Thor Mining PLC Executive Chairman's Operating and Financial Review

Thor is a mineral exploration and development company focused on advancing its speciality metals projects. Thor assets include projects situated in the southern section of Australia's Northern Territory. The most developed, the Molyhil Project, contains the Molyhil tungsten-molybdenum deposit.

Thor is seeking to acquire uranium exploration projects in the central region of Australia's Northern Territory, the Hale River, the Plenty Highway, the Bundey River, the Harts Range, and the Curtis Pound Projects. Thor's other project, the Hatches Creek Project, is prospective for both tungsten and gold.

Thor will then have two groups of projects, tungsten - molybdenum and uranium.

Tungsten – molybdenum

The Molyhil deposit occurs in two adjacent skarn bodies that contain outcropping molybdenite and scheelite mineralisation. Since mid 2004 it has been the subject of systematic test-work: comprised of geophysical exploration, diamond and RC drilling programmes, surface and underground bulk sampling, metallurgical test-work and geotechnical studies. Subsequent to the 2005/6 bulk sampling programme, Continental Resource Management Pty Ltd estimated resources for the deposit.

The updated 2006 Uncut Mineral Resource is presented below:

| | Tonnes | WO³ % | MoS ² % | Combined % |
|-----------|-----------|-------|--------------------|------------|
| Measured | 370,000 | 0.52 | 0.32 | 0.85 |
| Indicated | 1,750,000 | 0.52 | 0.26 | 0.77 |
| Inferred | 250,000 | 0.70 | 0.20 | 0.90 |
| TOTAL | 2,380,000 | 0.54 | 0.26 | 0.80 |

Note: Totals may differ from sum of individual items due to rounding.

This resource was used as the foundation of the Scoping Study.

Thor has now commissioned a Definitive Feasibility Study which is due for completion in the last quarter of 2006 and proposes to begin exploration for tungsten and gold within its Hatches Creek Project.

Uranium

Thor will shortly hold a shareholders meeting to consider the acquisition of Hale Energy Limited which owns uranium projects as detailed below.

The Hale River Project covers 160 km² of Tertiary basin sediments. These sediments are prospective for palaeochannel roll-front type uranium deposits. Previous exploration of the project area, undertaken between 1979 and 1981, delineated a redox front within sands containing anomalous uranium.

The Plenty Highway and Bundey River Projects contain about 1,200km² of Tertiary sediments, which cover an internally drained area within the Proterozoic Arunta Block. The sediments have the potential to host palaeochannel uranium mineralisation.

Thor Mining PLC Executive Chairman's Operating and Financial Review

The Harts Range Project covers 362km² of the Proterozoic Harts Range Metamorphic Complex. The tenements were explored for uranium between 1992 and 1995 following the flying of airborne radiometric and magnetic surveys. Numerous occurrences of uranium mineralisation were found, many of which were associated with alteration along structural breaks or contacts.

Further north, the Curtis Pound Project, situated over Proterozoic rocks of the Tennant Inlier, contains a number of identified radiometric anomalies.

Operating review

During the year £760,281 was spent on Molyhil being £647,819 on exploration and £112,462 on the Scoping Study. This compares with the respective budgets of £410,000 and £200,000.

The exploration program included sinking three shafts and crosscuts to enable bulk samples to be extracted to evaluate the true head grade and mineralogical characteristics of the Molyhil deposit. The results were utilised to generate a new JORC Code compliant resource and provide the final resource for the Scoping Study.

The results of the Scoping Study were released in early 2006. The highlights of the outcomes for the Molyhil Project Scoping Study included:

- 300,000 tonne per annum open pit mining operation for the initial 4 years production.
- Forecasted cash operating cost of A\$80 per tonne.
- Estimated capital cost of A\$20M.

Based on the above and other outcomes and assumptions the Scoping Study indicates that the Molyhil Project could have a positive pre tax operational cash flow of up to A\$140m over a 4 year mine life.

As a result of the completion of the Scoping Study, the Directors of Thor decided to proceed immediately with the Definitive Feasibility Study.

As part of this study, additional drilling will be undertaken. The objectives of this drilling include:

- Selected deep drilling to test below the proposed open pit.
- Geotechnical holes, for the proposed tailings dam and open pit.
- Borefield set up.

