TRUSTEES' REPORT (continued)

YEAR ENDED 30 JUNE 2023

The trustees (who are also directors of the charity for the purposes of the Companies Act) present their annual report together with the unaudited group financial statements of The Vascular Society (the Society) for the year ended 30 June 2023.

OBJECTIVES AND ACTIVITIES

Policies and objectives

The objects of the Society are to relieve sickness and to preserve, promote and protect the health of the public in Great Britain, Ireland and the world by;

Advancing, for the public benefit, the science and art of, and research into, the treatment of vascular disorders; and

Promoting or conducting or causing to be carried out or fund all types of research relevant to vascular disease and the dissemination of the results thereof.

The Society is the pre-eminent organisation in the country promoting vascular health by supporting and furthering excellence in education, training and scientific research.

The Society continues its commitment to improving the quality of vascular surgery in the UK, and, as a new separate surgical speciality continues to build on plans for a high-class training structure dedicated towards the needs of vascular trainees. The Society has developed a specific vascular curriculum and examination to support the training programme.

The Society's fundraising arm, the Circulation Foundation, has continued to raise awareness of vascular disease amongst the public and to provide information to patients. It continues to be able to offer a number of significant research grants to vascular trainees in order to further develop a high level of research into vascular disease.

Strategies for achieving objectives and delivery of public benefit

The Society has continued to develop and improve its education programme for surgeons in training and in addition has worked to improve the education of surgeons in non training posts who make an invaluable contribution to the care of vascular patients. The annual scientific meeting now encompasses parallel meetings for physiotherapists involved in the care of vascular patients (BACPAR) as well as the well established meetings of the Society of Vascular Nurses and Society of Vascular Technologists.

Research has focussed on clinical questions and quality improvement. In addition to the quality improvement project for patients with limb threatening ischaemia, two new projects developed with the Royal College of Surgeons of Edinburgh and the Royal College of Physicians and Surgeons of Glasgow are examining human factors and frailty respectively. Future projects will focus on priorities identified through the James Alliance Partnership and actioned through our special interest groups.

With the aim of disseminating research performed by vascular surgeons and allied health professions the Society has developed and published a new journal called The Journal of the Vascular Societies of Great Britain and Ireland.

The Society's trustees have complied with the duty in Section 4 of the Charities Act 2011 to have due regard to Public Benefit guidance published by the Charity Commission.

TRUSTEES' REPORT (continued)

YEAR ENDED 30 JUNE 2023

ACHIEVEMENTS AND PERFORMANCE

The Annual Scientific Meeting was held in Brighton in November 2022. This was well supported by members and industry sponsors generating profit that will be used to fund our educational and research commitments. The meeting is run in parallel with the Society of Vascular Nurses, Society of Vascular Technologists and British Association of Chartered Physiotherapists in Limb Absence Rehabilitation, who also receive a share of the profits. Although well attended, there was less profit than from meetings held prior to the Covid pandemic due to significant increases in overheads without at increase in registration fees.

The Circulation Foundation (the fundraising arm of the Vascular Society) continued its Vascular Disease Awareness campaign in order to raise awareness, generate research funding, and to inform members of the public of vascular disease. This year the Circulation Foundation has again received a boost by personal donations and we continue to have a high proportion of the membership making an annual donation. We are also very grateful to individual fundraisers who have run, cycled and walked to raise money for the Circulation Foundation.

Our two largest financial commitments are funding of the Aspire series of courses for training junior vascular surgeons and funding of research fellows. 6 Aspire Courses were once again held in person requiring enormous commitment from local organisers. Largely due to the efforts of Paddy Coughlin, we were once again awarded a large grant from the Covid Recovery Fund of Health Education England that will go some way to offsetting the huge cost of these courses.

Over the last two years we have worked in partnership with The Royal College of Surgeons of England to fund two research fellows who have been working on the quality improvement project in critical limb ischaemia. This project has been very successful and has resulted in a CQUIN target for revascularisation of patients with critical limb ischaemia. This provides a financial incentive for hospitals to invest in vascular surgery and will improve the care of 1000's of patients.

We have also formed partnerships with the Royal College of Surgeons of Edinburgh to work on a project on human factors and The Royal College of Physicians and Surgeons of Glasgow to work on a project on frailty. We have tried to encourage and fund projects that are both important to patients, and relevant to our clinical colleagues

Lastly we are very proud to have established our own journal called the Journal of the Vascular Societies of Great Britain and Ireland (JVSGBI). This journal will provide a platform not just for local vascular surgeons, but also our colleagues in nursing, vascular technologists and physiotherapists. This is an enormous achievement and has only been possible due to the drive and determination of Prof Ian Chetter and Gail Ryan from EBS.

