1. Accounting Policies

A summary of the more important company accounting policies is given below. These policies are being applied consistently.

a. Basis of Accounting

The Financial Statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities.

The Company has taken advantage of the exemption from preparing a cash flow statement on the grounds that it qualifies as a small company under the Companies Act 1985.

b. Turnover

Turnover consists of the invoiced value (excluding value added tax) of sales of plants and gardening equipment supplied to third parties, in the United Kingdom during the year.

c. Intangible & Tangible Fixed Assets

The cost of Fixed Assets includes only expenditure incurred in bringing the assets into working condition for their intended use in their present location.

Depreciation is provided at the following Annual Rates to allocate the depreciable amount of each asset over its estimated useful life, on the reducing balance:-

	%
Plant & Equipment	20
Motor Vehicles	25
Computer Equipment	4 Years (Straight Line)
Goodwill	10 Years (" ")

d. Stocks

Stocks of plants and finished goods have been valued at the lower of cost or estimated realisable value.

e. Deferred Taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date except that a deferred tax asset is only recognised to the extent that it is regarded as recoverable. Deferred tax is measured using the tax rate that is expected to apply in the periods in which the timing differences are expected to reverse.