The Definitive Feasibility Study is being undertaken to complete further studies and drilling and do a sensitivity analysis to verify all of the outcomes and assumptions identified during the Scoping Study. Until the Definitive Feasibility Study has been completed Thor cannot make any representation or warranty (express or implied) as to the accuracy, reliability, reasonableness or completeness of the Scoping Study outcomes and assumptions.

In addition to the work at Molyhil, low level airborne photography and magnetic surveys have been flown at Hatches Creek to enable an exploration program for 2006/07 to be finalised. This program will be submitted to the traditional owners for approval and is anticipated to result in an agreement being executed and thereafter the grant of title.

At Thring Creek a detailed ground magnetic survey was undertaken. The agreement with the Traditional Owners was executed, and drilling was undertaken. No significant mineralisation was located.

Finally, the Board welcomes Mr John A Young to the position of Chief Executive Officer. John will be primarily responsible for driving the Company forward and we welcome, his involvement.

John ₩ Barr

Executive Chairman

August 2006

Thor Mining PLC Directors' Report

The Directors present their report and accounts for the year ended 30 June 2006.

Principal activities and review of the business

The principal activity of the Group is the exploration for and development of molybdenum and tungsten deposits in the Northern Territory of Australia, including the Molyhil and Hatches Creek Projects.

Thor is in the process of acquiring uranium exploration projects in the central region of Australia's Northern Territory, the Hale River, the Plenty Highway, the Bundey River, the Harts Range and the Curtis Pound Projects.

A detailed review of the Groups activities is set out in the Executive Chairman's operating and financial review.

Results and dividends

The Group incurred a loss after taxation of £684,000 (2005: £99,000) and no dividends have been paid or are proposed.

Events since the balance sheet date

A detailed review of events since the balance sheet date is included in note 24 to the accounts.

Directors

The Directors who served during the period and their interests in the share capital of the Company were as follows:

| •••••••••••••••••••••••••••••••••••••• | Ordinary Shares | Ordinary Shares |
|---|-----------------|-----------------|
| | 30 June 2006 | 30 June 2005 |
| John W Barr | 45,000,000 | 45,000,000 |
| P Mark Smyth | 4,150,000 | 4,150,000 |
| Gregory M Durack (appointed 18 July 2005) | · · · - | ~ |
| John A Young (appointed 30 June 2006) | - | ~ |
| Andrew R M Bell | • | 8,200,000 |

The Directors interests were indirect interests held in the following:

John W Barr

P Mark Smyth

Andrew R M Bell

Tennant Creek Gold Limited
Smyth Superannuation Fund
Regency Mines PLC

The other Directors had no beneficial interests in either the share capital or options at the date of this report.

John W Barr has an interest in 4,000,000 share options granted on 25 July 2005.

Gregory M Durack is Managing Director and a shareholder of Batavia Mining Ltd and as such will have an interest in 16,000,000 shares and 8,500,000 warrants that may be issued as a result of the acquisition of Hale Energy Ltd which owns the uranium assets referred to above. This acquisition is subject to shareholder approval, a capital raising, and listing on the ASX.

A Director and shareholder of Batavia Mining Ltd, Neil G Biddle, has an interest in 4,000,000 share options granted on 25 July 2005 and as a Director of Batavia Mining Ltd will have an interest in 16,000,000 shares and 8,500,000 warrants that may be issued as a result of the acquisition of Hale Energy Ltd which owns the uranium assets referred to above.

Thor Mining PLC Directors' Report

Directors' responsibilities

Company law requires the Directors to prepare accounts for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss for that period. In preparing those accounts, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

So far as each director is aware, there is no relevant audit information of which the Company's auditors are unaware, and the directors have taken all the steps that they ought to have taken as directors' in order to make themselves aware of any relevant audit information and to establish that the Company's auditor are aware of that information.

The Directors are responsible for maintaining proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the accounts comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Substantial share interests

As at 31 July 2006 the Company was aware of the following substantial share interests:

| | Ordinary shares | % |
|--|-----------------|-------|
| Tennant Creek Gold Limited | 45,000,000 | 23.48 |
| Credit Suisse First Boston Client Nominees Limited | 38,750,000 | 20.22 |
| Vidacos Nominees Limited | 20,364,680 | 10.62 |
| Pershing Keen Nominees Limited | 15,015,000 | 7.83 |

Creditor payment policy

It is the Groups policy to settle all amounts due to creditors in accordance with agreed terms of supply and market practice in the relevant country.

