STRATEGIC REPORT

FOR THE YEAR ENDED 30 JUNE 2018

The directors present the strategic report for the year ended 30 June 2018.

Results for the year

The net profit for the year, after taxation, was £24.9m (2017: loss of £14.2m).

Fair review of the business

Profit and Loss

The profit for the year before taxation was £30.3m compared to a loss of £13.8m before taxation for the prior year. Increased revenues and profits on player sales were the principal reasons for this improvement.

This year saw turnover increase from £367.8m to a record £448.0m. This was primarily a result of the club returning to European competition in the year, which led to an increase in broadcasting revenues of £41.7m together with an increase in matchday revenues of £8.4m. Furthermore, commercial income also increased by £30.1m due to additional sponsorship agreements being signed in the year, which included new agreements with Nike, Sony and Ericsson.

Pre-exceptional item operating expenses of £517.6m have increased by £78.1m compared with £439.5m in the previous year. This was a result of increased player amortisation of £35.2m, an increase in our cost of sales of £24.6m and increased administrative expenses of £18.3m.

The football club made a profit on player trading of £113.0m in the year (2017: £69.2m) principally due to the sales of Diego Costa to Atletico Madrid, Nathan Ake and Asmir Begovic to Bournemouth and Nemanja Matic to Manchester United.

Balance Sheet

Intangible assets have increased to £375.7m at year end from £237.9m. This movement is a result of £292.8m of acquisitions offset by the net book value of disposals of £27.7m, amortisation of £125.5m and an impairment charge of £1.8m, explained in note 12.

Tangible fixed assets and Investment properties are £250.0m at the year end. The bulk of the additions have been spent on acquiring properties and improving facilities at Stamford Bridge and the training ground at Cobham.

The net current liabilities at £147.5m have increased by £44.3m. This is as a result of a decrease in trade debtors of £31.7m, as well as an increase in trade creditors of £15.7m and an increase in amounts owed to related parties of £26.3m. This has been offset by a decrease in accruals and deferred income of £27.0m as well as other net movements that resulted in a change in working capital of £2.4m.

Creditors falling due after more than one year of £1,173.3m include £1,129m on a loan account repayable on eighteen months' notice.

FOR THE YEAR ENDED 30 JUNE 2018

Principal risks and uncertainties

There are a number of potential risks and uncertainties which could have a material impact on the Group's long term performance. These risks and uncertainties are monitored by the Board on a regular basis.

Income

The Group derives the bulk of its income from football activities and related business activities of which three principal sources stand out: gate receipts, broadcasting and commercial income.

All three sources of income are largely dependent on the performance of the first team and its appeal to football supporters. The performance of the first team is significantly influenced by the quality of the coaching staff and the players that the football club can attract in a highly competitive market both on the domestic and European levels.

Expenditure

The football club will continue to invest in the playing staff by way of both transfer fees and wages, in order to attract the talent that will help us achieve our aim of being successful in both domestic and European competitions.

Regulatory Environment

The football club is regulated by the rules of the FA, the Premier League, UEFA and FIFA. These regulations have a direct impact on the football club as they cover areas such as the division of centrally negotiated broadcasting and media transactions and the operation of the transfer market.

The football club continues to balance success on the field together with the financial imperatives of complying with UEFA and Premier League financial regulations, which it has done since 2012 and expects to do for the foreseeable future.

Funding

Fordstam Limited is supported by its ultimate owner Mr R Abramovich. The funding of the Group has increased by £69.1m in the last financial year (2017: increase of £33.8m).

The football club reviews and updates its forecasts on a regular basis and keeps the owner aware of its financial commitments going forward.

FOR THE YEAR ENDED 30 JUNE 2018

Key performance indicators

The principal key performance indicators for 2017/18 of both a financial and non-financial nature were as follows:-

Non Financial

- Premier League 5th place (2017: Premier League 1st place)
- FA Cup Winners (2017: FA Cup Runners-Up)
- League Cup Semi-Finals (2017: 4th Round)
- Champions League – Round of 16 (2017: n/a)
- Average league attendance of 41,482 (2017: 41,508)

Financial (reviewed by the Board on a monthly basis)

- Revenue growth
- Payroll costs
- Operating result before player trading and amortisation
- Gains/losses on player trading
- Player acquisition costs
- Compliance with UEFA Financial Fair Play Regulations
- Compliance with Premier League financial regulations

Other information and explanations

Going concern basis

The Company has received confirmation from its ultimate controlling party that sufficient funds will be provided to finance the business for the foreseeable future. The Director has therefore adopted the going concern basis in preparing these financial statements.

