Notes to the Abbreviated Accounts for the period ended 31 December 2014

1 Accounting Policies

Basis of measurement and preparation of accounts

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents amounts invoiced to third parties, net of VAT and trade discounts.

Licence fees are billed as defined in the client contract. At the end of the accounting year the proportion of the billed licence fee covering the succeeding accounting year(s), rounded down to the nearest month, or any unused but purchased credits, is accrued. The appropriate proportion of the accrued revenue is recognised at the end of each month in the succeeding year(s). Unused credits for Online Services are recognised when they are used.

Tangible assets depreciation policy

Fixed assets are recorded at cost, less depreciation.

Depreciation is provided at rates calculated to write off the cost, less estimated residual value over the expected useful life of each asset as follows:

Computers and Office Equipment 33% on cost

Fixtures & fittings 33% on cost

Valuation information and policy

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date.

All differences are taken to the profit and loss account.

Other accounting policies

Expenditure on research and development is written off in the year in which it is incurred.