Corporate governance

Corporate governance is conducted in accordance with the Combined Code where relevant to smaller Companies. The board has established an Audit Committee comprising of P Mark Smyth (Chairman) and Gregory M Durack. The primary role of the Audit Committee is to review the accounts of the Group and liaise with the Group's auditors. In addition a Remuneration Committee has been established to review executive remuneration. This comprises P Mark Smyth (Chairman) and Gregory M Durack. Meetings are held in accordance with financial reporting procedures.

Going concern

The Directors confirm that, after making enquiries, they have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. For this reason they have adopted the going concern basis in preparing these accounts.

Thor Mining PLC Directors' Report

Subsequent events

The Directors have resolved to call a meeting of shareholders to consider a number of matters including:

- a consolidation of share capital (i)
- the issue of Warrants to shareholders (ii)
- acquiring Hale Energy Ltd (iii)
- an IPO and capital raising to facilitate listing on the Australian Stock (iv) Exchange.
- the issue of options (v)
- changes to the articles (vi)

Auditors

A resolution to reappoint Chapman Davis LLP as auditors will be put to the members at the Annual General Meeting, to be held on 5 September 2006.

This report was approved by the board on 4 August 2006.

Damian P Delaney Company Secretary

Thor Mining PLC

Independent auditors' report to the Shareholders of Thor Mining PLC

We have audited the accounts for the year ended 30th June 2006 which comprise Consolidated Income Statement, Company Income Statement, Consolidated Balance Sheet, Company Balance Sheet, Consolidated Statement of Recognised Income and Expense, Consolidated Cash Flow Statement together with the related notes 1 to 27. These Group financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the Company's members, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and Auditors

As described in the Statement of Directors' Responsibilities the Company's Directors are responsible for the preparation of the accounts in accordance with applicable law and International Financial Reporting Standards as adopted by the European Union.

Our responsibility is to audit the Group financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the Group financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985 and Article 4 of the IAS Regulation. We also report to you if, in our opinion, the Directors' Report is not consistent with the Group financial statements, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and transactions with the Company is not disclosed.

We read the Directors' Report and consider the implications for our report if we become aware of any apparent misstatements within it.

We read other information contained in the Annual Report and consider whether it is consistent with the audited Group financial statements. This other information comprises only the Directors Report and the Executive Chairman's Operating and Financial Review. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the Group financial statements. Our responsibilities do not extend to any other information.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the Group financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the Group financial statements, and of whether the accounting policies are appropriate to the Group's circumstances, consistently applied and adequately disclosed.

Thor Mining PLC

Independent auditors' report to the Shareholders of Thor Mining PLC

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Group financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the Group financial statements.

Opinion

In our opinion the Group financial statements:

give a true and fair view ,in accordance with IFRS`s as adopted by the European Union, of the state of the Group's and Company's affairs as at 30th June 2006 and of its loss for the year then ended ;and

have been properly prepared in accordance with the Companies Act 1985

and Article 4 of the IAS Regulation.

The accompanying notes form part of these financial statements

Thor Mining PLC Notes to the Accounts for the year ended 30 June 2006

1 Principal accounting policies

a) Accounting convention

These accounts have been prepared under the historical cost convention in accordance with International Financial Reporting Standards and IFRS interpretations and with those parts of the Companies Act, 1985 applicable to companies reporting under IFRS.

b) Basis of consolidation

The consolidated accounts combine the accounts of the Company and its sole subsidiary, Sunsphere Pty Ltd, using the purchase method of accounting.

In the Company's balance sheet the investment in Sunsphere Pty Ltd includes the nominal value of shares issued together with the cash element of the consideration. As required by sections 131 and 133 of the Companies Act 1985 no premium was recognised on the share issue. The difference between nominal and fair value of the shares issued was credited to the merger reserve.

c) Goodwill

Goodwill on acquisition is capitalised and shown within non-current assets. Positive goodwill is subject to annual impairment review with movements charged in the income statement.

Negative goodwill is reassessed by the Directors and attributed to the relevant assets to which it relates.

d) Fixed asset investments

Investments in subsidiary companies are classified as fixed assets and included in the balance sheet of the Company at cost at the date of acquisition irrespective of the application of merger relief under the Companies Act.

e) Deferred taxation

Full provision is made for deferred taxation resulting from timing differences which have arisen but not reversed at the balance sheet date.

f) Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the income statement.

