**GROUP STRATEGIC REPORT
FOR THE YEAR ENDED 31 MARCH 2014**

The directors present their strategic report of the company and the group for the year ended 31 March 2014.

REVIEW OF BUSINESS

Celtic Mining Group Limited ("the group") currently operates three surface mines and a processing plant in South Wales. The results for the group show a pre-tax profit of £13.4m (2013: £10.9m) for the year and turnover of £81.2m (2013: £94.8m). All activity is carried out in the company's trading subsidiary Celtic Energy Limited.

In this financial year we saw continued strong demand for most of our products although the mild winter affected domestic sales. Turnover reduced by approximately 14% as a result of lower domestic sales and falling world prices.

Gross Profit ("GP") is the company's key indicator of operating effectiveness. Overall GP% has increased to 27.9% from 25.1% in 2013, however, this is following an exceptional release of provisions of £5.6m following a detailed reassessment; excluding this exceptional credit GP% for the year to 31 March 2014 was 21.0%. This fall compared to 2013 is due predominantly to the lower world coal prices.

The directors also monitor performance by reference to non-financial key performance indicators as follows:

	31 March 2014	31 March 2013
Number of accidents	17	32
Dangerous occurrences	8	14
Number of complaints	101	50
Complaints excluding blasting	9	11

SITE DEVELOPMENT

Current sites

We continue to operate surface mines at Nant Helen, East Pit and Selar (including the extension approved in 2013 allowing a further 800,000 tonnes of coal to be extracted) with Margam currently dormant.

A planning application for a post coaling development at East Pit which includes the extraction of an additional 600,000 tonnes of coal has been submitted and is due to be determined early in 2015.

We are developing a new restoration strategy for Margam which may include the extraction of additional coal.

Potential new sites

A planning application has been approved for a new site at Bryn Defaid in Rhondda Cynon Taff which includes the extraction of 1.2m tonnes of coal.

We are continuing to look at other opportunities across the UK.

GENERAL

In all of our current and future sites we are hopeful that the Local Planning Authorities will continue to pay due regards to what are, in our view, overwhelming social, (in particular employment,) economic and commercial benefits arising from our operations. We remain committed to work with all stakeholders, including the Local Planning Authorities, local communities, the Welsh Government, statutory bodies, land owners and our employees to deliver sustainable developments.

Prospects for the short to medium term future look encouraging. With the benefits of a dedicated and highly trained workforce we remain a group that operates economically and efficiently in a market place that continually faces competition from large overseas producers who benefit from significant economies of scale and reduced levels of legislative burden.

The group continues to make progress and to implement the strategies and actions necessary to address the challenges that the business faces. With the continued support of all interested stakeholders, we believe the group has a sound financial future, with the potential to deliver significant economic value to the wider community in the coming years.

**GROUP STRATEGIC REPORT
FOR THE YEAR ENDED 31 MARCH 2014**

PRINCIPAL RISKS AND UNCERTAINTIES

Celtic Mining Group's business faces a number of risks and uncertainties, some of which are inherent in the nature of its operations. Group management looks at each of the risks faced and chooses what it believes to be appropriate methods or strategies to manage those risks to the extent that it is able to do so. The Board periodically reviews its chosen strategies to ensure it continues to meet the challenges faced.

The key risks within the business may be summarised as follows:

Planning risk

The business is dependent on its ability to operate coal reserves with appropriate planning permissions and extraction licences. We work in close co-operation with the relevant regulatory authorities both to operate the existing sites and also to seek valid permissions for further economic coal reserves;

Market risk

The group operates within a highly competitive environment where prices are largely driven by world commodity markets. The group operates its business to achieve a degree of stability in its prices over the short to medium term, whilst managing our productive capacity to reflect our view of the longer term trend in market size;

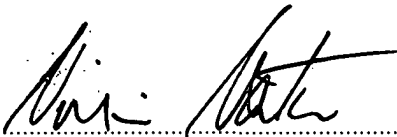

Geological/mining risk

Our site operations involve the extraction of a mineral from its natural environment and are susceptible to the inherent variability in the volume, quality and accessibility of that mineral. Our mines are planned and managed using detailed geological and engineering models and information to limit our exposure to those inherent variabilities, and their resulting impact on sales volumes and our cost base; and

Operational risk

Our business involves the use of heavy equipment undertaking what are potentially environmentally sensitive activities. As such, our operations are planned and organised to address the health & safety issues involved in our day-to-day working practices and both the immediate and long term potential environmental impacts. Our operations are conducted with regular monitoring and dialogue with the relevant regulatory authorities, ensuring that our business is undertaken both responsibly and sustainably, within appropriate constraints.

