Notes to the Abbreviated Accounts  
for the Year Ended 31 December 2013

1. **ACCOUNTING POLICIES**

**Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Turnover**

Turnover represents the total invoiced value, excluding value added tax, of services during the year.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc                      - 25% on reducing balance

**Deferred tax**

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes, except to the extent that the effect of applying this policy is not material to the financial statements. In general, deferred taxation is recognised in respect of timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

**Leasing**

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

**Going concern**

Despite difficult economic climate, the company continues to operate within its bank overdraft facility. The director is not aware of any reasons why the overdraft facility would not be extended. As a result, and with the financial support by the director, the going concern basis of accounting has been adopted in the preparation of the financial statements.