Fixed assets

The movements in fixed assets during the year are as shown in notes 12 to 15 to the financial statements. The intangible fixed assets include the unamortised portion of the cost of players' registrations and internally generated software.

Officers of Chelsea Football Club Limited have valued the playing staff. The average of their aggregate valuation as at 30 June 2018 was £843.6m. The valuations assume willing buyers for the relevant players' registrations on normal contractual terms and an orderly disposal over a period of time.

DIRECTORS' RESPONSIBILITIES STATEMENT

FOR THE YEAR ENDED 30 JUNE 2018

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the group and parent company financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and parent company and of their profit or loss for that period. In preparing each of the group and parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the group and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent company's transactions and disclose with reasonable accuracy at any time the financial position of the parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the group and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF FORDSTAM LIMITED

Opinion

We have audited the financial statements of Fordstam Ltd ("the company") for the year ended 30 June 2018 which comprise the Group Profit and Loss Account, the Group Statement of Comprehensive Income, the Group Balance Sheet, the Company Balance Sheet, the Group Statement of Changes in Equity, the Company Statement of Changes in Equity, the Group Statement of Cash Flows and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the group's and of the parent company's affairs as at 30 June 2018 and of the group's profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the group in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

TO THE MEMBERS OF FORDSTAM LIMITED

Directors' responsibilities

As explained more fully in their statement set out on page 5, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the group and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2018

1 Accounting policies

Company information

Fordstam Limited ("the Company") is a limited company domiciled and incorporated in England and Wales. The registered office is Stamford Bridge, Fulham Road, London, SW6 1HS.

The "Group" consists of Fordstam Limited and all of its subsidiaries.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the Company. Monetary amounts in these financial statements are rounded to the nearest £000.

The financial statements have been prepared on the historical cost convention, modified to include the revaluation of freehold properties and to include investment properties and certain financial instruments at fair value. The principal accounting policies adopted are set out below.

As permitted by s408 Companies Act 2006, the Company has not presented its own profit and loss account and related notes. The Company's profit for the year was a profit of £170.7m (2017: £33.6m loss).

1.2 Basis of consolidation

In the parent company financial statements, the cost of a business combination is the fair value at the acquisition date of the assets given, equity instruments issued and liabilities incurred or assumed, plus costs directly attributable to the business combination. The excess of the cost of a business combination over the fair value of the identifiable assets, liabilities and contingent liabilities acquired is recognised as goodwill. The cost of the combination includes the estimated amount of contingent consideration that is probable and can be measured reliably, and is adjusted for changes in contingent consideration after the acquisition date. Provisional fair values recognised for business combinations in previous periods are adjusted retrospectively for final fair values determined in the 12 months following the acquisition date. Investments in subsidiaries, joint ventures and associates are accounted for at cost less impairment.

The consolidated financial statements incorporate those of Fordstam Limited and all of its subsidiaries (ie entities that the Group controls through its power to govern the financial and operating policies so as to obtain economic benefits). Subsidiaries acquired during the year are consolidated using the purchase method. Their results are incorporated from the date that control passes.

All financial statements are made up to 30 June 2018. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by other members of the Group.

All intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Entities other than subsidiary undertakings or joint ventures, in which the Group has a participating interest and over whose operating and financial policies the Group exercises a significant influence, are treated as associates. In the Group financial statements, associates are accounted for using the equity method.

1 Accounting policies

Entities in which the Group holds an interest and which are jointly controlled by the Group and one or more other venturers under a contractual arrangement are treated as joint ventures. In the Group financial statements, joint ventures are accounted for using the equity method.

1.3 Going concern

The Director has adopted the going concern basis in preparing the financial statements on the basis of assurances received from the funding party (see note 30) that sufficient funds will be made available to allow the Company and Group to continue trading for the foreseeable future. The funding party has confirmed there is no intention to recall the amounts due.

1.4 Turnover

Turnover represents all income arising from the ordinary activities of the Group excluding transfer fees and excluding Value Added Tax. Principal sources of income include gate receipts, sponsorship, sale of broadcasting rights, matchday, central awards from the FAPL, UEFA solidarity and prize money and other commercial activities.

