STRATEGIC REPORT

FOR THE YEAR ENDED 30 JUNE 2018

The directors present the strategic report and audited financial statements for the year ended 30 June 2018.

Principal Activities

The principal activity of the company during the year was that of an investment holding company. Its investment is a 99% interest in Discovery Holdings Europe Limited ("Holdings"). Holdings owns Vitality Health Insurance Limited and indirectly Vitality Health Limited (together "VitalityHealth"), both licensed insurance companies which offer an innovative private medical insurance product in the UK. Holdings also funds VitalityLife, the life insurance business launched in October 2007 written by the Prudential Assurance Company Limited ("PAC") until 31 December 2015 and by Vitality Life Limited since 1 January 2016 (Vitality Life Limited ("VLL")).

During the year, and as reported in the prior year, a subsidiary of Holdings launched VitalityInvest. The VitalityInvest business is written by VLL and began trading on 23 June 2018.

Review of the business

In 2014, the company acquired the remaining 25% share in Holdings from PAC. Part of the terms of the transaction was that a company owned by Holdings was to obtain its own Life licence within 15 months of the acquisition which Holdings successfully achieved in December 2015 through its subsidiary VLL.

During the year, VLL required a capital injection of £25.4 million which the company funded via an equity issue. In addition, VLL required loan funding of £16.5 million which the company funded via a loan on similar terms from its parent company.

The company and its subsidiaries were required to cease using the Prudential brand completely by November 2016 and this was completed on time. To preserve the company's business, Holdings continued its campaign to raise awareness generally of the Vitality brand name.

VitalityHealth's number of insured lives increased significantly during the year to 576,757 insured lives (30 June 2017: 537,695). The Directors were pleased that during the course of the year, and consistent with the prior year, VitalityHealth also replaced lapsed lives with, in the main, more profitable lives. VitalityHealth is in a position where it has a solid profitable base to grow going forward. Notwithstanding this, VitalityHealth made a profit of £26.8m (2017: £14.3m). It is expected to continue to be profitable in the future as it exploits its scale and position in the market.

VitalityLife continues to perform well in challenging market conditions. New business grew strongly over the year growing the number of in force policies to 383,980 by 30 June 2018 (30 June 2017: 336,296). The business was written using PAC's licence until December 2015. VitalityLife is planning to transfer the historical business written on the insurance licence of PAC into VLL via a Part VII (of the Finance Services and Markets Act 2000) transfer by May 2020, subject to the relevant legal and regulatory approvals.

In assessing the recoverability of investments in subsidiaries the company needs to consider their recoverable amount through projecting future after tax profits. The directors' valuation of the investment at £887m (2017: £795 million) is in excess of the company's investment in Holdings. In projecting future after-tax profits of the business, it is necessary to make certain assumptions about the future performance of the business. These assumptions were arrived at based on internal experience, including all relevant experience between year-end and the date of these financial statements. The internal experience is augmented by reinsurance and industry information.

STRATEGIC REPORT (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

The most significant of these assumptions are the following:

VitalityHealth risk discount rate -4.02% (2017: 3.9%)

VitalityLife risk discount rate -4.725% (2017: 4.75%)

VitalityHealth risk free rate -1.4% (2017: 1.28%)

VitalityLife risk free rate -2.1% (2017: 2.13%)

Corporation tax rate - 19% (2017: 19%)

VitalityHealth projection term - 20 years (2017: 20 years)

VitalityLife asset return -2.5% (2017: 2.13%)

VitalityHealth loss ratio - based on loss ratio experience subsequent to year-end, adjusted to take into account the full-year impacts of loss ratio initiatives undertaken by the date of these financial statements and the seasonality of experienced claims.

VitalityLife mortality and morbidity - based on internal experience, where available augmented by reinsurance, industry and Discovery Group information.

Lapse rates - using current experience, and the historic experience of VitalityHealth and VitalityLife.

Of these assumptions, the most sensitive is the VitalityHealth loss ratio. An increase in the loss ratio of 1% has an impact of decreasing the valuation by 4.5% (2017: 4.2%). This attribute thus receives dedicated focus from Holdings' Board and management.

It is envisaged that capital will be required for the life business to 30 June 2019 and for a few years thereafter. The directors are still considering the options around the source of the funding.

