Directors' responsibilities

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. - make judgements and estimates that are reasonable and prudent,

- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the directors are aware

- the directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 MARCH 2011

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards

The principal accounting policies of the company are set out below. The policies have remained unchanged from the previous year.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is wholly owned and its parent publishes a consolidated cash flow statement.

Turnover

Turnover represents rental income and the proceeds from the sale of trading properties and developments. Income from the sale of properties is included in the profit and loss account when, in the opinion of the directors, a binding contract of sale exists. Profit recognised but not received is carried forward in trade debtors.

Stocks

Stocks are stated at the lower of cost and net realisable value. Long-term contract balances included in stock are stated at cost, after provision has been made for any foreseeable losses and the deduction of applicable payments on account.

Deferred taxation

In accordance with FRS19 the Company makes full provision for timing differences which are primarily in respect of capital allowances on plant and machinery and industrial buildings allowances.

Deferred tax assets and liabilities provided for under FRS19 are discounted to reflect the time value of money between the balance sheet date and the dates that it is estimated that the underlying timing differences will reverse. Following the sale of a property, any deferred tax provisions not required will be released to the profit and loss account.

Deferred tax assets are recognised only when recovery of those assets is reasonably certain. No deferred tax liability is recognised in respect of the revaluation surplus on investment properties in accordance with FRS19.
