### **Notes to the Abbreviated Accounts** **for the Year Ended 31 December 2014**

#### **1. ACCOUNTING POLICIES**

##### **Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The financial statements are expressed in euros. The exchange rate of €1.2777 was used for conversion from sterling into euro as at 31 December 2014.

##### **Deferred tax**

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

##### **Foreign currencies**

Assets and liabilities in foreign currencies are translated into EUR at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into EUR at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

##### **Going concern**

The financial statements have been prepared on a going concern basis even though at the balance sheet date the company had net liabilities amounting to 1,445,735 EUR (2013: 1,242,391 EUR) and incurred a net loss of 203,344 EUR (2013: 1,213,892 EUR) for the year.

The company's ability to continue as a going concern is contingent on the willingness of the controlling parties to provide financing to the company. The controlling parties have expressed their willingness to provide financial support for the next 12 months as from the date of approval of the financial statements in order for the company to meet its current liabilities. The director therefore continues to adopt the going concern basis of accounting.

##### **Investments held as current assets**

Investments held as current assets are stated at lower of the cost and net realisable value.

#### **2. DEBTORS: AMOUNTS FALLING DUE AFTER MORE THAN ONE YEAR**

The aggregate total of debtors falling due after more than one year is €0 (31.12.13 - €508,054).