Key performance indicators

Given the straightforward nature of the business, the company's directors are of the opinion that analysis using key performance indicators is not necessary for an understanding of the development, performance or position of the business.

Future outlook

The directors expect the growth of the subsidiaries to continue. VitalityLife is planning to transfer the historical business written on the insurance licence of PAC into VLL via a Part VII (of the Finance Services and Markets Act 2000) transfer by May 2020, subject to the relevant legal and regulatory approvals.

Principal risks and uncertainties

The principal risks the company faces are the profitability, valuation and continued success of its investment in Holdings. To this extent, the company is represented, either as a member or an attendee, on all decision making bodies of Holdings and its subsidiaries including the board of directors, actuarial committee, audit committee, risk committee and remuneration committee.

Further information on the financial risk management of the company can be found in the directors' report.

Brexit has had an impact on the long term interest rates which in turn has put pressure on VitalityLife's margins, though the suite of products offered, and new products developed by VitalityLife help protect VitalityLife against some of these impacts.

25 October 2018

DIRECTORS' REPORT

FOR THE YEAR ENDED 30 JUNE 2018

The directors present their report and audited financial statements for the year ended 30 June 2018.

Results and dividends

The results for the year are set out on page 10.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Directors

The directors who held office during the year and up to the date of signing these financial statements were as follows:

A Gore

M I Hilkowitz

S Matisonn

R Farber

Qualifying third party indemnity provisions

The company maintains liability insurance for its directors and officers. These include qualifying third party indemnity provisions (as defined in the Companies Act 2006) which were in force during the year and remain in force.

Financial instruments and financial risk management

Treasury operations and financial instruments

The main risks arising from the company's financial instruments and transactions are foreign currency risk, investment/liquidity risk, interest rate risk, credit risk and market risk.

Investment/liquidity risk

The company maintains sufficient liquid assets to meet all anticipated commitments as they fall due. A working budget is maintained to ensure that the company has sufficient cash resources for at least the following financial year.

Interest rate risk

The company's financial instruments accrue interest at a floating rate. The sterling loans fluctuate with 3 month GBP LIBOR and the rand loan fluctuates with 3 month ZAR JIBAR.

Interest rate risk is mitigated as other group companies are the counterparties for all interest bearing liabilities and interest rates for these liabilities are set within the group.

Foreign currency risk

The company conducts all of its operations in Pounds Sterling, however the company has a South African Rand loan which exposes the company to risks in respect of South African Rand fluctuations.

The only exposure to foreign currency risk is a long-term borrowing with Discovery Limited, the ultimate parent company. The directors choose to not actively manage the risk of fluctuations in foreign currency given equal gains and losses to those recorded within this company are recorded within the immediate parent company leading to no impact on the overall group.

DIRECTORS' REPORT (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

Credit risk

The company minimises this risk by utilising only counterparties with satisfactory credit ratings as determined by the directors.

Market risk

The company has a significant long-term investment in Discovery Holdings Europe Limited. The directors of the company are actively involved in managing Discovery Holdings Europe Limited to ensure that the value of the company's interest is maximised.

Post reporting date events

Subsequent to the balance sheet date, the company received financing from the immediate parent company, Discovery Limited, of £18,000,000 in August 2018. £9,000,000 of this financing was funded by the issuance of 9,000,000 ordinary shares of £1 each and £9,000,000 of this financing was funded through a long term sub-ordinated loan of £9,000,000 with the interest rate of GBP LIBOR + 6% maturing in August 2028.

Future Outlook

The directors have elected to include a description of the Company's future outlook, as required by regulations made under section 416(4) of the Companies Act 2006, within the Strategic Report as permitted by section 414(c)(11) of the Companies Act 2006.

Going Concern

The company has net current liabilities and therefore requires and has received an undertaking of support from its immediate parent company, Discovery Limited. Funding is provided regularly by capital injection. The directors are therefore satisfied that the use of the going concern assumption is appropriate for the financial statements.

Independent Auditors

The auditors, PricewaterhouseCoopers LLP, are deemed to be reappointed under section 487(2) of the Companies Act 2006.