Gate receipts, matchday and other event day revenue is recognised over the period of the football season as games are played and events are staged. Sponsorship and similar commercial income is recognised over the duration of the respective contracts. The fixed element of broadcasting revenues is recognised over the duration of the football season whilst facility fees for live coverage or highlights are taken when earned at the point of broadcast. Merit awards are accounted for over the period of the football season based on known position in the league. UEFA pool distributions relating to participation in European competitions are recognised when received whilst distributions relating to match performance are taken when earned; these distributions are classified as broadcasting revenues.

1.5 Players' registrations

All costs less financing element associated with the acquisition of a player's registration are capitalised as intangible fixed assets and are amortised evenly over the period of the player's initial contract of employment with the Group. In the event that the initial contract is renegotiated prior to expiry, the written down value at the date of renegotiation is amortised over the extended period. Fees receivable in connection with the sale of a player are set off against the players' net book value at the date of sale, plus any payments made in settlement of the contracts, and the difference is treated as a profit or loss on disposal. If the arrangement constitutes a financing transaction, for example if payment is deferred, then it is measured at the present value of future payments discounted at a market rate for a similar debt instrument.

The Directors review the carrying value of the players' registrations for impairment where events or changes in circumstances indicate that the carrying value of the asset may not be recoverable. To the extent that the carrying value exceeds the recoverable amount, the asset is impaired and the impairment loss is recognised in the profit and loss account.

1.6 Intangible fixed assets other than goodwill

Intangible assets acquired separately from a business are recognised at cost and are subsequently measured at cost less accumulated amortisation and accumulated impairment losses. Intangible assets acquired on business combinations are recognised separately from goodwill at the acquisition date if the fair value can be measured reliably.

Amortisation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

1.7 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Freehold land	Not depreciated
Leasehold land	Not depreciated
Freehold and long leasehold buildings	50 years on a straight line basis
Assets in the course of construction	Not depreciated
Plant & Equipment	2 to 10 years on a straight line basis

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in the profit and loss account.

1.8 Investment properties

Investment property, which is property held to earn rentals and/or for capital appreciation, is measured using the fair value model and stated at its fair value as the reporting end date. The surplus or deficit on revaluation is recognised in the profit and loss account.

Where fair value cannot be achieved without undue cost or effort, investment property is accounted for as tangible fixed assets.

1.9 Impairment of fixed assets

At each reporting period end date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The carrying amount of the investments accounted for using the equity method is tested for impairment as a single asset. Any goodwill included in the carrying amount of the investment is not tested separately for impairment.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

FORDSTAM LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

1 Accounting policies

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.10 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition.

Stocks held for distribution at no or nominal consideration are measured at cost, adjusted where applicable for any loss of service potential.

At each reporting date, an assessment is made for impairment. Any excess of the carrying amount of stocks over its estimated selling price less costs to complete and sell is recognised as an impairment loss in profit or loss. Reversals of impairment losses are also recognised in profit or loss.

1.11 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.12 Financial instruments

The Group has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the Group's statement of financial position when the Group becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset and the net amounts presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Other financial assets

Other financial assets, including investments in equity instruments which are not subsidiaries, associates or joint ventures, are initially measured at fair value, which is normally the transaction price. Such assets are subsequently carried at fair value and the changes in fair value are recognised in profit or loss, except that investments in equity instruments that are not publically traded and whose fair values cannot be measured reliably are measured at cost less impairment.

FOR THE YEAR ENDED 30 JUNE 2018

1 Accounting policies

Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the Group transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Other financial liabilities

Derivatives, including interest rate swaps and forward foreign exchange contracts, are not basic financial instruments. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss in finance costs or finance income as appropriate, unless hedge accounting is applied and the hedge is a cash flow hedge.

Debt instruments that do not meet the conditions in FRS 102 paragraph 11.9 are subsequently measured at fair value through profit or loss. Debt instruments may be designated as being measured at fair value through profit or loss to eliminate or reduce an accounting mismatch or if the instruments are measured and their performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

1 Accounting policies

Derecognition of financial liabilities

Financial liabilities are derecognised when the Group's contractual obligations expire or are discharged or cancelled.

1.13 Equity instruments

Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the Group.

1.14 Derivatives

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to fair value at each reporting end date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognised as a financial asset, whereas a derivative with a negative fair value is recognised as a financial liability.

1.15 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The charge for tax is based on the profit or loss for the period and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax

Deferred tax is recognised without discounting in respect of all timing differences when items are included in a tax assessment in one period and recognised in the financial statements in another, except as otherwise required by FRS 102.29 'Income Tax'.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

A deferred tax asset is recognised only when, on the basis of available evidence, it can be regarded as more likely than not that the reversal of underlying timing differences will result in a reduction in future tax payments.

