## **Mondi Investments Limited**

### **Annual report and financial statements**

For the year ended 31 December 2021

### **Strategic report**

The directors, in preparing this Strategic report, have complied with section 414C of the Companies Act 2006.

#### **Review of the business and future developments**

Mondi Investments Limited ("the Company") is an investment holding company. The directors have the present intention of maintaining its business in the current form and believe the Company's future prospects to be satisfactory. The purpose of the Company is to hold investments for the Mondi Group (the "Group"). The performance of the Company's investments are discussed in the Group's Integrated report and financial statements 2021. The Company's directors believe that further key performance indicators of the Company are neither necessary nor appropriate for an understanding of the performance or position of the business.

To streamline the Mondi Group legal structure a restructuring of the Mondi Investments Limited direct shareholdings was carried out during 2021. Prior to the restructuring Mondi Investments Limited held shares in Mondi Holdings Austria GmbH, Mondi Corrugated Poland BV and Mondi Packaging UK Holdings Limited indirectly, via its shareholdings in Mondi Sarl and Mondi Packaging Sarl. The restructuring resulted in Mondi Investments Limited holding the shares in Mondi Holdings Austria GmbH, Mondi Corrugated Poland BV and Mondi Packaging UK Holdings Limited directly. As an effect of the Luxembourg holding companies restructure, Mondi Investments Limited recognised a dividend received from, and a subsequent impairment of, its investment in Mondi Sarl.

The loss for the financial year after tax was €1,234,805,777 (2020: profit of €120,982,709), mainly due to an impairment of the subsidiary Mondi Sarl as a result of a restructuring project for the Luxembourg holding companies. A dividend of €730,800,000 (2020: €164,000,000) was paid during the year. The Directors do not recommend the payment of a final dividend for the current financial year. For more information on the investment income and the Luxembourg restructuring project see Notes 7 and 10.

After this transaction the investments in subsidiaries amount to €8,759,427,927 (2020: €3,821,772,070). The total equity as at year end was €8,759,188,545 (2020: €3,821,794,321). For more information please see Note 10 and the Statement of changes in equity.

#### **Section 172 Statement**

This section of the Strategic report describes how the directors have had regard to the matters set out in Section 172 (1) of the Companies Act 2006 ("s172") when performing their duty to promote the success of the Company for the benefit of its shareholders. As the Company is a wholly-owned subsidiary of the Group, its parent company and other members of the Group are key stakeholders of the Company. Accordingly, the interests of the Group have been taken into account by the directors and decisions have been made in agreement with the Board of Mondi plc, the ultimate parent entity of the Group.

For more information on the Group, please see the s172 statement on pages 20 to 23 of the Group's Integrated report and financial statements 2021, which does not form part of this report but provides details of the consideration given to stakeholders by the Group.

#### **Risk management**

The directors considered the risks attached to the Company's financial instruments, which principally comprise trade and other receivables, trade and other payables and loans to and from other group companies. The Company's activities expose it primarily to foreign exchange and interest risk. Both risks are actively monitored on a regular basis and managed through the use of foreign exchange contracts and interest swaps as appropriate. Material balance sheet exposures are hedged. The Company's exposure to credit risk and liquidity risk is not material for the assessment of assets, liabilities and the financial statements. The directors aim to maintain an appropriate capital structure and to conservatively manage the Company's financial risk exposures in compliance with all laws and regulations. For more information on the Group, please see the principal risks and risk management on pages 86 to 97 of the Group's Integrated report and financial statements 2021, which does not form part of this report but provides details of the consideration given to stakeholders by the Group.

## **Mondi Investments Limited**

### **Annual report and financial statements**

For the year ended 31 December 2021

#### **Strategic report**

The directors' policy on hedging is to hedge all financial risks where it is feasible and cost effective to do so. At 31 December 2021 the Company recognised a total derivative liability of €10,137 (2020: €4,058). This amount relates to the economic hedging of foreign exchange exposures on a deposit in trade and other receivables.

The Company holds investments within the Mondi Group. The underlying performance of these investments could impact the carrying value of the investments.

Approved by the board of directors on 25 May 2022 and signed on behalf of the board by:

J C Paterson  
Director

## **Mondi Investments Limited**

### **Annual report and financial statements**

For the year ended 31 December 2021

### **Directors' report**

The directors present their annual report and the audited financial statements for the year ended 31 December 2021.

