Basis of preparing the financial statements

These financial statements have been prepared in accordance with FRS102 "The Financial Reporting Standards applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime.

The accounts have been prepared on the going concern basis, which is dependent on the continued support of the company's directors.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £1.

The financial statements have been prepared under the historical cost convention, modified to include certain financial instruments at fair value. The principal accounting policies adopted are set out below.

Financial liabilities

Basic financial liabilities which include trade and other payables, are initially measured at transaction price and subsequently measured at amortised cost, unless the arrangement constitutes a financing transaction where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Equity instruments

Equity instruments issued by the company are recorded at the fair value of the proceeds received net of direct issue costs. Dividend's payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.