ON BEHALF OF THE BOARD:

W Watson - Director

Date: 16/12/14

**REPORT OF THE DIRECTORS
FOR THE YEAR ENDED 31 MARCH 2014**

The directors present their report with the financial statements of the company and the group for the year ended 31 March 2014.

PRINCIPAL ACTIVITY

The company acts as a holding company for the group.

The principal activities of the group are surface mine operators and associated activities.

DIVIDENDS

No dividends will be distributed for the year ended 31 March 2014.

DIRECTORS

The directors shown below have held office during the whole of the period from 1 April 2013 to the date of this report.

M E R Llewellyn
DHM Consultancy Limited

Other changes in directors holding office are as follows:

W Watson - appointed 19 December 2013

EMPLOYEES

The Board recognises the contribution to the group's achievements of the support it receives from its customers, suppliers and particularly its employees, which must always be viewed against the backdrop of the tough environment in which the group operates.

The group's policy is to consult and discuss with employees on matters likely to affect their interests.

The group gives full consideration to suitable applications for the employment of disabled persons. Opportunities also exist for employees of the group who become disabled to continue their employment or to be trained for other positions within the group.

On behalf of the Board I wish to express my gratitude to all employees for their hard work and support during the past year.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Report of the Directors and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's and the group's transactions and disclose with reasonable accuracy at any time the financial position of the company and the group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**REPORT OF THE DIRECTORS
FOR THE YEAR ENDED 31 MARCH 2014**

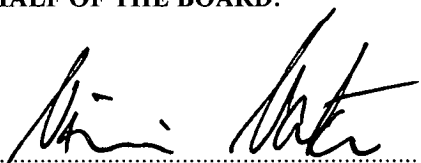

STATEMENT AS TO DISCLOSURE OF INFORMATION TO AUDITORS

So far as the directors are aware, there is no relevant audit information (as defined by Section 418 of the Companies Act 2006) of which the group's auditors are unaware, and each director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the group's auditors are aware of that information.

AUDITORS

UHY Peachey's changed their name to UHY Hacker Young on 1 January 2014, UHY Hacker Young are deemed to be re-appointed under section 487(2) of the Companies Act 2006.

ON BEHALF OF THE BOARD:

.....
W Watson - Director

Date: 16/12/14

REPORT OF THE INDEPENDENT AUDITORS TO THE MEMBERS OF CELTIC MINING GROUP LIMITED

We have audited the financial statements of Celtic Mining Group Limited for the year ended 31 March 2014 on pages eight to thirty four. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in a Report of the Auditors and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Statement of Directors' Responsibilities set out on page four, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group's and the parent company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Group Strategic Report and the Report of the Directors to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the group's and of the parent company's affairs as at 31 March 2014 and of the group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Emphasis of matters - estimation uncertainty

In forming our opinion on the financial statements, which is not qualified, we have considered the adequacy of the disclosures in notes 1, 10 and 16 respectively concerning the company's restoration and rehabilitation provisions and the carrying value of surface mine assets. The notes explain that these provisions and assets involve a significant amount of estimation uncertainty; the actual liabilities can vary significantly from the estimates made by management. Significant variations in provision can have a significant impact on the carrying value of surface mine assets as well as a significant impact on the company's profit and loss account.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Group Strategic Report and the Report of the Directors for the financial year for which the financial statements are prepared is consistent with the financial statements.

**REPORT OF THE INDEPENDENT AUDITORS TO THE MEMBERS OF
CELTIC MINING GROUP LIMITED**

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2014**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and are in accordance with applicable accounting standards.

Basis of consolidation

The consolidated financial statements include the financial statements of the company and its subsidiary undertakings made up to 31 March 2014. The acquisition method of accounting has been adopted. Under this method, the results of subsidiary undertakings acquired or disposed of in the period are included in the consolidated profit and loss account from the date of the acquisition or up to the date of disposal. All profit and loss balances disclosed in the notes to the accounts cover the group.