**Company registered number**  
05024245

#### **Directors**

The directors of the company who were in office during the year and up to the date of signing the financial statements were:

J L Hampshire  
A C W King  
J C Paterson  
M A Powell  
C Valera

#### **Directors' indemnities**

The Company, via its ultimate parent company, has made qualifying third party indemnity provisions for the benefit of its directors which were made during the year and remain in force at the date of this report.

#### **Information set out in the Strategic report**

Disclosures relating to the following items have been included in the Strategic report which can be found on page 2:

- dividend payments and recommendations;
- financial risk management objectives, policies and related exposures to interest rate, currency, credit and liquidity risk; and
- likely future developments in the business of the Company.

#### **Employee engagement**

Engaging and motivating employees to reach their full potential and providing opportunities for their development ensures the business continues to grow and succeed and is integral to the culture of the Mondi Group. More detail can be found on pages 50 to 54 of the Group's Integrated report 2021, which does not form part of this report but provides details of the engagement undertaken with employees.

#### **Going concern**

The directors believe that the Company will continue to act as a holding company for the Mondi Group.

The Company's ultimate holding company, Mondi plc, has confirmed that it will provide continued support for the Company to meet its obligations as they fall due for a period of not less than 12 months from the signing of the Company's annual financial statements.

As a result, the directors believe that the Company will continue to be a going concern into the foreseeable future and have adopted the going concern basis of accounting.

#### **Events occurring after 31 December 2021**

Mondi has significant operations in Russia, representing around 12% of the Group's revenue by location of production in 2021, including the high-margin, cost-competitive, integrated pulp, packaging paper and uncoated fine paper mill located in Syktyvkar (Komi Republic). Over the last three years the Russian operations have generated around 20% of the Group's underlying EBITDA. The Russian businesses primarily serve the domestic market. In Ukraine Mondi has one paper bag plant located in Lviv, west of the country, employing approximately 100 people. As announced on 4 May, Mondi has decided to divest the Group's Russian assets. The divestment process for these significant assets is operationally and structurally complex and is being undertaken in an evolving political and regulatory environment. Accordingly, there can be no certainty when a transaction will be completed or as to the structure of any possible transaction.

## **Mondi Investments Limited**

### **Annual report and financial statements**

For the year ended 31 December 2021

### **Directors' report**

These events represent a non-adjusting post balance sheet event. The Company has an indirect interest in the Group's Russian businesses. The impact of these events on the Company's financial statements for the year ending 31 December 2022 cannot at this stage be determined.

There have been no other material reportable events since 31 December 2021.

#### **Statement as to disclosure of information to the auditors**

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- the director has taken all steps that he/she ought to have taken as a director to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

#### **Independent Auditors**

PricewaterhouseCoopers LLP have expressed their willingness to continue in office as independent auditors and in accordance with the Companies Act 2006 are deemed to remain in office as independent auditors of the Company.

Approved by the board of directors on 25 May 2022 and signed by order of the board by:

M A Powell  
Director

## **Mondi Investments Limited**

### **Annual report and financial statements**

For the year ended 31 December 2021

### **Directors' responsibilities statement**

The directors are responsible for preparing the Annual report and financial statements in accordance with applicable laws and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## **Mondi Investments Limited**

### **Independent auditors' report to the member of Mondi Investments Limited**

## **Report on the audit of the financial statements**

### **Opinion**

In our opinion, Mondi Investments Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2021 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and financial statements (the "Annual Report"), which comprise: the Balance sheet as at 31 December 2021; the Profit and loss account, the Statement of comprehensive income and the Statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Independence**

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

### **Conclusions relating to going concern**

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

### **Reporting on other information**

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency

## **Mondi Investments Limited**

### **Independent auditors' report to the member of Mondi Investments Limited**

or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

#### **Strategic report and Directors' report**

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' report for the year ended 31 December 2021 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' report.

#### **Responsibilities for the financial statements and the audit**

##### **Responsibilities of the directors for the financial statements**

As explained more fully in the Directors' responsibilities statement, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

##### **Auditors' responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to the Companies Act 2006, and we considered the extent to which non-compliance might have a material effect on the financial statements. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to manipulate financial results and management bias in accounting estimates. Audit procedures performed by the engagement team included:

## **Mondi Investments Limited**

### **Independent auditors' report to the member of Mondi Investments Limited**

- Discussions with management, including consideration of potential instances of non-compliance with laws and regulations and fraud;
- Identifying and testing a sample of journal entries in relation to unexpected account combinations and post close period journals; and
- Reviewing board meeting minutes up to the date of the audit report.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditors' report.