FINANCIAL REVIEW

The charity's consolidated accounts show a net surplus for the financial year 1st July 2022 to 30th June 2023 of £102,157 (2022: £131,030). This includes a surplus of £30,685 (2022: £45,931) from its trading company, VSGBI Ltd, which is used to run the Annual Scientific Meeting.

The Council has worked hard to control costs and much of the extensive meeting schedule required during the pandemic has been online. We have received £130,000 from Health Education England to help fund catch up training as well as £18,500 from industry sponsors.

TRUSTEES' REPORT (continued)

YEAR ENDED 30 JUNE 2023

We have benefited from two legacies in the year and our thanks go to the donors. The other main income sources for the Society are donations and subscriptions from members. Members' donations to the Circulation Foundation of £14,500 in the year have been allocated to funding the Society's new Journal. Details of our expenditure are set out in the attached accounts.

Grants totalling over £93,000 have been paid during the year, including £22,500 for the RCS Surgical Specialty Leads in Vascular Surgery.

Reserves policy

The Society operates with a written reserves policy which is revised annually. The Society has been fortunate to receive generous financial support from industry in previous years, but this is not guaranteed. The trustees are therefore mindful that the reserves need to remain high to support the Society in the absence of such funding in the future.

The trustees therefore established a reserves policy whereby unrestricted funds are sufficient to meet one year's activity of the Society, including the Circulation Foundation, to:

Support the costs of its audit and research programmes

Maintain the organisation of its Annual Scientific Meeting

Cover the day-to-day administrative infrastructure

Deal with unexpected demands on the charity funds

Cover or part cover unforeseen costs with future projects

To ensure the Society continues to meet its charitable objectives the desirable reserve for the above objectives has been calculated as £575,000. By improving the financial management of the charity and limiting its spending, the charity has been able to rebuild its reserves following the settlement of its pensions liability in 2016 and increase the number of Research Fellowships supported.

The financial statements show that the charitable group had free reserves within unrestricted funds of £932,690 at the year end (excludes fixed assets and designated funds) and restricted funds of £381,653. This will allow the charity to support further grants in the next year, avoid increasing membership fee and keep the reduced level of fees for registration at the ASM. Planned expenditure going forward includes a joint fellowship with BSIR of £35,000 per annum for two years and a joint fellowship with the Royal College of Physicians and Surgeons of Glasgow of £35,000 per annum over two years. We have not renewed our partnerships with The Royal College of Surgeons of England this year. Our current websites for both The Vascular Society and Circulation Foundation have come to the end of their lives. After a tendering process, a contract has been awarded to Light Media to redesign both websites. We are holding £75,000 in reserve for this. Our journal business plan commits us to up to £60,000 over 3 years, and we are currently on track to break even by the end of this period. The Journal is available online at no cost and income is generated by industry sponsorship.

We have previously committed £30,000 to a joint aortic open fellowship. No progress has been made in establishing this fellowship with The Royal Brompton Hospital and the funding will be need to reviewed before the fellowship is established.

TRUSTEES' REPORT (continued)

YEAR ENDED 30 JUNE 2023

Within restricted funds, we have unspent HEE funding related to the ASPIRE programme. This will allow courses to run for at least another year but in the medium to long term we hope to secure regular, reliable funding from industry partners.

Investment policy and performance

The Society's general investment policy is to aim for the highest possible return with minimum risk to the security to its fund which, typically, would be through the use of higher interest bank deposit accounts.

The Honorary Treasurer liaises directly with Rathbones, the investment manager, on the investment portfolio and when taking investment decisions on behalf of the charity. The investment portfolio has a significant bias towards fixed interest securities, either in conventional, index linked, UK or overseas. For equity, securities have been chosen which have, on the whole, international earnings with reasonable income yields.

The Honorary Treasurer regularly advises the trustees on the levels of the investment reserves held and this is collectively reviewed by the trustees annually.

The investment funds are to enable the Society to further its charitable aims and primarily to be used for future research grants. The funds have been set aside in order to gain the best financial return until the grants are awarded. Despite the global pandemic and profit warnings our investments have performed well. The performance of these investments is shown in notes 5 and 13 to the financial statements.

The charitable group's investments at 30 June 2023 were valued at £441,470 with a further £866,395, held as cash deposits.

PLANS FOR THE FUTURE

Future developments

The Society has reviewed its financial structure with help from specialist VAT advisors. The result of this has been to create a VAT Group which is a more conventional arrangement for a charity with some commercial activities (industry sponsorship for the ASM) than the structure we had previously.