The company is exempt from the requirement to present its own profit and loss account under the Companies Act 2006.

Related party transactions

The group is exempt under the terms of FRS 8 from disclosing related party transactions with entities that are part of Celtic Mining Group Limited. For details of other related party transactions see note 25.

Turnover

Turnover represents the amounts (excluding value added tax) derived from the provision of goods and services to customers during the year. Income is recognised when substantially all of the risks and rewards of ownership have been transferred to the customer.

Goodwill

Goodwill arising on the acquisition of subsidiary undertakings and businesses, representing any excess of the fair value of the consideration given over the fair value of the identifiable assets and liabilities acquired, is capitalised and written off on a straight line basis over its useful economic life. Provision is made for any impairment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES - continued

Tangible fixed assets

Depreciation is not provided on freehold land. On other assets it is provided on their cost less estimated residual value in equal annual instalments over the estimated useful economic lives of the assets. The rates of depreciation are as follows:

Freehold buildings	- 2% per annum
Plant and machinery - fixed *	- 10% per annum
Plant and machinery - mobile *	- 12.5 to 20% per annum
Computer equipment	- 33% per annum
Motor vehicles	- 33% per annum
Surface works	- 10% per annum
Surface mine preparation, restoration, rehabilitation and pre-coaling costs	- unit of production basis

* Mobile plant and machinery is depreciated on a straight line basis as disclosed above. However, depreciation of plant is absorbed into capitalised stripping costs based on the total forecast site depreciation and the current stage of the site's completion (percentage of coal mined basis). The corresponding credit offsets the original depreciation charge in cost of sales.

Exploration costs

Exploration costs to prove reserves at both existing and prospective sites are charged to revenue as incurred.

Pre-coaling expenditure

Expenditure, other than recoverable land acquisition costs, incurred at each site prior to the extraction of coal is capitalised in tangible fixed assets as surface mines and charged to the profit and loss account over the coaling life of the site on a unit of production basis.

Capitalised stripping costs

Where the actual stripping ratio for a site (the ratio of muck to saleable coal) is higher than the expected average stripping ratio, the excess removal cost is capitalised and included in site costs when the group is able to accurately estimate the expected average stripping ratio for a site. The amount capitalised is subsequently amortised over the remaining reserves and the balance is released to the profit and loss account when the actual stripping ratio falls below the expected average stripping ratio.

Restoration and rehabilitation

The total costs of reinstatement of soil excavation and of surface restoration are recognised as a provision on site commissioning when the obligation arises. The amount provided represents the present value of the expected future costs. Costs are charged to the provision as incurred and the unwinding of the discount is included in the interest charge for the year. An asset is created for an amount equivalent to the initial provision and is included in fixed assets under opencast sites. This is amortised to the profit and loss account on a unit of production basis over the life of the site.

Investment properties

Investment properties are revalued annually. Surpluses or deficits on individual properties are transferred to the investment revaluation reserve, except that a deficit which is expected to be permanent and which is in excess of any previously recognised surplus over cost relating to the same property, or the reversal of such a deficit, is charged (or credited) to the profit and loss account. Depreciation is not provided in respect of freehold investment properties, or in respect of leasehold investment properties where the unexpired term of the lease is more than 20 years. The directors consider that this accounting policy, which represents a departure from the statutory accounting rules, is necessary to provide a true and fair view as required under SSAP 19 'Accounting for investment properties'. The financial effect of the departure from the statutory accounting rules is not material.

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost includes production and preparation costs appropriate to the relevant stage of production.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES - continued

Pension costs and other post-retirement benefits

The group operates both a defined benefit scheme and defined contribution schemes.

In respect of the defined benefit scheme, contributions are paid to the scheme in accordance with the recommendations of independent actuaries to enable the trustees to meet from the scheme the benefits accruing in respect of current and future service.

Pension scheme assets are measured using market value. Pension scheme liabilities are measured using a projected unit method and discounted at the current rate of return on a high quality corporate bond of equivalent term and currency to the liability. The increase in the present value of the liabilities of the group's defined benefit pension scheme expected to arise from employee service in the period is charged to operating profit. The expected return on the scheme's assets and the increase during the period in the present value of the scheme's liabilities arising from the passage of time are included in other finance costs. Actuarial gains and losses are recognised in the statement of total recognised gains and losses.