DIRECTORS' REPORT (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements;
- · make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of disclosure of information to auditors

In the case of each director in office at the date the Directors' Report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

25 October 2018

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF DISCOVERY GROUP EUROPE LIMITED

Report on the financial statements

Opinion

In our opinion, Discovery Group Europe Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 30 June 2018 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise:

- the Statement of financial position as at 30 June 2018;
- the Statement of comprehensive income for the year then ended;
- the Statement of changes in equity for the year then ended; and
- the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF DISCOVERY GROUP EUROPE LIMITED

Reporting on other information

The other information comprises all of the information in the Annual Report and Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 30 June 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 6, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF DISCOVERY GROUP EUROPE LIMITED

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- · we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2018

1 Company information

Discovery Group Europe Limited is a private company limited by shares incorporated in England and Wales. The registered office is 3 More London Riverside, London, SE1 2AQ.

2 Accounting policies

2.1 Basis of preparation

The financial statements have been prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101) and in accordance with applicable law.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest \pounds .

These financial statements have been prepared under the historical cost convention in accordance with the Companies Act 2006. The principal accounting policies adopted and applied consistently to all periods presented are set out below.

The company has taken advantage of the following disclosure exemptions under FRS 101:

- the requirements of paragraphs 62, B64(d), B64(e), B64(g), B64(h), B64(j) to B64(m), B64(n) (ii), B64 (o)(ii), B64(p), B64(q)(ii), B66 and B67of IFRS 3 Business Combinations. Equivalent disclosures are included in the consolidated financial statements of Discovery Limited in which the entity is consolidated;
- the requirements of IFRS 7 Financial Instruments: Disclosures;
- the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement;
- the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of: (i) paragraph 79(a) (iv) of IAS 1, (ii) paragraph 73(e) of IAS 16 Property Plant and Equipment and (iii) paragraph 118 (e) of IAS 38 Intangibles Assets;
- the requirements of paragraphs 10(d), 10(f), 16, 38A to 38D, 39 to 40,111 and 134-136 of IAS 1 Presentation of Financial Statements;
- the requirements of IAS 7 Statement of Cash Flows;
- the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors;
- the requirements of paragraph 17 of IAS 24 Related Party Disclosures;
- the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member; and
- the requirements of paragraphs 134(d)-134(f) and 135(c)-135(e) of IAS 36 Impairment of Assets.

The company is a wholly owned subsidiary of Discovery Limited and where required, equivalent disclosures are given in the consolidated financial statements of Discovery Limited. The consolidated financial statements of Discovery Limited are available to the public and can be obtained as set out in note 22.

The company has taken advantage of the exemption under section 401 of the Companies Act 2006 not to prepare consolidated financial statements. The financial statements present information about the company as an individual entity and not about its group.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2018

2 Accounting policies (Continued)

2.2 Going concern

The directors have at the time of approving the financial statements, a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The company continues to receive support from its immediate parent company, Discovery Limited. Thus they continue to adopt the going concern basis of accounting in preparing the financial statements.

2.3 Finance income

Finance income is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued by reference to the principal outstanding and the effective interest rate applicable.

2.4 Current and deferred Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in shareholders' funds. In this case, the tax is also recognised in other comprehensive income or directly in shareholders' funds, respectively.

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill; or arise from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2.5 Intangible assets other than goodwill

The internet domain names have been determined to have an indefinite life and as such no amortisation has been charged. Intangible assets are stated at cost and are reviewed for impairment annually. Intangible assets have been treated in accordance with the requirements of IAS 38 and instead of being amortised over a useful life are tested for impairment annually.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

2 Accounting policies (Continued)

2.6 Property, plant and equipment

Property, plant and equipment are initially measured at cost and subsequently measured at cost less subsequent depreciation and impairment.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following basis:

Fixtures, fittings & equipment

3 year straight line

2.7 Non-current asset investments

Interests in subsidiaries, associates and jointly controlled entities are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. The investments are assessed for impairment at each reporting date and any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

A subsidiary is an entity controlled by the company. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

2.8 Impairment of tangible and intangible assets

Where a reasonable and consistent basis of allocation can be identified, assets are allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

At each reporting end date, the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2018

2 Accounting policies (Continued)

2.8 Impairment of tangible and intangible assets (continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

2.9 Fair value measurement

IFRS 13 establishes a single source of guidance for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The company is exempt under FRS 101 from the disclosure requirements of IFRS 13. There was no impact on the company from the adoption of IFRS 13.

