PRINCIPAL RISKS AND UNCERTAINTIES

Market factors

The nature of very long term income streams with upward only rent reviews such as those owned by the company is such that there is a very good chance that any short term valuation or cash flow decreases can be reversed over time

The directors consider the properties owned by the company relatively well placed to withstand market fluctuations over time by virtue of the quality of the assets and, in particular, the longevity of income

**DIRECTORS' RESPONSIBILITIES STATEMENT
FOR THE YEAR ENDED 31 MARCH 2013**

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and accounting estimates that are reasonable and prudent,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

TLLC BRIDGECO7 LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2013

1. ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention as modified by the revaluation of investment properties and in accordance with applicable accounting standards

1.2 Cash flow

The company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS 1

1.3 Turnover

Turnover represents rents receivable during the year from the letting of commercial properties at invoiced amounts less value added tax

1.4 Operating leases

Annual rentals receivable or payable under operating leases are credited or charged to the profit and loss account on a straight-line basis over the term of the lease

1.5 Investment properties

Investment properties are included in the balance sheet at their open market value at the balance sheet date, on the basis of an annual valuation. Aggregate surpluses or deficits arising on valuation are transferred to the revaluation reserve. Permanent diminutions in the value of the properties are charged directly to the profit and loss account.

Additions to investment properties include only costs of a capital nature. Costs such as interest and other property outgoings are treated as revenue expenditure and are written off as incurred.

In accordance with SSAP 19 (as amended), no depreciation or amortisation is provided in respect of long leasehold investment properties. This treatment is a departure from the requirements of the Companies Act 2006 concerning depreciation of fixed assets. However, the company's investment properties are held not for consumption but for investment and the directors consider that systematic annual depreciation would be inappropriate. The accounting policy is therefore necessary for the accounts to give a true and fair view. Depreciation or amortisation is only one of the factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

The recognition of deferred tax assets is limited to the extent that the company anticipates to make sufficient taxable profits in the future to absorb the reversal of the underlying timing differences.

Deferred tax balances are not discounted.

2. TURNOVER

Turnover is wholly attributable to the principal activities undertaken by the company during the year.
