## **DIRECTORS' REPORT**

### **FOR THE YEAR ENDED 30 APRIL 2011**

---

The directors present their report and financial statements for the year ended 30 April 2011

#### **Principal activities and review of the business**

The principal activity of the company is that of property investment

Economic austerity continues to be a key theme in many European markets. This may have adverse impacts on both levels of employment and consumer confidence, as well as putting some brakes on economic growth across the Eurozone and has led to fears of a double dip recession. Current market and bank conditions have also contributed to the continued reluctance of senior lenders to return in scale to the property market, with a combination of diminished appetite, illiquidity and intensive position management meaning only a small number of banks are active in the property sector. The combination of the above means the property market continues to be very difficult and we expect this to continue during the next financial year. Whilst remaining vigilant for opportunities that may arise as a result of market dislocation, the directors are prudently approaching the protection and realisation of value in each of the company's assets.

Our financial risk management objectives are to protect the company from rising interest rates. This is achieved by entering into interest rate swaps on a Group basis. Other than this, the use of financial instruments is not material for the assessment of the assets, liabilities, financial position and loss of the company.

The results for the year and the financial position at the year end were considered satisfactory by the directors. No events have occurred since the balance sheet date which significantly affect the company.

#### **Results and dividends**

The results for the year are set out on page 6.

The directors do not recommend payment of an ordinary dividend.

#### **Directors**

The following directors have held office since 1 May 2010:

#### **Statement of directors' responsibilities**

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **FOR THE YEAR ENDED 30 APRIL 2011**

---

#### **1 Accounting policies**

##### **1.1 Accounting convention**

The financial statements are prepared under the historical cost convention.

The financial statements have been prepared on a going concern basis as in the directors' opinion the predicted future cash flows from the group's joint venture investments and funds available under the group banking facilities will be sufficient to meet the company's liabilities as they fall due.

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company

##### **1.2 Compliance with accounting standards**

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

##### **1.3 Investments**

Fixed asset investments are stated at cost less provision for diminution in value.

##### **1.4 Deferred taxation**

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted

##### **1.5 Group accounts**

The financial statements present information about the company as an individual undertaking and not about its group. The company has not prepared group accounts as it is exempt from the requirement to do so by section 400 of the Companies Act 2006 as it is a subsidiary undertaking of Real Estate Venture Capital Partners LLP, a limited liability partnership incorporated in England and Wales, and is included in the consolidated accounts of that limited liability partnership.

##### **1.6 Interest rate swaps**

The Group uses interest rate swaps to manage the exposure to interest rate movements arising from the business activities of the Group and the financing of those activities. Interest is charged to the profit and loss account during the year for the net income or expense for the company's allocation of the Group interest rate swap entered into. The Companies Act 2006 permits but does not require companies to adopt "fair value accounting" in respect of financial instruments that they are party to. As the company has chosen not to adopt fair value accounting, no entry is made for the fair value of, nor for the notional amount of the interest rate swap in the balance sheet.