Going forward Council and the Research Committee will be continuing to support special interest groups to look at areas of research priority using income from the Circulation Foundation.

The Society will continue its scientific role through its Annual Scientific Meeting in November 2023 and aims to enhance the educational objectives for its Members.

The Society will continue to support its affiliated organisations – the Society of Vascular Nurses, the Society for Vascular Technology, BACPAR, and the Rouleaux Club.

TRUSTEES' REPORT (continued)

YEAR ENDED 30 JUNE 2023

STRUCTURE, GOVERNANCE AND MANAGEMENT

Constitution

The organisation is a charitable company limited by guarantee, which was incorporated on 2 March 2004 and which registered as a charity on 22 March 2004. The organisation was dormant until it took over the activities of The Vascular Surgical Society of Great Britain and Ireland on 1 July 2004 and the British Vascular Foundation (BVF) – the fundraising arm of the Society – on 1 October 2004. The BVF changed its name to the Circulation Foundation in May 2006, which is currently an operating division of The Vascular Society.

The Society is constituted under a Memorandum of Association and is a registered charity (number 1102769).

The charity has a wholly owned trading subsidiary which is incorporated in the United Kingdom, VSGBI Limited (registered number 04020415), and is principally engaged in the operation of the Annual Scientific Meeting for The Vascular Society.

Method of appointment or election of trustees

The trustees are elected by a ballot of the Ordinary Members of the Society following a call for nominations sent to the Ordinary Members. Nominees have to be a current Ordinary Member and proposed and seconded by current Ordinary Members.

The President has previously been elected by the voting trustees (Council members) but after discussion at the ASM and then a postal vote among the Ordinary Members, it was decided that the President should be elected by the Ordinary Members. The first election under the new rules will take place in November 2023. Nominations are proposed following consideration of a long list of Ordinary Members who have been Members of the Society for 15 years or more and have previously sat on Council. The successful candidate takes office as Vice-President Elect at the AGM following his/her election, and assumes the role of President two years following his/her appointment.

The other Honorary Officers of the Society – Honorary Secretary, Honorary Treasurer, Chairman, Training and Education Committee and Chairman of Audit and Research Committee are elected by the trustees following a call for nominations. Eligible candidates should have previously served on the Council and are elected following a presentation to Council. The Honorary Secretary, Honorary Treasurer and Chairmen of the Committees assume their positions one year prior to taking office as part of their training for the role. These posts are four years in duration.

Policies adopted for the induction and training of trustees

All new trustees are asked to sign a statement of eligibility and are sent the following:

The Memorandum and Articles of Association of The Vascular Society;

The minutes of Council meetings for the previous year;

Terms of reference for Council and its Committees;

List of current trustees and contact details;

Annual list of dates of trustee meetings;

TRUSTEES' REPORT (continued)

YEAR ENDED 30 JUNE 2023

Guidance on expenses allowance;

The most recent Charity accounts;

A copy of the Charity Commission publication 'The Essential Trustee – What you need to know'; Companies House booklet Directors and Secretaries Guide.

Organisational structure and decision making

There are four trustee (Council) meetings a year at which operational and financial matters of the Society are discussed, and strategic decisions about the direction of the charity are taken. An Executive Committee is also held four times a year prior to Council meetings. In addition, the Society's committees – Education, Audit and QI, Research and Circulation Foundation – meet three times a year, and the Professional Standards Committee meets once a year when required, undertaking the majority of its workload by e-mail and telephone. In between meetings, decisions are made by telephone or e-mail communication between the Honorary Officers and other trustees. Day to day issues are dealt with by an administrator within Executive Business Services, our external management company who coordinates all major decisions of the Honorary Officers.

Risk Management

The trustees regularly review the major risks to which the Society is exposed and systems have been established to mitigate those risks. A risk register is maintained by the trustees and is reviewed annually. Significant external risks to funding have led to the development of a strategic plan which will allow for the diversification of funding and activities. Internal risks are minimised by the implementation of procedures for authorisation of all transactions and projects and to ensure consistent quality of delivery for all operational aspects of the Society. These procedures are periodically reviewed to ensure that they will still meet the needs of the charity.

The financial statements have been prepared in accordance with the accounting policies set out in notes to the accounts and comply with the charity's governing document, the Charities Act 2011 and Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland.

This report has been prepared in accordance with the provisions applicable to companies entitled to the small companies exemption.

