Notes to the Abbreviated Accounts for the period ended 31 May 2016**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover consists of the invoiced value (excluding VAT) receivable by the company in the ordinary course of business for goods supplied and for services supplied as a principal.

Tangible assets depreciation policy

Depreciation is calculated to write off the cost, less estimated residual values, of tangible fixed assets over their estimated useful lives to the business. Where there is evidence of impairment, fixed assets are written down to receivable amount. Any such write down would be charged to operating profit.

Computers 25.0% Reducing Balance

Fixtures, fittings & office equipment 25.0% Reducing Balance

Other accounting policies**Deferred Taxation**

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws.

Stock, work in progress and long term contracts

Stock and work in progress are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items. Cost is determined on a first-in, first-out basis. Cost consists of direct materials, labour and attributable overheads. Net realisable value is based on estimated selling price less any further costs of realisation.
