting periods

In March 2007 the UK government announced that they would introduce legislation that would reduce the corporation tax rate to 28% with effect from 1 April 2008. The legislation was substantially enacted in June 2007. The effective tax rate for any current tax charge for the year ended 31 December 2008 would be reduced accordingly
