Details of the interests of all the directors in the shares in the ultimate parent company, AA Limited, are shown in that company's financial statements for the year ended 31 December 2006

PRINCIPAL ACTIVITIES

The Company's principal activity is that of a holding and financing company

REVIEW OF BUSINESS AND FUTURE DEVELOPMENTS

From the perspective of the company, the principal risks and uncertainties are integrated with the principal risks of the group and are not managed separately. Accordingly, the principal risks and uncertainties of the AA Limited Group, which include those of the company, are discussed in the Finance Director's Review of the group's annual report which does not form part of this report

The Company continues to hold external borrowings in subordinated preference certificates. The funds raised from these borrowings have been advanced to the Company's subsidiary undertaking, AA Junior Mezzanine Limited, in the form of subordinated permanent securities.

On 15 March 2006, the AA Group restructured its borrowings. As part of this, the Company received a repayment of £525.0m on subordinated permanent securities from its subsidiary undertaking, AA Junior Mezzanine Co Limited. The Company then repaid £510.0m of subordinated preference certificates.

RESULTS AND DIVIDENDS

The loss for the period, as set out in the profit and loss account on page 5, was £5.1m (2005 £6.0m). The directors do not recommend the payment of a dividend for the period (2005 £nil) and the loss has been transferred to reserves.

DIRECTORS' REPORT

FOR THE YEAR ENDED 31 DECEMBER 2006 (continued)

FINANCIAL RISKS AND FINANCIAL RISK MANAGEMENT

The Company is part of the AA Group. Its financial risks are managed centrally by the Group Treasury team taking into account the Company's position as part of the group with due consideration being given to the impact of transactions with other group entities. The most important components of financial risk impacting the Company are interest rate risk and liquidity risk in respect of amounts owed by group undertakings. These comprise subordinated permanent securities issued by the Company's subsidiary, AA Junior Mezzanine Co Limited. They are unsecured, bear interest at 16.5% p.a. compounded quarterly and have no repayment terms. They are convertible into ordinary shares of AA Junior Mezzanine Co Limited at the option of the Company at any time. The total of outstanding subordinated permanent securities, plus any unpaid interest, is convertible into the same number of £1 ordinary shares.

Interest rate risk arises from intercompany balances which bear interest at LIBOR plus a margin. The company is also exposed to interest rate risk arising on the Subordinated Preference Certificates. The directors have reviewed the Company's exposure to interest rates and have concluded that the risk is appropriate in relation to financial results of the Company. No action has therefore been taken to mitigate the Company's exposure to movements in interest rates.

Liquidity risk is the risk that cash may not be available to pay obligations when due. This risk is managed centrally by the Treasury team, within parameters set by the Group. The directors are satisfied that the Company is not subject to significant liquidity risk.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

Company law requires the directors to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the Company and of the profit or loss for that period. The directors are required to prepare the financial statements on the going concern basis, unless it is inappropriate to presume that the Company will continue in business.

The directors confirm that suitable accounting policies have been used. They also confirm that reasonable and prudent judgements and estimates have been made in preparing the financial statements for the period ended 31 December 2006 and that applicable accounting standards have been followed.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES

The financial statements have been prepared in accordance with Generally Accepted Accounting Principles in the UK and under the historical cost convention and the Companies Act 1985. The principal accounting policies, which have been applied on a consistent basis with the prior period are set out below.

Basis of preparation

The Company is exempt from the requirement to prepare consolidated financial statements as it is a wholly owned subsidiary of AA Limited, whose consolidated financial statements are publicly available. The Company is also exempt from the requirement to prepare a cash flow statement under FRS 1 (Revised).

The Company has a deficit on net assets as at 31 December 2006. A group undertaking has committed to provide support to enable the Company to continue to meet its current liabilities as they fall due for at least the 12 months following the date of approval of the financial statements. Therefore, the financial statements have been prepared using the going concern assumption.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits in the foreseeable future from which the reversal of the underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

Deferred tax is measured on a non-discounted basis.

Investments

Fixed asset investments in group undertakings are stated at cost, less any provisions for impairment.

Current asset investments are bank deposits with a maturity date of less than one year and are stated at cost.

1 ACCOUNTING POLICIES (continued)

Financial instruments

Financial assets and financial liabilities are recognised on the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument. They are classified according to the substance of the contractual arrangements entered into.

a) Debt instruments

Debt is recognised in the balance sheet as the cash proceeds received less finance costs incurred directly in connection with the issue of the instrument. Finance costs in respect of the instruments, including discounts on issue, are capitalised at inception and charged to the profit and loss account over the term of the instrument to achieve a constant rate on the balance outstanding.

b) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all its liabilities. It is initially recognised as cash proceeds less issue costs.