The pension scheme surplus, to the extent that it is considered recoverable, or deficits are recognised in full and presented on the face of the balance sheet net of the related deferred tax.

In respect of defined contribution schemes, contributions are charged to the profit and loss account as they become payable in accordance with the scheme rules.

The costs of providing other post retirement benefits are charged to the profit and loss account over the service lives of the relevant employees.

Grant income

Revenue grants receivable are credited to the profit and loss account to match the period over which the related expenditure is incurred. Capital grants in respect of expenditure on fixed assets are treated as deferred income and recognised in the profit and loss account over the expected useful economic lives of the related assets.

Repair and maintenance costs

Repair and maintenance costs under long-term sub-contract arrangements reflect the average committed cost of repair and maintenance obligations incurred up to the balance sheet date. Expenditure on repairs and maintenance is recognised in the profit and loss account when a commitment to incur expenditure arises, through the operation of a contract or purchase arrangement.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Deferred tax assets are recognised to the extent that they are regarded as recoverable. They are regarded as recoverable to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES - continued

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported for assets and liabilities at the balance sheet date and the amounts reported for revenue and expenses during the year. The nature of estimation means that the actual outcomes could differ from those estimates. The key sources of estimation uncertainty that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities are:

Operating provisions

The restoration and rehabilitation provision is made based on management's best estimate of the net present value of the cashflows associated with fulfilling these obligations. These estimates include significant estimation of factors such as the ratio of muck to coal in future coaling areas and changes in future operating factors and costs. The restoration works are expected to be carried out over a period spanning more than 5 years after the balance sheet date.

Management's best estimate of the present value of the group's obligations at 31 March 2014 as set out in note 19 is approximately £154.0 million (2013: £157.9 million), however changes in factors that contribute to these estimates have a significant impact on the estimated liability, therefore the actual liability could vary significantly. Unwinding of discount increased the provision by £4.0 million in the current year; other changes resulted in a decrease of £7.2 million (this consists of increased provision for East Pit of £2.6 million and a reduction of £9.8 million for Nant Helen and Selar; £1.0 million of the increase and £2.6 million of the decrease has been reflected in the carrying value of fixed assets in accordance with FRS 12, the remainder has been charged/credited to the profit and loss account. This is regarded as an exceptional item, refer to note 5.

Surface mines

Restoration and rehabilitation assets are created for an amount equivalent to the initial provision and are included in fixed assets under surface mine assets. The assets are amortised on a unit of production basis. The carrying value of surface mine assets is susceptible to the same uncertainties as the estimation of operating provisions. At 31 March 2014 the carrying value of restoration and rehabilitation assets was approximately £11.0 million (2013: £14.5 million), however depending on the actual liability the carrying value of restoration and rehabilitation assets could vary significantly. Provision adjustments have resulted in a decrease in assets by approximately £1.0 million in the current year.

Surface mine assets also include capitalised stripping costs. The estimates of stripping cost assets include significant estimation of factors such as the ratio of muck to coal in future coaling areas. Changes in these estimates can have a significant impact on the estimation of stripping cost carried forward. At 31 March 2014 the carrying value of capitalised stripping costs was approximately £4.3 million (2013: £nil).

2. TURNOVER

The turnover and profit before taxation are attributable to the one principal activity of the group.

An analysis of turnover by geographical market is given below:

	2014	2013
	£'000	£'000
United Kingdom	72,696	82,644
Rest of Europe	8,513	12,151
	<u>81,209</u>	<u>94,795</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2014

3. STAFF COSTS

	Group	
	2014	2013
	£'000	£'000
Wages and salaries	13,105	13,636
Social security costs	1,316	1,138
Pension costs	420	475
	<u>14,841</u>	<u>15,249</u>

The average monthly number of employees during the year was as follows:

	2014	2013
Mining operations	322	325
Technical support	3	3
Selling	3	3
Management and distribution	13	12
	<u>341</u>	<u>343</u>

Directors' remuneration, included in the above, is as follows:

	2014	2013
	£'000	£'000
Directors' remuneration	603	1,746
Directors' pension contributions	-	52
	<u>603</u>	<u>1,798</u>

Information regarding the highest paid director is as follows:

	2014	2013
	£'000	£'000
Emoluments	400	768
Pension contributions	-	-
	<u>400</u>	<u>768</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2014

