Directors' Report for the year ended 31 March 2022 (continued)

Principal risks and uncertainties

The Directors have assessed the risks that the Company is exposed to and the financial risks the Directors consider relevant to the Company include credit risk and liquidity risk. The Company follows the board approved policies of its parent Vodafone Group Plc, to manage these principal financial risks. In preparing the financial statements for the year, management has not used any significant assumptions.

Financial position and liquidity

The Directors consider that the Company has sufficient funding to meet its financial needs as they fall due. Accordingly, the Directors have prepared the financial statements on a going concern basis.

The Directors have reviewed the financial position of the Company, including the arrangements with Vodafone Group Plc undertakings. The Directors have also considered the financial position of the Company's ultimate parent Vodafone Group Plc, including centralised treasury arrangements and the availability of a credit facility.

On the basis of their assessment of the Company's financial position, the factors likely to affect its future development and performance, and the enquiries made of the directors of Vodafone Group Plc, the Company's Directors have no reason to believe that a material uncertainty exists that may cast doubt about the ability of the Company to continue as a going concern. Accordingly, they expect that the Company will be able to continue in operational existence for the foreseeable future and hence continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Research and development

The Company does not perform any research or development activities.

Going concern

The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements notwithstanding net current liabilities position of £28,000 (2021: £28,000).

On the basis of their assessment, the Directors of Cable & Wireless Aspac Holdings Limited expect that the Company will be able to continue in operational existence for the period up to and including September 2023 and hence continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Statement of Directors' Responsibilities

The Directors are responsible for preparing directors' report and the financial statements in accordance with applicable law and regulations.

Company law of England and Wales requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 101 'Reduced Disclosure Framework' ('FRS 101').

The Directors are responsible for keeping proper accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. Company No: 04705342

Notes to the Financial Statements for the year ended 31 March 2022 (continued)

2 Significant accounting policies (continued)

2.1 Basis of preparation (continued)

2.1.2 New standards, amendments and IFRIC interpretation

No new accounting standards, or amendments to accounting standards, or IFRIC interpretations that are effective for the year ended 31 March 2022, have had a material impact on the Company.

2.2 Exemption from preparing group accounts

The financial statements contain information about Cable & Wireless Aspac Holdings Limited as an individual company and do not contain consolidated financial information as the parent of a group.

The Company is exempt under section 400 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it is included by full consolidation in the consolidated financial statements of its ultimate parent, Vodafone Group Plc, a company incorporated in United Kingdom.

2.3 Investments in subsidiaries

Investments in subsidiaries held as fixed assets are stated at cost less provision for any permanent diminution in value.

At each balance sheet date, the Company reviews the carrying amounts of its investments to determine whether there is any indication that those investments have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the investment is reduced to its recoverable amount. An impairment loss is recognised immediately in the income statement.

There are very few circumstances where an impairment loss would be reduced or reversed. Where a reduction or reversal of impairment is considered appropriate the increased carrying amount must not exceed the carrying amount that would have been determined had no impairment loss been recognised for the investment in prior years. Any increase to the carrying value of the investment would need to be assessed and deemed permanent.

If the criteria are met for reversal of an impairment loss then the reversal is immediately recognised in the income statement.

2.4 Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Company No: 04705342

Notes to the Financial Statements for the year ended 31 March 2022 (continued)

2 Significant accounting policies (continued)

2.5 Financial liabilities

Creditors

The Company classifies its financial liabilities in the category of creditors. Creditors are non-derivative financial liabilities. They are included in current liabilities, except where maturities greater than 12 months after the end of the reporting period. These are classified in non-current liabilities. The Company's payables comprise amounts owed to group undertakings and other payables, in the statement of financial position.

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities (or in the normal operating cycle of the business if longer), if the Company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Recognition and measurement

Creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Financial liabilities are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method, except where they are identified as a hedged item in a designated hedge relationship.

Any difference between the proceeds net of transaction costs and the amount due on settlement or redemption of borrowings is recognised over the term of the borrowing.

3 Critical accounting estimates and assumptions

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

The estimates and judgements that could have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities during the reporting period are addressed below:

3.1 Impairment of investment in subsidiary

In making the judgement for impairment of investment in subsidiary, the Company evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost; and the financial health of and short-term business outlook for the subsidiary.