On consolidation of a foreign operation, assets and liabilities are translated at the balance sheet rates, income and expenses are translated at rates ruling at the transaction date. Exchange differences on consolidation are taken to the foreign exchange reserve account.

Thor Mining PLC Notes to the Accounts

1 Principal accounting policies (continued)

g) Exploration and development expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against the income statement in the year in which the decision to abandon the area is made.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are expensed as incurred and treated as exploration and evaluation expenditure.

h) Share based payments

The share option programme allows the consolidated entity's employees and consultants to acquire shares of the Company. The fair value of options granted is recognised as an employee/consultants expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees/consultants become unconditionally entitled to the options. The fair value of the options granted is measured using a Black Scholes model, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is only due to share prices not achieving the threshold for vesting.

2 Turnover and Segmental analysis

The Group had no turnover during the year.

Thor Mining PLC Notes to the Accounts

5 Directors and Executive Disclosures (continued)

(b) Compensation of Key Management Personnel

Compensation Policy

The compensation policy is to provide a fixed remuneration component and a specific equity related component. There is no separation of remuneration between short term incentives and long term incentives. The board believes that this compensation policy is appropriate given the stage of development of the Company and the activities which it undertakes and is appropriate in aligning director and executive objectives with shareholder and businesses objectives.

The compensation policy, setting the terms and conditions for the executive directors and other executives has been developed by the board after seeking professional advice and taking into account market conditions and comparable salary levels for companies of a similar size and operating in similar sectors.

Directors receive a base fee of £12,000 per annum.

Executive Directors and executives receive either a salary or provide their services via a consultancy arrangement. Directors and executives do not receive any retirement benefits.

All compensation paid to directors and executives is valued at cost to the Company and expensed.

The board policy is to compensate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payments to the non-executive directors and reviews their compensation annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to directors is subject to approval by shareholders at a General Meeting. Fees for non-executive directors are not linked to the performance of the economic entity. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company and may receive options.

Thor Mining PLC Notes to the Accounts

5 Directors and Executive Disclosures (continued)

(b) Compensation of Key Management Personnel (continued)

Employment contracts

Mr John W Barr as the Executive Chairman is retained by a consultants contract with Kensington Consulting Pty Ltd, this contract is for a 12 month period until 19 May 2007 with option for extension. The contract may be terminated by either party on a 3 month notice.

Mr John A Young has been employed as the Chief Executive Officer under a short term consultant contract till 1 August 2006 and now has an Employment Contract with the Company, which requires 6 months notice of termination by either party.

There are no termination payments under any of the consultant's contract.

Thor Mining PLC

5 Directors and Executive Disclosures (continued)

(f) Equity holdings and transactions of Key Management Personnel Key management personnel of Thor Mining PLC, including their personallyrelated entities, did not hold shares in Thor Mining PLC during the reporting period (including the prior year) nor at the date of this report.

(g) Other transactions and balances with related parties

| Specified Directors | Transaction | Note | 2006 £′000 | 2005 £′000 |
|---------------------|-----------------|-------|---------------|---------------|
| John W Barr | Consulting Fees | (i) | 68 | - |
| Gregory M Durack | Consulting Fees | (ii) | 11 | - |
| John A Young | Consulting Fees | (iii) | 6 | - |

- (i) The Company used the management consulting services of Kensington Consulting Pty Ltd, a company of which Mr John W Barr is a director.
- (ii) The Company used the consulting services of Mr Gregory M Durack.
- (iii) The Company used the consulting services of John A Young Geological Service, a company of which Mr John A Young is a director.

Amounts were billed based on normal market rates for such services and were due and payable under normal payment terms.

Thor Mining PLC Notes to the Accounts (continued)

6 Taxation

| O TAXALION | 2006 £′000 | 2005 £′000 |
|--------------------------------------|---------------|---------------|
| Analysis of charge in year | - | - |
| Tax on profit on ordinary activities | | |

Factors affecting tax charge for year

The differences between the tax assessed for the year and the standard rate of corporation tax are explained as follows:

| | 2006 £′000 | 2005 £′000 |
|--|---------------|---------------|
| Loss on ordinary activities before tax Standard rate of corporation tax in the UK | (684) 30% | (99) 30% |
| | £′000 | £′000 |
| Loss on ordinary activities multiplied by the standard rate of corporation tax | (205) | (30) |
| Effects of: Future tax benefit not brought to account Current tax charge for year | 205 | 30 |

No deferred tax asset has been recognised because there is insufficient evidence of the timing of suitable future profits against which they can be recovered.