4. OPERATING PROFIT

The operating loss is stated after charging/(crediting):

	Group	
	2014	2013
	£'000	£'000
Operating lease rentals - plant and machinery	14,855	14,041
Operating lease rentals - other	4	2
Depreciation and other amounts written off tangible fixed assets		
- owned	4,197	7,621
- leased	1,481	1,480
Amortisation of goodwill	-	3,616
Rents receivable from property	(237)	(167)
Auditors' remuneration for audit services	45	45
	<u>45</u>	<u>45</u>

The analysis of auditors' remuneration is as follows:

	2014	2013
	£'000	£'000
Fees payable to the company's auditors for the audit of the company's annual accounts	3	3
Fees payable to the company's auditors for other services to the group		
- the audit of the company's subsidiaries pursuant to legislation	42	42
- other audit services	-	3
Total audit fees	<u>45</u>	<u>48</u>

5. EXCEPTIONAL ITEMS

Operating provisions

During the year ended 31 March 2014 management reviewed the operating provisions held for the restoration and rehabilitation of surface mine sites, and in particular, the timing and carrying value of future cash flows, in the light of revised operating factors and recent cost experience. As a result, provisions were decreased by £7.2m of which £5.6m was recorded in the profit and loss account and £1.6m was capitalised.

6. INTEREST RECEIVABLE AND SIMILAR INCOME

	2014	2013
	£'000	£'000
Bank interest receivable	<u>331</u>	<u>362</u>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2014

7. INTEREST PAYABLE AND SIMILAR CHARGES

	2014 £'000	2013 £'000
Bank interest	-	1
Hire purchase	204	295
Unwinding of discount on provisions	4,027	3,844
	<u>4,231</u>	<u>4,140</u>
Other finance costs:		
	2014 £'000	2013 £'000
Expected return on pension scheme assets	(611)	(545)
Interest on pension scheme liabilities	608	587
	<u>(3)</u>	<u>42</u>

8. TAXATION

Analysis of the tax charge/(credit)

The tax charge/(credit) on the profit on ordinary activities for the year was as follows:

	2014 £'000	2013 £'000
Current tax:		
UK corporation tax	2,104	100
Adjustments to tax charge in respect of prior years	-	(1,732)
Total current tax	2,104	(1,632)
Deferred tax	(11)	156
Tax on profit on ordinary activities	<u>2,093</u>	<u>(1,476)</u>

Factors affecting the tax charge/(credit)

The tax assessed for the year is lower than the standard rate of corporation tax in the UK. The difference is explained below:

	2014 £'000	2013 £'000
Profit on ordinary activities before tax	<u>13,447</u>	<u>10,858</u>
Profit on ordinary activities multiplied by the standard rate of corporation tax in the UK of 23% (2013 - 24%)	3,093	2,606
Effects of:		
Utilisation of tax losses	(1,354)	(3,873)
Adjustments to tax charge in respect of previous periods	-	(1,732)
Items not deductible for tax purposes	11	942
Differences between capital allowances and depreciation	520	1,457
Provisions not allowed until paid	(166)	(1,032)
Current tax charge/(credit)	<u>2,104</u>	<u>(1,632)</u>

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2014**

8. TAXATION - continued

The deferred tax charge relates to the element of the movement in the deferred tax asset related to the pension deficit that has not been recognised in the statement of total recognised gains and losses and amounts to £11,000. The amount of deferred tax recognised in the statement of total recognised gains and losses is £nil which is the proportion that relates to the actuarial loss recognised. The deferred tax asset relating to the pension liability is set out in note 22.

9. PROFIT OF PARENT COMPANY

As permitted by Section 408 of the Companies Act 2006, the Profit and Loss Account of the parent company is not presented as part of these financial statements. The parent company's profit for the financial year was £0 (2013 - £0).

10. PRIOR YEAR ADJUSTMENT

In September 2010 the group entered into a transaction pursuant to which its freehold interest in its existing surface mine sites was transferred. At the time the surface mine assets and the related liabilities for restoration and rehabilitation of the sites was derecognised.

