### **NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020**

#### **1. Accounting policies**

##### **1.1 Basis of preparation of financial statements**

Nurton Residential Limited is a limited liability company incorporated and domiciled in the United Kingdom. The address of its registered office is disclosed on the company information page.

The financial statements are prepared in Sterling (£), which is the functional currency of the company. The financial statements are for the year ended 31 March 2020 (2019: year ended 31 March 2019).

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

##### **1.2 Going concern**

The financial statements have been prepared on the going concern basis which the directors believe is appropriate for the following reasons:

Nurton Developments Limited, the company's ultimate parent company, has confirmed that it will continue to provide financial support to the company if needed. The directors consider that this should enable the company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe it will not do so. The financial statements do not include any adjustments which would result from the basis of preparation being inappropriate.

##### **1.3 Finance costs**

Finance costs are charged to the profit and loss account over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

##### **1.4 Valuation of investments**

Investments in subsidiaries are measured at cost less accumulated impairment.

## NURTON RESIDENTIAL LIMITED

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

#### 1. Accounting policies (continued)

##### 1.5 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities such as trade and other accounts receivable and payable, and other third parties and loans to and from related parties.

All financial assets and liabilities are initially measured at transaction price and subsequently measured at amortised cost.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate, which is an approximation of the amount that the company would receive for the asset if it were to be sold at the balance sheet date.

#### 2. Employees

The average monthly number of employees, including directors, during the year was 3 (2019: 3).
