Principal activities and review of the business

The principal activity of the company continued to be that of a holding company.

The profit and loss account for the financial period is set out on page 5. The directors consider the year end position to be satisfactory.

No dividend was paid or proposed during the year (2014: £nil).

Future developments

The directors do not anticipate any changes to the company's activities in the foreseeable future.

Principal risks and uncertainties

Given the company's nature as a holding company the directors do not consider there to be specific risks and uncertainties affecting the company. The company is dependent on the operations of subsidiary companies and fellow group companies to support the recoverability of the various intergroup balances.

Financial risk management

The company's objective regarding financial risk management is to keep exposure of price risk, credit risk, liquidity risk and cash flow risk to a minimum. Financial risk management, including the use of financial instruments and the related currency, liquidity, credit and interest rate risks, is dealt with by the central functions of ALS group on behalf of the company. Many of the company's balances are with other members of the ALS group, and assessments are made by management as to the recoverability of these balances in the overall context of the group.

The ultimate holding company, ALS Limited, has confirmed that it will continue to provide adequate financial support to enable the company to continue in operational existence to pay its debts as they fall due for a period of at least 12 months from the date of signing these financial statements. Consequently, the directors consider it appropriate for the financial statements to be prepared on a going concern basis.

DIRECTORS' REPORT

FOR THE YEAR ENDED 31 MARCH 2015

Directors' responsibilities statement

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

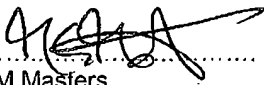

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Provision of information to auditors

Each of the directors has confirmed that there is no relevant information of which the company's auditors are unaware, and that they have taken all the steps (such as making enquiries of other directors and the auditors and any other steps required by the director's duty to exercise due care, skill and diligence) that they ought to have taken in their duty as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2015

1 Accounting policies

The financial statements have been prepared in accordance with the Companies Act 2006 and applicable Accounting Standards in the United Kingdom. A summary of the more important accounting policies, which have been applied consistently, is set out below.

In accordance with Financial Reporting Standard ('FRS') 18, "Accounting policies", the directors confirm that the accounting policies used by the company are the most appropriate, consistently applied and adequately disclosed.

At the balance sheet date, the company was a wholly owned subsidiary of the ALS Limited group whose consolidated financial statements are available from www.alsglobal.com and include the results of the company. Therefore the company has taken the exemption from preparing consolidated financial statements in accordance with s400 of the Companies Act 2006, where the results of the company are included in the consolidated financial statements of a parent company which are publicly available. These financial statements are therefore prepared for the company alone.

1.1 Basis of accounting

The financial statements are based on historical cost convention and are in accordance with current Financial Reporting Standards (FRS).

1.2 Cash flow statements

The company has taken advantage of the exemption available to it under FRS 1 (revised 1996), "Cash flow statements", which provides that where a company is a member of a group and its financial statements are included in the consolidated financial statements of a parent company that are publicly available and includes a cash flow statement, the company does not have to prepare a cash flow statement. These financial statements are available from www.alsglobal.com.

1.3 Fixed asset investments

Fixed asset investments are valued at cost, except where the directors consider that there has been a permanent diminution in value. Provision is made against the cost of an investment to reduce its value where a permanent diminution is considered to have occurred. Income from investments is recognised when the right to receive payment has been established.

1.4 Foreign currencies

Transactions denominated in foreign currencies are recorded in the local currency at actual exchange rates as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rates ruling at the balance sheet date. Any gain or loss arising from a change in the exchange rates subsequent to the date of the transaction is included as an exchange gain or loss in the profit and loss account.

1.5 Going concern assumption

The financial statements have been prepared on the going concern basis which the directors believe to be appropriate for the following reasons.

The company is dependant for its working capital on funds guaranteed by other group companies. ALS Limited, the ultimate parent company, has provided the company with an undertaking that for at least 12 months from the date of approval of these financial statements, it will continue to make available such funds and guarantees as are needed by the company. This should enable the company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although at the date of approval of these financial statements, they have no reason to believe that it will not do so.
