2. Basis of preparation

The Company is exempt by virtue of Section 400 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the Company as an individual undertaking and not about its Group.

These financial statements have been prepared under the historical cost convention, in accordance with the Companies Act 2006 and Financial Reporting Standard 101 'Reduced Disclosure Framework' ("FRS 101").

FRS 101

FRS 101 sets out a reduced disclosure framework for a 'qualifying entity' as defined by Financial Reporting Standard 100 'Application of financial reporting requirements' ("FRS 100") which addresses the financial requirements and disclosure exemptions in the individual financial statements of qualifying entities that otherwise apply the recognition, measurement and disclosure exemptions of EU-adopted International Financial Reporting Standards ("IFRS").

Going concern

The Company has ceased trading and the Directors intend to wind up the Company. Consequently, the annual financial statements have been prepared on a basis other than going concern.

Functional and presentational currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). The financial statements are presented in the Company's functional currency of Sterling, rounded to the nearest pound, unless stated otherwise.

3. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently to all the financial years presented.

Investments

Investments are recognised at cost less accumulated impairment losses.

Called up share capital

Ordinary shares are classified as equity.

4. Critical accounting judgements, key sources of estimation uncertainty and assumptions

The preparation of financial statements in conformity with FRS 101 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis.

The Directors do not consider there to be any critical accounting estimates or judgements that could materially alter the performance or position of the Company in the coming year.
