#### Statement of compliance

The individual financial statements of Revertex Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### Basis of preparation

These financial statements are prepared on the going concern basis, under the historical cost convention, as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss where applicable.

#### Going concern

The Directors have assessed the ability of the Company to continue as a going concern, considering the principal risks and uncertainties outlined in the Directors' Report, the financial position and the expected timing of the settlement of intercompany balances. The Company is a member of the Synthomer plc Group which is considered to be a going concern. The basis for this, and the related assumptions and risks, are disclosed within the Synthomer plc Annual Report.

Based upon the above, the Directors believe that the Company can continue to operate for a period of at least 12 months from the date of approval of these financial statements and therefore continue to adopt the going concern basis of preparation.

#### Cash flow statement

The Company has taken advantage of the exemption, under FRS 102 paragraph 1.12(b), from preparing a statement of cash flows, on the basis that it is a qualifying entity and its ultimate parent company, Synthomer plc, includes the Company's cash flows in its own consolidated financial statements.

#### Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is provided in full on timing differences, which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.