The SFO opened an enquiry in relation to this transaction. The Board took further legal advice whilst the SFO investigation was ongoing. Having considered the matter carefully, the Board determined that whilst they believed that the transaction had been entered into in good faith and on the basis of legal advice, the company should reflect the liabilities for restoration and rehabilitation in the accounts and the associated unamortised element of the FRS 12 asset. Therefore a prior year adjustment was reflected in the 2013 financial statements. The effect on reserves at 1 April 2012, was a reduction of £49.2 million; this was reflected in the Statement of Total Gains and Losses.

During 2014, following a Crown Court ruling against the SFO, the SFO's action has been concluded with no further criminal proceedings to be brought.

At 31 March 2014	1,960	3,923	12,478	15,366	33,727
At 31 March 2013	1,846	2,777	12,894	14,450	31,967

Surface mine sites represents the capitalised costs of site preparation, restoration, rehabilitation and stripping costs. As explained in note 1 these items are based on management estimates and involve significant uncertainty. Variations in provisions affect the carrying value of surface mine assets based on the stage of completion of the site.

Included in the cost of freehold land and buildings is land of £0.6m (2013: £0.5m) which is not depreciated.

Included in the total net book value at 31 March 2014 is £7.287m (2013: £8.766m) in respect of assets held under finance leases and similar hire purchase contracts. Depreciation for the year on these assets was £1.481m (2013: £1.487m).

Cost or valuation at 31 March 2014 is represented by:

	Freehold land and buildings £'000	Investment properties £'000	Plant, machinery and equipment £'000	Surface mines £'000	Totals £'000
Valuation in 2014	-	3,923	-	-	3,923
Cost	2,056	-	47,776	55,167	104,999
	2,056	3,923	47,776	55,167	108,922

Investment properties, which are all freehold, were valued on an open market existing use basis at 31 March 2014 by the directors. Such properties are not depreciated. The depreciation which would otherwise have been charged amounts to £140,503 (2013: £51,978). The directors consider the value to be the same as the historical cost for the investment properties held at 31 March 2014.

The value of land included in investment properties amounts to £483,012 (2013: £483,012).

Cash funds held by Local Planning Authorities (LPAs) are cash balances paid by the company as part of its Section 106 commitments and will be repaid to the company on milestones during the restoration and rehabilitation of the relevant sites.

Analysis of deferred tax asset

No deferred tax asset has been recognised other than in relation to the pension deficit (see note 22).

The recognised and unrecognised deferred tax assets, excluding the deferred tax asset deducted in arriving at the net pension liability (see note 22) on the balance sheet, calculated under the liability method, at 20% (2013: 23%) are shown below:

	Group	
	2014	2013
	£'000	£'000
Difference between accumulated depreciation and amortisation and capital allowances	143	(91)

19. PROVISIONS FOR LIABILITIES

	At 1 April 2013 £'000	Increase/ (decrease) in the year £'000	Utilised in year £'000	Unwinding of discount £'000	At 31 March 2014 £'000
Concessionary fuel	1,274	104	-	-	1,378
Operating provisions	157,905	(7,214)	(689)	4,027	154,029
	<u>159,179</u>	<u>(7,110)</u>	<u>(689)</u>	<u>4,027</u>	<u>155,407</u>

Concessionary fuel retirement benefits

The company has a commitment to provide concessionary fuel benefits to retired ex British Coal employees. At retirement upon attaining the age of 50, and having been employed for a minimum of 15 years, employees become entitled to a retirement fuel allowance. 15 former workers and widows already receive this benefit and there are 12 current employees who will become members eligible for this allowance.

The principal assumptions used to estimate the amount of the provision are given below:

	2014	2013
Average retirement age	65 years	65 years
Discount rate	4.35%	4.45%
Pensionable life - current pensioner aged 60	25.6 years	25.3 years
Pensionable life - future retiree upon reaching 60	27.9 years	26.9 years

Concessionary fuel is an unfunded retirement benefit and as such there are no assets in the scheme.

Operating provisions

Operating provisions exist for restoration and rehabilitation of surface mine sites and distribution centres.

The total costs of reinstatement of soil excavation and of surface restoration are recognised as a provision on site commissioning when the obligation arises. The amount provided represents the present value of the expected future costs. Costs are charged to the provision as incurred and the unwinding of the discount is included in the interest charge for the year.

The timing and amounts of cash flows relating to the reinstatement of soil excavation and of surface restoration, of opencast sites and distribution centres, were estimated by management based on:

- past experience
- current extraction ratios
- best estimates of coaling cessation
- expectation of the cost and timing of site restoration/rehabilitation.

