STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2021

Introduction

The directors present their Strategic Report together with the unaudited financial statements for the year ended 31 December 2021.

Business review

The Company is part of CH&CO Group (the 'Group'). The Group operates in the following sectors of the market: Workplaces, Destinations, Events, Venues, Livery and Education.

Principal risks and uncertainties

The principal risks impacting the Group are through the Group's financial instruments, along with commercial risks. The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, credit risk and commercial risks.

These are summarised below.

Interest rate risk

The Group is financed through a mixture of bank debt, loan notes from shareholders and equity investment. Interest rates remain relatively low but are expected to rise. The Group has interest rate cap protections in place covering approximately half of the senior debt, so the perceived risk from any significant impact from future interest rate movements is low.

Liquidity risk

The coronavirus pandemic continued to negatively impact the operating results of the Group and introduced greater uncertainty regarding the Group's financial projections for trading and liquidity. The resulting economic uncertainties have altered the risk environment such that in the short to medium term the key operating and financial risks to the Group included a reduction in customer demand, and catering facilities suffering from staff absence due to sickness and the resultant impact on worker productivities and volumes.

The directors reacted promptly to the impact of the above challenges with a number of key short term actions across the business to ensure continuity of operations. This included taking extra steps to safeguard the health and safety of employees, working closely with suppliers to maintain supply of raw materials and communicating regularly with customers.

The directors have reviewed liquidity forecasts prepared by management covering a period of more than 12 months from the date of approval of these financial statements. Cashflow forecasts are derived from the detailed P&L forecasts. Forecast cashflows include the repayment of any deferred amounts owing to HMRC. The forecast has been prepared on a "reasonable worst case scenario" basis. All relevant factors and information have been considered, including detailed conversations with our clients and input from industry bodies such as UK Hospitality (who in turn are in regular dialogue with Government bodies).

Please refer to the Going concern section in the Directors' Report for further details.

BITE CATERING LIMITED

STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2021

Credit risk

The Group's principal assets are cash, trade receivables and tangible fixed assets. Trade receivables are reviewed on a regular basis to ensure they are collectable. The Group has a quality client list and the underlying businesses have historically had very few instances of collection losses. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of cash flows. A provision for impairment is made for expected credit losses, estimated with reference to average of historical losses and forward looking factors. These factors are for example the conflict in Ukraine, the continuing global pandemic and the effects of Brexit. The directors do not consider that emergent situations or events will have an effect on the collectability of debt.

Commercial risks

The principal immediate commercial risk to the business is the recovery of the business from the impact of the Covid 19 pandemic. We have taken extensive steps to work with all our stakeholders to ensure that this recovery is as speedy and effective as possible. We are working very closely with all our clients to ensure that we are aligned with their reopening plans, and we are ensuring that we have adequate people and resources to meet the increased demand. In similar ways we are planning extensively with our supplier partners to secure the supply of quality product into all our sites.

As well as the immediate risk of the recovery from the pandemic there is now an ongoing commercial risk from the impact of inflationary pressures both on our raw material costs and labour arising from the conflict in Ukraine. The contract business models operated by the Group ensure that it has adequate mechanisms available to it to minimise and mitigate inflationary pressures. The majority of the Group's contracts are cost plus, and on commercial arrangements we are able to flex tariffs to pass on the cost to consumers.

Financial key performance indicators

Measurement of performance against KPIs in 2021 and comparison of KPIs against prior period is made difficult in the Financial Statements because of the pandemic.

Some of the Company's key financial performance indicators during the period were as follows:

	2021	2020
	£	£
Revenue	-	-
Operating loss	(22,944)	(348)

Future developments

The directors are optimistic about future trading, as the Group emerges from the impact of the global pandemic. The Group's business activities have flexed significantly to reflect the reduced demand during 2020 and 2021, demonstrating resilience which is a tribute to the strength of its people and the relationship with all its stakeholders.

The Group has been awarded further prestigious contracts subsequent to the period end and the pipeline for new business prospects is strong.

BITE CATERING LIMITED

STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2021

Our People

Our people are at the heart of our business and are critical to achieving our goals. Our shared values as a Group are Inclusive; Inquisitive and Uplifting. These values describe our culture and how it feels to work at CH&Co. They underpin all our activities and makes us successful both individually and as a company.

We seek feedback from our people through companywide engagement platforms such as SharePoint and Unlock and fortnightly all business Exec Live Updates on Teams. Through Unlock we have the online facility to "Meet the Leadership Team" and "Ask a Question". The feedback from these platforms, as well as regular team gatherings and conferences ensure that decisions made by the directors that affect our people are better informed by the views of our people.

The Group invests in Learning and Development for all its team at every level and sees this investment as a long-term benefit in terms of engagement and retention. Emphasis is applied to apprenticeships and, whilst many programs are offered, attention has been given primarily to chef apprentices. This investment will bring benefit to not only the Group and its clients but also long-term benefit to the sector where it is widely recorded that there is a serious shortage of chefs.

Throughout the period the Group and its employees continued to be recognised with several individual and corporate industry awards being won.

Our Clients and Customers

As a national business operating in multiple market sectors, our clients and customers are many and varied. Our business is built on our ability to retain existing and new clients and customers. As such, understanding, engaging with and responding to customer needs is a critical priority. Whilst the demands vary significantly, at the most basic level our clients and customers seek to procure quality food and service at a price they feel is value for money. This requires us to have a deep understanding of their sector specific needs and the ability to deliver services effectively.

