#### **DIRECTORS' REPORT** FOR THE YEAR ENDED 30 SEPTEMBER 2014

#### Directors' responsibilities statement

The directors are responsible for preparing the strategic report, the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements:
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### Disclosure of information to auditors

Each of the persons who are directors at the time when this directors' report is approved has confirmed that:

- so far as that director is aware, there is no relevant audit information of which the company's auditors are unaware, and
- that director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the company's auditors are aware of that information.

This report was approved by the board on 22 June 2015

and signed on its behalf.

#### STRATEGIC REPORT FOR THE YEAR ENDED 30 SEPTEMBER 2014

#### Introduction

The principal activity of the company, during the year under review, continued to be that of advertising contractors.

#### **Business review**

The results of the company for the year show a pre tax profit of £1,369,931 (2013: £1,628,039) based on sales of £11,753,936 (2013: £12,869,901). The directors consider the results for the year satisfactory and in line with expectations.

The company continues to invest in and execute its strategy towards being the leader within its market niche despite the economic climate as the directors believe that this will reap significant benefits in the future.

#### Principal risks and uncertainties

Although the market remains very competitive in the advertising arena the directors believe that the company is well positioned in terms of its contracts and relationships to continue to succeed.

The key business risks and uncertainties affecting the company are considered to relate to competition from similar format contractors, as well as other competing formats in the outdoor advertising arena, such as billboards and video displays.

The company manages these risks through an ongoing process of monitoring and researching the general economy, its customers and competitor activity as well as trends within the advertising arena.

#### Financial key performance indicators

Given the straightforward nature of the business, the company's directors are of the opinion that analysis using KPI's is not necessary for an understanding of the development, performance or position of the business.

This report was approved by the board on 22 June 20(5) and signed on its behalf.

Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

In addition, we read all the financial and non-financial information in the strategic report and the directors' report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

#### **Opinion on financial statements**

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 September 2014 and of its profit for the year then ended;

- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.
