3. ACCOUNTING POLICIES

BASIS OF PREPARING THE FINANCIAL STATEMENTS

The financial statements have been prepared under the historical cost convention.

TURNOVER

Turnover represents amounts invoiced for plant hire and haulage services supplied during the period, net of value added tax.

Turnover has also been recognised in respect of on-going services, with the value of work completed but unbilled at the balance sheet date being taken to turnover and the associated costs, where not invoiced at that date, being accrued for.

TANGIBLE FIXED ASSETS

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Plant and machinery	- 25% on reducing balance
Fixtures and fittings	- 25% on cost
Motor vehicles	- 25% on reducing balance
Computer equipment	- 25% on cost

GOVERNMENT GRANTS

Government grants are recognised at fair value when there is reasonable assurance that the company will comply with the conditions attaching to them and the grants will be received.

Grants related to purchase of assets are treated as deferred income and allocated to income statement over the useful lives of the related assets while grants related to expenses are treated as other income in the income statement.

TAXATION

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

3. ACCOUNTING POLICIES - continued
DEFERRED TAX

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

HIRE PURCHASE AND LEASING COMMITMENTS

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to profit or loss over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.
