NOTES TO THE FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

Accounting convention

The financial statements are prepared on the going concern basis under the historical cost convention and in accordance with the Companies Act 1985 and applicable accounting standards in the United Kingdom. The principal accounting policies which have been applied consistently throughout the year are set out below.

Cash flow and related party disclosures

The Company is a wholly owned subsidiary of Misys plc and is included in the consolidated financial statements of that company, which are publicly available. Consequently, the Company has taken advantage of the exemption from preparing a cash flow statement under the terms of FRS1 (revised 1996) 'Cash Flow Statements'.

The Company has also taken advantage of the exemption under FRS8 'Related Party Disclosures' not to disclose transactions with group undertakings since Misys plc is the beneficial owner of the entire equity share capital of the Company.

Foreign currencies

Assets and liabilities denominated in foreign currencies are converted at the rate of exchange ruling at the balance sheet date. Transactions in foreign currencies are converted at the rate ruling at the date of each transaction. Exchange differences are included in the profit and loss account where they relate to trading transactions.

Investments

Investments are shown at cost less provision considered necessary for any impairment. Impairment reviews are performed by the directors when there has been an indication of potential impairment.

The need for any impairment write down is assessed by comparison of the carrying value of the asset against the higher of net realisable value or value in use. The value in use is determined from estimated discounted future cash flows. Discount rates used are based on the cost of capital of the ultimate parent company, Misys plc.

The Company is a wholly owned subsidiary of Misys plc and has consequently taken advantage of s.228 Companies Act 1985 not to prepare group financial statements.

Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less tax in the future.

Resultant deferred tax assets are recognised only to the extent that it is considered more likely than not that there will be suitable taxable profits from which the underlying timing differences can be deducted, or where there are deferred tax liabilities against which the assets can be recovered.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantially enacted at the balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. OPERATING PROFIT

All costs including auditors' remuneration have been borne by a fellow subsidiary for the current and prior years. There were no employees (2007: none) in the period and no Directors received any remuneration in respect of qualifying services (2007:£ nil).

3. TAX CHARGE ON PROFIT ON ORDINARY ACTIVITIES

	2008 £'000	2007 £'000
Current tax: UK corporation tax on profit for the year		20
The tax assessed for the period is the same (2007: higher) than the standard rate corporation tax in the UK of 29.67% (2007: 30%). The differences are explained		
Profit on ordinary activities before tax	<u> </u>

UK tax of 30%	-	-
Tax adjustments on inter-company

The company has no recognised or unrecognised deferred tax assets or liabilities	es.	
4. INVESTMENTS		
		Shares in subsidiary undertakings £'000
Cost and net book value		
At 1 June 2007 and 31 May 2008		419

The Company's investment comprises 100% of the ordinary shares of Misys International Finance Limited as company acting as a finance company within the Misys group and incorporated in the Cayman Islands.

In the opinion of the Directors the value of the Company's investment is not greater than its net realisable value or value in use and thus a provision of £700,000 was taken against the investment in the prior year.
