DIRECTORS' REPORT

The directors present their report and audited financial statements for the year ended 31 March 2007

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable United Kingdom Accounting Standards have been followed, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for the system of internal control, for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

PRINCIPAL ACTIVITY AND REVIEW OF THE BUSINESS

The company is a majority owned subsidiary of MITIE Group PLC (the 'Group') The company provides security solutions. There have not been any significant changes in the company's principal activities in the year under review and the directors are not aware of any likely major changes.

On 12 October 2006, MITIE Security (South West) Limited acquired assets and trade from MITIE Security Ltd in the South region. This followed our strategic approach to deliver security solutions using local contract management. This integration has been successful and we continue to operate all systems and management processes on a single platform.

As shown in the company's profit and loss account on page 7, the company's annualised sales have increased by 71% over the prior year. The company generated a profit before tax during the year.

The balance sheet on page 8 of the financial statements shows that the company's financial position at the year end has improved in both terms of net assets and the cash at bank

The Group manages its operations on a divisional basis. For this reason, the company's directors do not believe further key performance indicators are necessary for an appropriate understanding of the performance and position of the business. The performance of the Group's divisions is discussed in the Group's annual report which does not form part of this report.

DIVIDENDS

The directors do not recommend a dividend for the year ended 31 March 2007 (2006 ml)

DIRECTORS' REPORT (continued)

PRINCIPAL RISKS AND UNCERTAINTIES

Loss of key customers is a key risk to the business. The company manages this risk by developing and maintaining strong relationships with these customers.

Group risks are discussed in the Group's annual report which does not form part of this report

FINANCIAL RISK MANAGEMENT

The directors have reviewed the financial risk management objectives and policies of the company. The directors do not believe there to be significant risks in this area. The company does not enter into any hedging instruments, as there are not believed to be any material exposures. It does not enter into any financial instruments for speculative purposes.

Appropriate trade terms are negotiated with suppliers and customers. Management reviews these terms and the relationships with suppliers and customers and manages any exposure on normal trade terms. The company prepares regular forecasts of cash flow and liquidity and any requirement for additional funding is managed as part of the overall MITIL Group PLC financing arrangements.

PAYMENT POLICY

The company's policy is to comply with the terms of payment agreed with a supplier. Where terms are not negotiated, the company endeavours to adhere with the supplier's standard terms. As at 31 March 2007 trade creditors, as a proportion of amounts invoiced from suppliers for the financial year, represented 76 days (2006-31 days).

ENVIRONMENT

MITIE Group PLC and its subsidiaries endeavour to identify, monitor and manage the impact of their activities on the environment and are fully committed to environmental accountability and protection. EMPLOYELS

The company offers equal opportunities to all applicants for employment whatever their sex, race or religion. Disabled persons are considered for employment, training, career development and promotion on the basis of their aptitudes and abilities in common with all employees, providing the disability does not make the particular employment impractical or the employee unable to conform to the stringent regulations which apply to the operations of the company

The company recognises the importance of good communications and employee relationships. In each company there is a relationship between the Chief Executive of MITIE Group PLC and individual employees in the company. In these conditions, complex consultative procedures are seldom required to ensure that there is an understanding of the purpose of the business and the commercial realities of success. NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2007

1. ACCOUNTING POLICIES

The financial statements are prepared in accordance with applicable United Kingdom accounting standards. The particular accounting policies adopted, which have been applied consistently throughout the current and the prior financial year with the exception of FRS 20 'Share-based Payment', are described below

Accounting convention

The financial statements are prepared under the historical cost convention

Turnover

Turnover represents the total, excluding sales taxes, receivable in respect of goods and services supplied. All turnover arises within the United Kingdom, from the company's principal activity.

Turnover from bundled contracts consists of various components which operate independently of each other and for which reliable fair values can be established. Accordingly, each component is accounted for separately as if it were an individual contractual arrangement.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost, less estimated residual value, of each asset on a straight-line basis over its expected useful life, as follows

Office equipment	3 to 5 years
Furniture, fixtures and fittings	3 to 5 years
Computer equipment	3 to 5 years
Motor vehicles	4 years

Tax

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date

Deferred tax is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset, or on unremitted earnings of subsidiaries and associates where there is no commitment to remut these earnings. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and habilities are not discounted.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2007

1 ACCOUNTING POLICIES (continued)

Pension costs

The company participates in the MITIE Group PLC Pension Schemes. One is a defined benefit multi-employer scheme, the assets and liabilities of which are held independently from the group. For the purposes of Financial Reporting Standard 17 ('Retirement Benefits'), the company has been unable to identify its share of the underlying assets and liabilities in the main group scheme on a consistent and reasonable basis. Therefore the company is accounting for contributions to the scheme as if it were a defined contribution scheme.

For defined contributions schemes the amount charged to the profit and loss account is the contributions payable in the year

Change in accounting policy

The financial statements for the year ended 31 March 2007 have been drawn up using the same accounting policies as for the year ended 31 March 2006 subject to the adoption of FRS 20 'Share-based Payment'

The adoption of FRS 20 has had no impact on the financial statements of this company