The CEO, COO and all our senior operational personnel meet directly with our clients on a regular basis. Members of the Board meet regularly and throughout the period visit our different operations and engage with customers. The CEO and COO updates give feedback on our markets, customers and operational performance to our directors at every meeting. Our Divisional and Sector MDs present regularly to the Board of Directors on matters such as operations and customer satisfaction and key retention issues. In addition, a Business Development report is presented and reviewed at each Director meeting.

Quality of food and service delivery are always at the heart of our engagement with clients and customers. Increasingly there is a focus on innovation and our ability to respond to customer and client trends as well as focus on environmental and social responsibility matters.

Feedback from, and engagement with our key client and customer stakeholders, informs the Director's decision making on its approach to new sales bids and retention activity as well as resource allocation and approach to new markets and opportunities.

STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2021

Our Investors and Lenders

Engagement with and receiving the support of our investors and lenders is a key factor in achieving our goals as a group. We seek long term relationships based on transparency and honesty all of which are critical to building trust.

Investors and lenders are concerned with a broad range of issues including financial and operational performance, developments in our market, execution and delivery of our strategy and the sustainability of our business. Of interest is our continued ability to grow in a sustainable way both through organic growth and M&A activity.

Investors and lenders receive monthly and quarterly management information on financial performance as well as regular business updates from the CFO and CEO.

The key topics of engagement with investors and lenders include developments in our markets and competitive landscape and opportunities for M&A.

Engagement with our investors and lenders was critical in shaping the covenant re-set solution implemented in December 2021 to ensure that the Group had sufficient headroom in its covenants to manage through the recovery from the pandemic and beyond.

Our Suppliers

Our suppliers have a critical role to play in CH&CO being a market leader in foodservice catering. We aim to build honest, respectful and transparent relationships with suppliers who share our values; ethical standards and commitment to sustainability throughout the supply chain.

Our suppliers are concerned with conduct and ethics, long term partnerships, mutual growth, driving innovation and fair business terms.

We engage with our suppliers through direct relationships with the CEO, COO and CFO and Group Procurement and Supply Chain Director as well as through our Culinary and Operational teams.

In 2020 we worked very closely with our key suppliers during the period to develop a market leading supply chain solution called "Project 2020". Through this solution we have consolidated the distribution of our products into a single principal distribution partner. This has significantly improved the environmental impact of our supply chain, with a material reduction in our road miles and carbon emissions. In turn the new distribution solution gives us greater flexibility on the products and suppliers that we use through our supply chain which will have benefits for our clients and customers.

BITE CATERING LIMITED

STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2021

Our Community and Environment

We are committed to limiting the impact of our operations on the environment through more sustainable business practices for our stakeholders and the communities in which we operate.

Our communities are primarily concerned with the impact of our operations on the local community, economy and environment and that we operate and conduct our business as a responsible operator.

We engage with our communities through the regular and frequent interaction of the directors and operational teams with all our client sites and venues.

The Group's business plan determines its approach to Corporate Social Responsibility ('CSR'). It incorporates a bespoke programme, called 'Planet' that helps apply CSR policies to day to day operations. As holders of the top level 3 star rating with the Sustainable Restaurant Association (SRA), the Group's CSR strategy and objectives are based on the three structural pillars of this award:

- Sourcing – Targets are based on reduction of road miles, use of local suppliers and SMEs. Initiatives such as "Project 2020" has supported this and working with bodies such as the Marine Conservation Society (MCS) demonstrate wider commitment.
- Environment – This pillar aims to minimise impact on the environment, for example by reducing single use plastics.
- Society – RoSPA Gold ensures a safe environment for employees and customers. Community and industry are supported through apprenticeships, diversity training and paid days leave for managers and supervisors to work with local charities and community bodies, additionally working with industry charities such as Springboard and Hospitality Action. We are also an accredited Disability Confident employer and an active member of Stonewall.

We have retained key accreditations across the Group including ISO14001, ISO9001 and OHSAS18001.

Post reporting date events

Subsequent to the date of these financial statements the country continued to experience a brief period of "lockdown restrictions" as a result of the impact of the Omicron variant of Covid. This period lasted until the second half of January 2022. The directors are pleased to note that following the lifting of Covid restrictions in the UK, the recovery of the business in all sectors has been very encouraging and ahead of plan in the first quarter of 2022.

In February 2022, Russian forces invaded Ukraine starting a conflict that is still ongoing at the time of signing these financial statements. Both Ukraine and Russia are significant producers of foodstuffs and food commodities in the global food supply chain, and the conflict will have an ongoing impact on food supply chains particularly commodities such as wheat and sunflower oils. The directors have reviewed their supply chains and sourcing strategies and are confident that they are able to mitigate and minimise any impact of the conflict on their profitability and their ability to fulfil service requirements to their clients and customers.

2.3 Going concern

The directors have made an assessment in preparing these financial statements as to whether the Company is a going concern and have concluded that there are no material uncertainties that may cast doubt on the Company's ability to continue as a going concern.

Should the Company require financial support to meet its obligations as they fall due for payment, the Company has received a letter of support from Orchestra Topco Limited, their ultimate parent company. The directors have assessed the ability of Orchestra Topco to provide this support, and have concluded that they believe that company will be able to provide financial support as required. The directors therefore consider it appropriate that the financial statements are prepared on a going concern basis.

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the statement of financial position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of *business combinations*, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax.