2.10 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

2.11 Financial assets

Financial assets are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Financial assets are classified into specified categories. The classification depends on the nature and purpose of the financial assets and is determined at the time of recognition.

Financial assets are initially measured at fair value plus transaction costs, other than those classified as fair value through profit and loss, which are measured at fair value.

Loans and receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables' and included in Debtors. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment.

Interest is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial. The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the debt instrument to the net carrying amount on initial recognition.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

2 Accounting policies (Continued)

2.11 Financial assets (continued)

Impairment of financial assets

Financial assets, other than those at fair value through profit or loss (FVTPL), are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership to another entity.

2.12 Financial liabilities

Financial liabilities are classified as either financial liabilities at fair value through profit or loss or other financial liabilities.

Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the net carrying amount on initial recognition.

Derecognition of financial liabilities

Financial liabilities are derecognised when, and only when, the company's obligations are discharged, cancelled, or they expire.

2.13 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

2.14 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of inventories or non-current assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2018

2 Accounting policies (Continued)

2.15 Retirement benefits

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the statement of comprehensive income in the year they are payable.

2.16 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation are included in the statement of comprehensive income for the period.

3 Critical accounting estimates and judgements

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised.

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are outlined below.

Critical judgements

Deferred tax asset

Deferred income tax is recognised on all temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statements.

Deferred tax assets should only be recognised to the extent that it is probable that taxable profit will be available against which these deductible temporary differences, carried forward tax credits or tax losses can be utilised.

The directors believe it is unlikely that the tax losses will be utilised as the business does not have a track record of profitability. When a track record of profitability has been established with sufficient certainty, a deferred tax asset will be recognised.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

3 Critical accounting estimates and judgements (Continued)

Critical judgements (continued)

Impairment of non-current assets

The directors have valued the investment in Discovery Holdings Europe Limited based on their estimate of the recoverable amount. The directors' valuation is arrived at using an Embedded Value approach. The Embedded Value is calculated as the value of projected future after-tax profits of the business in force discounted at the risk discount rate.

In projecting future after-tax profits of the business, it is necessary to make certain assumptions about the future performance of the business. These assumptions were arrived at based on internal experience, including all relevant experience between year-end and the date of these financial statements. The internal experience is augmented by reinsurance and industry information. Any provision for impairment is assessed by management on a regular basis considering the Embedded Value and future after-tax profits of the business that management believe will be realised from investments held.

Fair value of financial assets carried at amortised cost

The directors have assessed the recoverability of the carrying value of the investment in Discovery Holdings Europe Limited based on their estimate of the recoverable amount. The directors' valuation is arrived at using an Embedded Value approach. The Embedded Value is calculated as the value of projected future after-tax profits of the business in force discounted at the risk discount rate.

In assessing the recoverability of investments in subsidiaries the company needs to consider their recoverable amount through projecting future after tax profits. The directors' valuation of the investment at £887m (2017: £795 million) is in excess of the company's investment in Holdings. In projecting future after-tax profits of the business, it is necessary to make certain assumptions about the future performance of the business. These assumptions were arrived at based on internal experience, including all relevant experience between year-end and the date of these financial statements. The internal experience is augmented by reinsurance and industry information.

Other receivables disclosed above are classified as loans and receivables and are therefore measured at amortised cost.

A loan of £25.7 million to the company's subsidiary undertaking, Discovery Holdings Europe Limited was made in three tranches. The first on 28 May 2010 of £3.0 million, the second on 30 June 2010 of £8.2 million and the final tranche of £14.5 million on 28 December 2010. The first two tranches of the loan were originally repayable on 30 November 2010 and are now repayable on 31 July 2019 following an amendment to the original loan agreement. The last tranche of the loan was originally repayable on 31 July 2017 and is also repayable on 31 July 2019. The loan carries interest at 4.5% above 3 month GBP LIBOR.

The company made a loan of £8.5 million to Discovery Holdings Europe Limited on 30 June 2016. The loan matures on 1 July 2026, with the earliest repayment date of 1 July 2021. Interest is payable monthly in arrears at a rate of 4.15% above 3 month GBP LIBOR. The loan is unsecured.