As set out in note 1 these items are based on management estimates and involve significant uncertainty.

22. EMPLOYEE BENEFIT OBLIGATIONS

The group operates defined benefit and defined contribution pension schemes.

Pension costs in respect of both defined benefit and defined contribution schemes are shown below:

	Group	
	2014	2013
	£'000	£'000
Defined benefit schemes	157	213
Defined contribution schemes	421	180
	<u>578</u>	<u>393</u>

British Coal employees whose employment transferred to Celtic Energy Limited are members of the Industry Wide Coal Staff Superannuation Scheme ("IWCSSS"), a defined benefit scheme. The Celtic Energy employee fund ("the Scheme") is part of the IWCSSS. The assets of the Scheme are held in separate trustee administered funds. The Scheme is subject to triennial valuation by independent professionally qualified actuaries, the most recent valuation being performed as at 31 December 2012.

The valuation was performed by the Scheme Actuary on the Projected Unit Method and reported in accordance with Guidance Note GN9 issued by the Institute of Actuaries and the Faculty of Actuaries.

The main assumption underlying the full actuarial valuation of the Scheme as at 31 December 2012 is a long term gross yield on scheme assets of 6.2% which will exceed the annual rate of increase in pensionable salaries by 3.6% and price inflation by 3.1%. Pensions are expected to increase in line with price inflation at 3.1%. The aggregate market value of the assets at the valuation date was £12.1 million for the IWCSSS. The aggregate funding level on an ongoing basis was 85.5%, i.e. there is an implied deficit of £2.0m. The company has agreed a recovery plan with the actuary involving a payment of approximately £0.9 million in December 2014 and a further £0.9 million to be paid in 2016 following the triennial valuation to 31 December 2015.

Following the actuarial valuation undertaken as at 31 December 2012, a revised contribution rate has applied, and additional payments are being made which are intended to make good the deficit. For members of the IWCSSS, employer contributions are 32% (2009 valuation: 33%).

Outstanding contributions at 31 March in respect of defined benefit and defined contribution schemes are shown below:

	Group	
	2014	2013
	£'000	£'000
Defined benefit schemes	18	18

Principal actuarial assumptions at the balance sheet date (expressed as weighted averages):

	2014	2013
Discount rate	4.35%	4.45%
Rate of price inflation	3.60%	3.55%
Future salary increases	4.10%	4.05%

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2014

22. EMPLOYEE BENEFIT OBLIGATIONS - continued

The assumptions relating to longevity underlying the pension liabilities at the balance sheet date are based on standard actuarial mortality tables and include an allowance for future improvements in longevity. The assumptions are equivalent to expecting a 60-year old to live for a number of years as follows:

- current pensioner aged 60: 25.6 years
- future retiree upon reaching 60: 27.9 years

Amounts for the current and previous four periods are as follows:

	2014	2013	2012 as restated	2011	2010 as restated
	£'000	£'000	£'000	£'000	£'000
Defined benefit pension plans					
Defined benefit obligation	(14,256)	(13,685)	(11,794)	(9,980)	(10,300)
Fair value of scheme assets	13,335	12,893	10,859	8,975	7,880
Deficit	(921)	(792)	(935)	(1,005)	(2,420)
 Experience adjustments on scheme liabilities	 5.52%	 -	 -1.47%	 7.85%	 -
 Experience adjustments on scheme assets	 -0.96%	 7.00%	 2.04%	 -	 19.40%

23. OTHER FINANCIAL COMMITMENTS

The group had no capital commitments at the year end (2013: £nil).

Annual commitments under non-cancelable operating leases are as follows:

	Group			
	2014		2013	
	Land and buildings	Other	Land and buildings	Other
	£'000	£'000	£'000	£'000
Operating leases which expire:				
Within one year	-	5	-	29
In the second to fifth years inclusive	99	43	69	16
More than five years	-	-	30	-
	<u>99</u>	<u>48</u>	<u>99</u>	<u>45</u>

DERIVATIVE FINANCIAL INSTRUMENTS

The group does not use derivative financial instruments for speculative purposes. At the year end the group was committed to purchase 24 million litres of diesel at approximately 48p per litre. This is entirely for the group's own use.