#### **Use of this report**

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

## **Other required reporting**

### **Companies Act 2006 exception reporting**

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

# Mondi Investments Limited

## Notes to the financial statements

for the year ended 31 December 2021

### 1. General information

Mondi Investments Limited is a private company limited by shares and incorporated and domiciled in the United Kingdom under the Companies Act. The address of the registered office is given on page 1. The nature of the Company's operations and its principal activities are set out in the Strategic report on page 2.

These financial statements are separate financial statements. The Company is exempt from the requirement to prepare consolidated financial statements under section 400 of the Companies Act 2006, because it is consolidated in the consolidated financial statements of Mondi plc. The consolidated financial statements are available to the public and can be obtained as set out in note 19.

### 2. Significant accounting policies

#### Basis of preparation

The Company meets the definition of a qualifying entity under Financial Reporting Standard 100. Accordingly, in the year ended 31 December 2021, the financial statements have therefore been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' ("FRS 101").

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to business combinations, financial instruments, capital management, presentation of a cash-flow statement, standards not yet effective, and related party transactions.

Where required, equivalent disclosures are given in the consolidated financial statements of Mondi plc. The consolidated financial statements are available to the public and can be obtained as set out in note 19.

The financial statements are prepared on the historical cost basis, with derivative financial instruments held at fair value through profit or loss. The principal accounting policies adopted are described below. They have all been applied consistently throughout the year and the preceding year.

#### New accounting policies, early adoption and future requirements

##### *Amendments to published Standards effective during 2021*

The following amendments to Standards have been adopted for the financial year beginning on 1 January 2021, and have had no significant impact on the Company's results:

- Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 – Interest Rate Benchmark Reform – Phase 2

##### *Amendments to published Standards that are not yet effective*

The following amendments to Standards will be effective for the financial year beginning on 1 January 2022 and are not expected to have a significant impact on the Company's results:

- Annual improvements to IFRS Standards 2018-2020 cycle
- Amendments to IAS 16 – Property, Plant and Equipment – Proceeds before Intended Use
- Amendments to IAS 37 – Provisions, Contingent Liabilities and Contingent Assets – Onerous Contracts – Cost of Fulfilling a Contract
- Amendments to IFRS 3 – Business Combinations – References to the Conceptual Framework

#### Going concern

After making enquiries, the directors have formed a judgement that, at the time of approving the financial statements, and having considered the Company's forecasts and projections, there is a reasonable expectation that the Company has adequate resources to continue in operation for the foreseeable future. The Company's ultimate holding company, Mondi plc, has confirmed that it will provide continued support for the Company to meet its obligations as they fall due for a period of not less than 12 months from the signing of the Company's annual financial statements. For this reason, the directors continue to adopt the going concern basis in preparing the financial statements.

## **Mondi Investments Limited**

### **Notes to the financial statements**

for the year ended 31 December 2021

#### **2. Significant accounting policies (continued)**

##### **Dividend and interest income**

Dividend income from investments is recognised as investment income in the profit and loss account when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably). Where the receipt of a dividend from a share in group undertakings results in an impairment of the investment in that undertaking, the Company's policy is to present the dividend received and the resulting impairment charge gross if the dividend represents a return on investment. The factors considered by the Directors when determining whether a distribution represents a return on investment or return of investment include the following:

- The amount of the distribution relative to the original investment value;
- The legal form of the distribution; and
- The future operating plans for the subsidiary after the distribution.

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

##### **Dividend payments**

Dividend distributions to the Company's shareholders are recognised as a liability in the period in which the dividend is declared and approved.

##### **Taxation**

###### **Current tax**

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

###### **Deferred tax**

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date.

Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited in other comprehensive income, in which case the deferred tax is also dealt with in other comprehensive income. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

# **Mondi Investments Limited**

## **Notes to the financial statements**

for the year ended 31 December 2021

### **2. Significant accounting policies (continued)**

#### **Foreign currency**

The financial statements are presented in euros, which is the currency of the primary economic environment in which the Company operates (its functional currency).

Transactions in currencies other than the functional currency are recorded at the rate of exchange at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies have been translated at the rates of exchange prevailing at the reporting date. All exchange differences were accounted for in the Profit and loss account.

#### **Investments in subsidiaries**

Investments are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value less costs of disposal and value in use.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows. Prior impairments (other than goodwill) are reviewed for possible reversal at each reporting date.

The investments are recorded at cost less any accumulated impairment.

#### **Financial instruments**

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with short-term, highly liquid investments of a maturity of three months or less from the date of acquisition that are readily convertible to a known amount of cash and that are subject to an insignificant risk of changes in value.