1.16 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the Company is committed to terminate the employment of an employee or to provide termination benefits.

1.17 Retirement benefits

The Group operates a number of defined contribution schemes. Contributions to these schemes are charged to the profit and loss account as incurred. The Group is one of a number of employers in a shared defined benefit scheme for playing staff.

The defined benefit scheme is a multi-employer scheme. Where there is insufficient information to enable the entity to adopt defined benefit accounting, the scheme is accounted for as a defined contribution scheme in line with FRS102.28.11.

1.18 Leases

Rentals payable under operating leases, including any lease incentives received, are charged to income on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the lease asset are consumed.

1.19 Foreign exchange

Transactions in foreign currencies are translated into sterling at the rate of exchange ruling on the transaction date. Foreign currency monetary assets and liabilities are translated into sterling at the rate of exchange ruling at the balance sheet date. Exchange gains and losses are included in the profit and loss account.

1.20 Retranslation Reserve

Balances within reserves that relate to the foreign subsidiaries within the Group are retranslated on consolidation and the difference shown within the Retranslation reserve. The Group currently has one foreign subsidiary, Chelsea FC Pte Limited, which is a company registered in Singapore.

1.21 Deferred Income

Income from season tickets, sponsorship, broadcasting and other commercial contracts, which has been received prior to the period end in respect of future football seasons, is treated as deferred income. Income is then recognised in the profit and loss account in the relevant financial period in line with the recognition criteria of FRS 102.

2 Judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Other interest payable comprises £59.8m (2017: £57.9m) relating to the unwinding of the long term loan. The loan is measured initially at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. The loan is then unwound over a period of 18 months from the previous balance sheet date as the timing of the repayment of this loan is uncertain.

Creditor balances relating to future transfer fees payable have been recorded at the net present value of future payments, discounted using a market rate of interest resulting in an interest expense of £1.7m (2017: £1.5m) being recognised over the period of the transactions.

Intangible assets relating to players' registrations relate entirely to the carrying value of the playing squad and are being amortised over the remaining length of the players' contracts. The figures used are historical cost figures and relate solely to purchased players. Where events or changes in circumstances indicate that the carrying value of the asset may not be recoverable, to the extent that the carrying value exceeds the recoverable amount, the asset is impaired and the impairment is recognised in profit and loss. Officers of Chelsea Football Club Limited have reviewed the carrying amount of players' registrations as at 30 June 2018 and no impairment was deemed necessary (2017: £0).

The software relates to internally generated platforms and applications developed, largely relating to the club's website and the club's digital platform. The impairment in the year relates to an internally generated application which is deemed to no longer be a revenue generating asset.

As part of the Eurobond issue in 1997 the Company made a loan to Chelsea Pitch Owners plc of £11,151,000, which is interest free and has an unspecified repayment date. This was used to acquire the share capital of Chelsea Stadium Limited (previously Stardust Investments Limited) and discharge the debts of that company in order to leave the freehold interest in the stadium site unencumbered.

On the same date, Chelsea Stadium Limited (previously Stardust Investments Limited) granted a long leasehold interest over the stadium site at a peppercorn rent to Chelsea Football Club Limited. Chelsea Pitch Owners plc is obliged to repay the debt in full. The balance outstanding at 30 June 2018 was £8,278,491 (2017: £8,312,076). The directors believe that the balance outstanding will be ultimately recovered. The loan is currently held in the accounts at its present value, using a market rate of interest.

	2018 £000	2017 £000
Defined contribution schemes		
Charge to profit and loss in respect of defined contribution schemes	<u>1,409</u>	<u>1,330</u>

The Company operates a defined contribution pension scheme for all qualifying employees. The assets of the scheme are held separately from those of the Company in an independently administered fund.

Defined benefit schemes

Certain employees of the Group are members of The Football League Limited Pension and Life Assurance Scheme ('the scheme'). Accrual of benefits under a final salary basis was suspended with effect from 31 August 1999 following an actuarial review which revealed a substantial deficit.

As one of a number of participating employers, the Group is advised only of its share of the deficit in the scheme. The latest actuarial valuation as at 31 August 2014 highlighted that the Group share of the deficit was £284,158. The revised deficit is being paid off over a period of 5 ½ years from 1st September 2014. The charge for the year is £64,572 (2017: £64,572).
