C G I S Imperial Buildings Limited Notes to the financial statements for the year ended 30 June 2006

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements except as noted below

Accounting convention

The financial statements have been prepared under the historical cost accounting rules, modified to include the revaluation of land and buildings, and in accordance with applicable accounting standards, except for the non-depreciation of certain fixed assets as referred to below

Properties

Investment properties are included in the balance sheet at their open market value at the balance sheet date on the basis of an annual professional valuation. Surpluses or deficits arising on valuation are transferred to a revaluation reserve. Impairment in the value of properties to below their carrying values are charged directly to the profit and loss account.

Additions to investment properties include only costs of a capital nature

In accordance with SSAP 19 (as amended) no depreciation or amortisation is provided in respect of freehold and leasehold investment properties. This treatment of the Group's investment properties, is a departure from the requirements of Companies Act 1985 concerning depreciation of fixed assets. However, these properties are not held for consumption but for investment and the Directors consider that systematic annual depreciation would be inappropriate. The accounting policy adopted is necessary for the accounts to give a true and fair view. Depreciation or amortisation is only one of the factors reflected in annual valuation, and the amount which might otherwise be shown, cannot be separately identified or quantified.

Cashflow statement

The cash flow statement included in the consolidated financial statements of the ultimate holding company, C G I S. Group Limited, complies with the conditions of Financial Reporting Standard No 1 (revised 1996) 'Cash flow statements' (FRS1). The company therefore is exempt under FRS1 from the requirement to prepare a separate cash flow statement.

Related party transactions

As the company is a wholly owned subsidiary of C G I S. Group Limited, it has taken advantage of the exemption contained in Financial Reporting Standard 8 and has therefore not disclosed transactions or balances which form part of the group (or investees of the group qualifying as related parties)

Deferred taxation

Deferred tax is provided in respect of all timing differences that have originated but not reversed at the balance sheet date where an event has occured that results in an obligation to pay more or less tax in the future, except that

- a provision is not made in respect of property revaluation surpluses unless an unconditional sales agreement has been signed and rollover relief is not available to cover any gain ansing, and
- b deferred tax assets are recognised only to the extent that it is more likely than not that there will be suitable taxable profits from which the future reversal of the relevant timing differences can be deducted

Deferred tax is measured on a non discounted basis at the tax rates which apply at the balance sheet date

C G I S Imperial Buildings Limited Notes to the financial statements for the year ended 30 June 2006

Adoption of new accounting standards

In these financial statements the following new standards have been adopted for the first time

- FRS 21 'Events after the balance sheet date'
- The presentation requirements of FRS 25 'Financial instruments' Disclosure and presentation', and
- FRS 28 'Corresponding amounts'

The adoption of these new standards has had no material effect in either the current or prior year

2 Turnover

Turnover, which is stated net of value added tax, includes rents receivable and the invoiced value of other sales from operations within the United Kingdom