#### Debtors and creditors

Trade debtors and creditors are initially recognised at fair value and are subsequently carried at amortised cost using the effective interest rate method.

### **3. Critical accounting judgements and key sources of estimation uncertainty**

In the application of the Company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### Significant accounting estimate – Impairment of investments

Fixed asset investments are stated at cost, less, where appropriate, provisions for impairment. Any potential impairment is evaluated based on the net carrying value of the investment against its recoverable amount which has been determined based on current business plans. Any change in future intentions could result in a change in the recoverable amount which may lead to further impairment. See Note 10 'Investments' for the relevant disclosures.

## Mondi Investments Limited

### Notes to the financial statements

for the year ended 31 December 2021

#### 3. Critical accounting judgements and key sources of estimation uncertainty (continued)

##### Significant accounting estimate – Valuation of investments

Fixed asset investments are measured at fair value on initial recognition. Refer to note 10 for the approach and key assumptions used in measuring the fair value of the investments in Mondi Holdings Austria GmbH, Mondi Corrugated Poland BV and Mondi Packaging UK Holdings Limited on the relevant transaction date.

##### Critical accounting judgement – presentation of the dividend received from and subsequent impairment of Mondi Sarl

As an effect of the Luxembourg holding companies restructure (see note 10, Investments), Mondi Investments Limited recognised a dividend received of €6,903,000,001 from Mondi Sarl, comprising of €5,791,125,083 paid out of distributable reserves and €1,111,874,918 paid out of share premium, which triggered a subsequent impairment of its investment in Mondi Sarl.

The presentation of the dividend income is considered a critical accounting judgement, which includes consideration as to whether the dividend income is accounted for as a return on investment and presented gross of the subsequent impairment, or whether it is appropriate to account for the dividend received as a return of capital and present net of the subsequent impairment. Given the distribution represents a dividend as a matter of Luxembourg law, with the majority paid out of distributable reserves, and following the distribution, it is intended that Mondi Sarl will continue holding other assets, the distribution is considered to be a return on investment and presented as such in accordance with IAS 27 i.e. as dividend income received. The dividend income is presented in the statement of comprehensive income (instead of dividend income of €1,965,344,144 in the profit and loss account) gross of the subsequent impairment recognised in the profit and loss account as the gross presentation best aligns with the legal character of the distribution.

The judgement applied did not have any impact on the total comprehensive income recognised for the year ended 31 December 2021 or net assets and the profit and loss reserves of the Company as at 31 December 2021.

#### 4. Directors and employees

The Company had no employees during the year (2020: none). The directors received no remuneration or emoluments in respect of the services provided to the Company during the year (2020: nil).

#### 5. Other operating expenses

The audit fee for the audit of the Company's financial statements of £118,079 (2020: £31,714) has been borne by the Company in both years. Lease payments of £610,569 (2020: £652,240) were borne by Mondi Services (UK) Limited on behalf of Mondi Investments Limited.

#### 6. Impairment of investments

	2021 €	2020 €
Impairment of investments	1,965,344,144	63,955,254

Further details on the impairment of investments is provided in note 10.

#### Disclosure 2021

To streamline the Mondi Group legal structure a restructuring of the Mondi Investments Limited direct shareholdings was carried out. Prior to the restructuring Mondi Investments Limited held shares in Mondi Holdings Austria GmbH, Mondi Corrugated Poland BV and Mondi Packaging UK Holdings Limited indirectly, via its shareholdings in Mondi Sarl and Mondi Packaging Sarl. The restructuring resulted in Mondi Investments Limited holding the shares in Mondi Holdings Austria GmbH (for €5,995,000,000), Mondi Corrugated Poland BV (for €908,000,000) and Mondi Packaging UK Holdings Limited (for €1) directly. As a result of the Luxembourg holding companies restructure, Mondi Investments Limited recognised a dividend received from, and a subsequent impairment of, its investment in Mondi Sarl.

## **Mondi Investments Limited**

### **Notes to the financial statements**

for the year ended 31 December 2021

#### **10. Investments (continued)**

The dividend received from Mondi Sarl in the amount of €6,903,000,001 is recognised as a return on investment in other comprehensive income, as it represents an unrealised profit that arose out of a series of transactions related to the Luxembourg holding companies' restructure. Having been recognised within other comprehensive income, the amount of unrealised profit has been presented as a separate reserve in equity, 'other reserve'.