On 31 March 2017, the company made a loan of £24.65 million to Discovery Holdings Europe Limited. The loan matures on 1 April 2027, with the earliest repayment date of 1 April 2022. Interest is payable quarterly in arrears at a rate of 6.25% above 3 month GBP LIBOR. The loan is unsecured.

On 31 October 2017, the company made a loan of £6 million to Discovery Holdings Europe Limited. The loan matures on 1 November 2027, with the earliest repayment date of 1 November 2022. Interest is payable quarterly in arrears at a rate of 6.25% above 3 month GBP LIBOR. The loan is unsecured.

On 31 May 2018, the company made a loan of £10.5 million to Discovery Holdings Europe Limited. The loan matures on 1 June 2028, with the earliest repayment date of 1 June 2023. Interest is payable quarterly in arrears at a rate of 6.25% above 3 month GBP LIBOR. The loan is unsecured.

		83,349,818	65,618,560

Analysis of borrowings

Borrowings are classified based on the amounts that are expected to be settled within the next 12 months and after more than 12 months from the reporting date, as follows:

	2018	2017
		£
Name are mande that the land	92 240 919	<i>(5 (</i> 10 <i>5 (</i> 0
Non-current liabilities	83,349,818	65,618,560

A balance of £12.7m is due to the company's parent undertaking, Discovery Limited. The loan was received 27 July 2010, part of which has subsequently been settled. The terms of the loan were extended on 10 November 2014 with the loan being repayable on 31 July 2020 and carry interest at 4% above 3 month GBP LIBOR.

A loan from the company's parent undertaking, Discovery Limited was received on 12 November 2014, carrying value of R335.8 million (£19.7 million). The loan is repayable on 11 November 2022 and carries interest at the 3 month ZAR JIBAR plus 2%.

A loan of £8.5 million from Discovery Finance Company Europe Limited was entered into on 30 June 2016 with a maturity date of 1 July 2026, with the earliest repayment date being 30 June 2021. Interest is repayable monthly in arrears at a rate of 3.65% above 3 month GBP LIBOR.

A loan of £24.65 million from the company's parent undertaking, Discovery Limited, was received on 31 March 2017 with a maturity date of 1 April 2027, with the earliest repayment date being 1 April 2022. Interest is repayable quarterly in arrears at a rate of 6% above 3 month GBP LIBOR.

A loan of £6 million from the company's parent undertaking, Discovery Limited, was received on 31 October 2017 with a maturity date of 1 November 2027, with the earliest repayment date being 1 April 2022. Interest is repayable quarterly in arrears at a rate of 6% above 3 month GBP LIBOR.

A loan of £10.5 million from the company's parent undertaking, Discovery Limited, was received on 31 May 2018 with a maturity date of 1 June 2028, with the earliest repayment date being 1 June 2023. Interest is repayable quarterly in arrears at a rate of 6% above 3 month GBP LIBOR.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2018

15 Fair value of financial liabilities

The directors believe that the carrying amounts of financial liabilities carried at amortised cost in the financial statements approximate to their fair values.

16 Trade creditors and other payables

	Current	
	2018	2017
	· £	£
Accruals	1,217,423	2,109,354

17 Deferred taxation

The company has measured its deferred tax assets as at 30 June 2018 at 17% (30 June 2017 at 17%). Deferred tax assets in respect of the following timing differences are not recognised as the directors are not certain when these might be used. This is on the basis that the current year losses create a level of uncertainty as to whether these tax losses will be utilised as the business does not have a track record of profitability. When a track record of profitability has been established with sufficient certainty, a deferred tax asset will be recognised. The unrecognised deferred tax asset as at 30 June is as follows:

	2018	2017
	£	£
Fixed assets	3,961	7,201
Short term provisions	162,472	292,360
Losses	607,882	607,882
	774,315	907,443
	· · · · · · · · · · · · · · · · · · ·	

18 Retirement benefit schemes

Defined contribution schemes

The company operates a defined contribution pension scheme for all qualifying employees. The assets of the scheme are held separately from those of the company in an independently administered fund.

The total costs charged to income in respect of defined contribution plans is £16,971 (2017: £33,573).