This report was approved by the Trustees on 22 November 2023 and signed on their behalf by:

Alistair McCleary

INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES

YEAR ENDED 30 JUNE 2023

I report to the charity trustees on my examination of the accounts of the company for the year ended 30 June 2023 which are set out on pages 9 to 24.

Responsibilities and basis of report

As the charity trustees of the company (and also its directors for the purpose of company law) you are responsible for the preparation of the accounts in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of the company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of your company's accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act.

Independent examiner's statement

Since the company's gross income exceeded £250,000 your examiner must be a member of a body listed in section 145 of the 2011 Act. I can confirm that I am qualified to undertake the examination because I am a member of the Institute of Chartered Accountants in England and Wales.

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

- accounting records were not kept in respect of the company as required by section 386 of the 2006 Act; or
- ii. the accounts do not accord with those records; or
- iii. the accounts do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair view' which is not a matter considered as part of an independent examination; or
- iv. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED 30 JUNE 2023

1. ACCOUNTING POLICIES

Basis of preparation

The financial statements have been prepared in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102), Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (effective 1 January 2019) (Charities SORP FRS102) and the Companies Act 2006.

The Vascular Society is a company limited by guarantee and meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy notes.

Group financial statements

The financial statements consolidate the results of the charity and its wholly owned subsidiary VSGBI Limited. A separate Statement of Financial Activities and income and expenditure account for the charity has not been prepared because the company has taken advantage of the exemption afforded by section 408 of the Companies Act 2006.

The charitable company made a surplus in the financial year of £117,404 (2022 - surplus of £138,619). Inter-company transactions and balances between the charity and its subsidiary are eliminated in full.

Going Concern

The Trustees are of the opinion that the group has sufficient resources to continue trading for the next 12 months from the date of signing these accounts.

Legal Status

The charitable company is a company limited by guarantee and has no share capital. It is incorporated in England and Wales and its registered address is 146 New London Road, Chelmsford, Essex, CM2 0AW.

Income

Donations and legacies

All monetary donations and gifts are included in full in the Statement of Financial Activities when receivable, provided that there are no donor-imposed restrictions as to the timing of the related expenditure, in which case recognition is deferred until the pre-condition has been met.

Donations under Gift Aid, together with associated income tax recoveries, are credited as income when donations are receivable.

Legacies are included when the charity is advised by the personal representative of an estate that payment will be made, if the receipt is both certain and measurable. These are included in the Statement of Financial Activities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED 30 JUNE 2023

1. ACCOUNTING POLICIES (continued)

Grants receivable

Revenue grants are credited as incoming resources when they are receivable, provided conditions for receipt have been complied with, unless they relate to a specified future period, in which case they are deferred.

Investment income

Investment income, including associated income tax recoveries, is recognised when receivable.

Expenditure

All expenditure is accounted for on an accruals basis and has been included under expense catagories that aggregate all costs for allocation to activities. Where costs cannot be directly attributed to particular activities they have been allocated on a basis consistent with the use of the resources.

Governance costs are those incurred in connection with administration of the charity and compliance with constitutional and statutory requirements.

Grants payable are charged in the year when the offer is made except in those cases where the offer is subject to conditions that enable the charity to realistically avoid the commitment, such grants being recognised as expenditure when the conditions attached are fulfilled.

Tax status

The company is a registered charity and is not subject to corporation tax on its charitable activities.

Debtors

Trade and other debtors are recognised at the settlement amount due.

Creditors

Creditors are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors are normally recognised at their settlement amount.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED 30 JUNE 2023

1. ACCOUNTING POLICIES (continued)

Tangible fixed assets and depreciation

Fixed assets are shown at original cost or, if donated, at their value on the date of the gift, less accumulated depreciation. Depreciation is provided at rates calculated to write off their cost or value, less their estimated residual value over their estimated useful lives on the following basis

Office equipment - 15% reducing balance Computer equipment - 20% straight line Computer software - 20% straight line

Investments

Investments in subsidiaries held as fixed assets are stated at cost less provision for any permanent diminution in value.

Other investments held as fixed assets are stated at market value at the year end. Gains and losses on disposal and revaluation of investments are charged or credited to the SOFA.

Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks.

Fund accounting

Restricted funds are funds which are to be used in accordance with specific restrictions imposed by donors or which have been raised by the charity for particular purposes. The costs of raising and administering such funds are charged against the specific fund. The aim and the use of each restricted fund is set out in the notes to the financial statements.

Designated funds are unrestricted funds that the trustees have set aside for a particulaar purpose.

General funds are unrestricted funds which are available for use at the discretion of the trustees in furtherance of the general objectives of the charity and which have not been designated for other purposes.