The dividend received has been presented in other comprehensive income gross of the subsequent impairment recognised in the profit and loss account. The presentation of this transaction is considered a critical accounting judgement (see note 3, Critical accounting judgements and key sources of estimation uncertainty).

The realised impairment loss of €1,965,344,144 gave rise to an equal amount of unrealised profit arising from the dividend received being treated as realised and, therefore, this amount was transferred from the 'other reserve' to the profit and loss reserve in the statement of changes in equity in accordance with section 3.9(f) of Tech 02/17, 'Guidance on realised and distributable profits under the Companies Act 2006'.

The most important key assumptions for determining the fair value of the subsidiaries acquired as part of the restructuring were as follows:

- 30 April 2021 was set as the valuation date, as no significant changes in the circumstances of the business and market from then until the transaction occurred were expected;
- Relevant balance sheet positions were used as of 30 April 2021;
- EBITDA was derived from the budget 2021; and
- The allocation of the calculated total fair value in the subsidiaries Mondi Holdings Austria GmbH, Mondi Corrugated Poland BV, Mondi Packaging UK Holdings Limited was based on the equity value of the respective subsidiary derived from a bottom-up model.

The following methodology was applied:

The accounting standard IFRS 13 "Fair Value Measurement" was considered in determining the fair value of Mondi Holdings Austria GmbH, Mondi Corrugated Poland BV and Mondi Packaging UK Holdings Limited. The valuation is based on a market capitalisation model. The market capitalisation of Mondi plc was calculated based on the 3 months weighted average share price as of 30 April 2021. The fair values of the entities not held (neither directly nor indirectly) by Mondi Packaging Sarl/Mondi Sarl were determined by applying the EV/EBITDA multiples of appropriate peers (or group of peers) or Mondi itself in the absence of a proper peer. The values of those entities were deducted from the market capitalisation of Mondi plc to derive the fair value of Mondi Holdings Austria GmbH, Mondi Corrugated Poland BV and Mondi Packaging UK Holdings Limited.

The parameters used were as follows:

- 3 months weighted average share price as of 30 April 2021 (£18.51 or €21.40) was used in order to mitigate fluctuations within the period.
- 3 months average number of shares of 485m.
- Most recently available EV/EBITDA multiples were used

The total fair value of Mondi Packaging Sarl/Mondi Sarl derived from the market capitalisation valuation amounts to €6,903,000,001. The total amount was split between the subsidiaries Mondi Holdings Austria GmbH (€5,995,000,000), Mondi Corrugated Poland BV (€908,000,000) and Mondi Packaging UK Holdings Limited (€1) with the allocation as described above.

## **Mondi Investments Limited**

### **Notes to the financial statements**

for the year ended 31 December 2021

#### **10. Investments (continued)**

##### ***Impairment trigger assessment 2021***

For Mondi Investments Ltd's investments in subsidiaries as of 31 December 2021 it was concluded that there were no indicators of impairment; and no possible reversal of a previously recognised impairment was identified.

##### ***Disclosure 2020***

Following the liquidation of Mondi German Investments Limited in the financial year a disposal of €23,528,001 was recognised.

During the financial year Mondi Consumer Goods Packaging UK Ltd was capitalised at an amount of €21,486,419. Following the planned closure of the Deeside and Nelson operation sites within the UK Consumer Flexibles operations group an impairment of €19,794,880 was recognised for the investment in Mondi Consumer Goods Packaging UK Ltd. The remaining book value as per 31 December 2020 amounts to €1,691,541 and corresponds to the Net Assets of the company at the balance sheet date.

Following the planned closure of the South Korean Consumer Flexibles plant an impairment of €2,404,315 was recognised for the investment in Mondi KSP Co., Ltd in the financial year. The remaining book value as per 31 December 2020 amounts to €1,309,936 and corresponds to the Net Assets of the company at the balance sheet date.

Following the restructuring of the personal care components focused operations (in Germany), management performed an impairment test for the investment in Mondi Holding Deutschland GmbH and concluded that an impairment charge of €41,756,059 was recognised in the profit and loss statement. Management assessed the recoverable amount (€61,507,941) of the investment using a value-in-use calculation with the following key assumptions:

- cash flow forecasts were derived from the budget most recently approved by the Board of Mondi plc covering the period up to 31 December 2023;
- sales volumes, sales prices and variable input cost assumptions in the budget period were derived from a combination of economic and industry forecasts for individual product lines, internal management projections, historical performance, and announced and expected industry capacity changes;
- a 9.5% pre-tax discount rate was derived from the Group's weighted average cost of capital, adjusted for country risk;
- a zero to 2.1% growth rate were applied based on the regions in which the Company operates beyond the budget period into perpetuity; and
- capital expenditure forecasts were based on historical experience and include expenditure necessary to maintain the assets in their current condition.