7 Loss per share

The basic loss per share is derived by dividing the loss for the period attributable to ordinary shareholders by the weighted average number of shares in issue.

| | 2006 £′000 | 2005 £′000 |
|---|----------------------|--------------------|
| Loss for the period Weighted average number of Ordinary shares | (684) 182,387,329 | (99) 64,360,000 |
| of £0.001 in issue Loss per share – basic | (0.36)p | (0.15)p |

The basic earnings per share has been calculated on a loss on ordinary activities after taxation of £684,000 (2005:£99,000 loss) and on 182,387,329 (2005: 64,360,000) ordinary shares being the weighted average number of shares in issue and ranking for dividend during the period.

No diluted loss per share is presented as the effect of exercise of outstanding options is to decrease the loss per share.

Thor Mining PLC Notes to the Accounts

24 Post balance sheet events

As announced on 13 June 2006, Thor is seeking to acquire uranium exploration projects in the central region of Australia's Northern Territory. Thor will shortly hold a shareholders meeting on 5 September 2006 to consider the acquisition of Hale Energy Limited from Batavia Mining Limited and a number of other proposals.

Hale Energy Limited tenements are prospective for uranium deposits. The acquisition will be satisfied by the issue of 16,000,000 Company shares and 8,500,000 warrants. It is proposed that these securities will be offered after a consolidation of the current equity securities on a 1 for 3 basis.

It is also proposed to issue new shares and warrants via an initial public offer (IPO) in Australia and to list on the Australian Stock Exchange (ASX).

25 Contingent liabilities and commitments

a) Exploration commitments

Ongoing exploration expenditure is required to maintain title to the Group mineral exploration permits. No provision has been made in the financial statements for these amounts as the expenditure is expected to be fulfilled in the normal course of the operations of the Group.

b) Claims of native title

The Directors are aware of native title claims which cover certain tenement and tenement applications in the Northern Territory. The Group's policy is to operate in a mode that takes into account the interests of all stakeholders including traditional owners requirements and environmental requirements. At the present date no claims for native title have seriously affected exploration by the Company.

26 Financial instruments

The Group uses financial instruments comprising cash, liquid resources and debtors/creditors that arise from its operations.

The Group's exposure to currency and liquidity risk is not considered significant. The Group's cash balances are held in Pounds Sterling and in Australian Dollars, the latter being the currency in which the significant operating expenses are incurred.

To date the Group has relied upon equity funding to finance operations. The Directors are confident that adequate cash resources exist to finance operations to commercial exploitation but controls over expenditure are carefully managed.

Thor Mining PLC Notes to the Accounts

26 Financial instruments (continued)

The net fair value of financial assets and liabilities approximates the carrying values disclosed in the financial statements. The currency and interest rate profile of the financial assets is as follows:

Cash and short term deposits

| | June 2006 | June 2005 |
|--------------------|-----------|-----------|
| | £′000 | £′000 |
| Sterling | 268 | 1,179 |
| Australian Dollars | 216 | 325 |
| At 30 June | 484 | 1,504 |

The financial assets comprise interest earning bank deposits.

27 Related parties

There is no ultimate controlling party.

Thor has lent funds to its wholly owned subsidiary, Sunsphere, to enable it to carry out its operations in Australia. At 30 June 2006 this converted to £1,100,000.

The Group is related to Kensington Consulting Pty Ltd, a Company in which John W Barr is a Director and employee. The Company entered into a consultancy agreement in 2005 which provides Kensington Consulting with maximum monthly fees of £8,000. During the year £22,176 was paid by Thor and £45,850 paid by Sunsphere to Kensington Consulting for services provided by Mr Barr. This agreement was extended for a further twelve months until 19 May 2007.

The Group is also related to Martineau Resources Pty Ltd a company which Mr Gregory M Durack is a Director. During the period £11,297 was paid to Martineau Resources Pty Ltd.

As of 30 June 2006 John A Young was appointed to the Chief Executive Officer and is a director of John A Young Geological Services which is related to the Group. During the period $\pounds6,072$ was paid to John A Young Geological Services.

The Group paid Tennant Creek Gold Ltd £110,000 for the reimbursement of office and administration costs. Mr Barr is a Director of Tennant Creek Gold Ltd. Services were reimbursed at cost.

There are no other amounts outstanding to/from related parties at the balance sheet date.
