Company law requires the Directors to prepare financial statements for each financial period. Under that law the Directors have prepared the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable IFRSs as adopted by the European Union have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and auditor

As explained more fully in the Statement of Directors' responsibilities, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 20 April 2017 and of its profit for the 52 weeks then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and

- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Notes to the financial statements

for the 52 weeks ended 20 April 2017

1. Accounting policies

General information

The Company is a private company limited by shares, which is incorporated and domiciled in the UK, and is registered in England and Wales. The address of its registered office is One Edison Rise, New Ollerton, Newark, Nottinghamshire, NG22 9DP.

Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and International Financial Reporting Interpretations Committee ("IFRIC") interpretations adopted by the European Union (EU) and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS.

The principal accounting policies applied in the preparation of these financial statements are set out below. All accounting policies are consistent with the prior period.

Basis of preparation

The financial statements have been prepared under the historical cost convention and on a going concern basis. The Company's accounting reference date is 22 April.

Going concern

The Company had no liabilities at the balance sheet date and the only activity anticipated by the Directors for the foreseeable future is the receipt of interest on intra-group loans. As such, the financial statements have been prepared on the going concern basis.

Cash Flow Statement

The Company had no cash flows during the current or prior period and hence no Cash Flow Statement has been presented.

Key assumptions and significant judgements

The preparation of financial statements requires management to make estimates and assumptions that affect the application of policies and reported amounts. Estimates and judgements are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The directors do not consider that there are any critical account judgments or key sources of estimation uncertainty.

Financial instruments

The Company classifies its financial assets into two categories, being fair value through profit and loss, and loans and receivables. Financial liabilities are classified as either fair value through profit and loss or other financial liabilities. The classification depends on the purpose for which the financial instruments were acquired. Management determines the classification of its financial instruments at initial recognition and re-evaluates this designation at each reporting date.

Other financial liabilities are carried at amortised cost using the effective interest rate method.

Details of the Company's financial risk management objectives are included in the strategic report.

Notes to the financial statements

for the 52 weeks ended 20 April 2017

1. Accounting policies (continued)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Company provides money, goods or services directly to a debtor with no intention of trading the receivable. They are included in current assets, except for maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are included in trade and other receivables in the balance sheet.

Investments

The cost of investments, including loans to associated companies, is their purchase cost.

The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In deciding whether an impairment is required, the Directors consider the underlying value inherent in the investment. Provision is made against the cost of investments where, in the opinion of the Directors, there is an impairment in the value of the individual investment.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Dividend distribution

Dividend distributions to the Company's shareholders are recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders. Interim dividends are recognised when paid.

Current and deferred tax

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date and is measured at the amount expected to be paid to or recovered from the tax authorities.

Deferred tax is provided in full, using the liability method, on all differences that have originated but not reversed by the balance sheet date which give rise to an obligation to pay more or less tax in the future. Differences are defined as the differences between the carrying value of assets and liabilities and their tax base.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the assets can be utilised.

Deferred tax is calculated using tax rates that are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled, on the basis of the tax laws enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are only offset when there is a legally enforceable right to offset current tax assets and current tax liabilities and when the deferred income taxes relate to the same fiscal authority and there is an intention to settle on a net basis.