## Mondi Investments Limited

### Notes to the financial statements

for the year ended 31 December 2021

#### 10. Investments (continued)

Due to the increased level of uncertainty resulting from the COVID-19 pandemic, particularly relating to the timing and the extent of the assumed macroeconomic and industry-related recovery, management determined the recoverable amount based on three probability-weighted scenarios. Aside from the base scenario derived from the budget most recently approved by the Board of Mondi plc, management included an optimistic and a pessimistic scenario in the calculation of the recoverable amount to address the uncertainty associated with the cash flow forecasts.

The sensitivity analyses below have been determined based on reasonably possible changes to the significant assumptions, while holding all other assumptions constant. Changes in the assumptions would have had the following effect on the carrying value of the investment in Mondi Holding Deutschland GmbH at 31 December 2020:

	<b>Increase € million</b>	<b>Decrease € million</b>
Effect of 100 bps change in discount rate	(27)	42
Effect of 5% change in operating cashflows	15	(15)

The carrying value of the investment in Mondi Holding Deutschland GmbH is sensitive to any adverse future changes in key assumptions as outlined in the sensitivity analyses above.

The directors do not consider there is a significant risk of a material adjustment to the carrying value in the next 12 months for this or any other investments held.

	€	€
Derivatives carried at fair value through profit or loss		
Held for trading derivatives that are not designated in hedge accounting relationships:		
Foreign exchange contracts		
- Asset	-	-
- Liability	(10,137)	(4,058)
	<u>(10,137)</u>	<u>(4,058)</u>

#### 15. Deferred tax

The Company has the following amounts in respect of which no deferred tax asset has been recognised due to the unpredictability of future profit streams or gains against which these could be utilised:

	2021	2020
	€	€
<b>Tax losses – trading</b>		
At 1 January	261,002	216,810
Loss true-up for prior year filed tax return	217,385	44,192
At 31 December	<u>478,387</u>	<u>261,002</u>

The tax losses have no expiry date as at 31 December 2021 (2020: none) and may be carried forward indefinitely.

## Mondi Investments Limited

### Notes to the financial statements

for the year ended 31 December 2021

#### 16. Called up share capital

	2021 €	2020 €
<b>Issued, called up and fully paid</b>		
1 share (2020: 1) of £1	2	2
20,677 (2020: 20,677) shares of \$1	15,309	15,309
	<u>15,311</u>	<u>15,311</u>

The holder of the sterling share shall not be entitled to receive notice of, attend or vote at General Meetings, to receive any dividends or to any return of capital on a winding-up.

#### 17. Dividends

	2021 €	2020 €
Dividend paid during the year	<u>730,800,000</u>	<u>164,000,000</u>
Dividend per share (€ per share)	<u>35,343.62</u>	<u>7,931.52</u>

#### 18. Events occurring after 31 December 2021

Mondi has significant operations in Russia, representing around 12% of the Group's revenue by location of production in 2021, including the high-margin, cost-competitive, integrated pulp, packaging paper and uncoated fine paper mill located in Syktyvkar (Komi Republic). Over the last three years the Russian operations have generated around 20% of the Group's underlying EBITDA. The Russian businesses primarily serve the domestic market. In Ukraine Mondi has one paper bag plant located in Lviv, west of the country, employing approximately 100 people. As announced on 4 May, Mondi has decided to divest the Group's Russian assets. The divestment process for these significant assets is operationally and structurally complex and is being undertaken in an evolving political and regulatory environment. Accordingly, there can be no certainty when a transaction will be completed or as to the structure of any possible transaction.

These events represent a non-adjusting post balance sheet event. The Company has an indirect interest in the Group's Russian businesses. The impact of these events on the Company's financial statements for the year ending 31 December 2022 cannot at this stage be determined.

There have been no other material reportable events since 31 December 2021.

#### 19. Ultimate parent company

The immediate and ultimate parent company and controlling entity is Mondi plc, a company incorporated in the United Kingdom and registered in England and Wales. Mondi plc is the parent company of the largest and smallest group which includes the Company and for which consolidated financial statements are prepared. The consolidated financial statements of Mondi plc may be obtained from the Company Secretary, Building 5, Ground Floor, The Heights, Brooklands, Weybridge, Surrey KT13 0NY.
