1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents the amounts receivable during the period for the provision of care services. Where the amount received relates to a period which covers the balance sheet date, the amount is apportioned over the period to which it relates.

Depreciation

Tangible fixed assets other than freehold land and buildings are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Asset class

Computer equipment

Depreciation method and rate

25-33% straight line

Deferred tax

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as required by the Financial Reporting Standard for Smaller Entities (effective April 2008).

Deferred tax is measured at the rates that are expected to apply in the periods when the timing differences are expected to reverse, based on the tax rates and law enacted at the balance sheet date.

Operating leases

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.
